The End Of Summer Science Fiction Of The Fifties:

The End of Summer Barry N. Malzberg, Bill Pronzini, 1979 Jewish Science Fiction and Fantasy of the 1960s and 70s Valerie Estelle Frankel, 2024-09-05 Following the Holocaust American literature experienced a resurgence of Jewish themes characters and contributions This book focuses on the genres of science fiction and fantasy of the post Holocaust period and argues that while the era was colored by grief it also offered a renaissance of Jewish creative expression The author provides an overview of texts beginning with the rise of Jewish speculative fiction anthologies in science fiction and fantasy and delving into emerging subgenres such as alternate history post apocalyptic cold war second wave feminism counterculture parodies new wave postmodernism and cyberpunk to illustrate how Jewish culture made its mark on popular culture The book also covers the Silver Age and Bronze Age of comics which saw Stan Lee Jack Kirby Julius Schwartz and Marv Wolfman form new superhero teams to battle prejudice and draws parallels with some of the most impactful shows made by Jewish creators including Star Trek Twilight Zone and Doctor Who The analysis also looks beyond the American context to include texts from Germany the Soviet Union Brazil and Israel **The Cambridge Companion to Science Fiction** Edward James, Farah Mendlesohn, 2003-11-20 Science fiction is at the intersection of numerous fields It is a literature which draws on popular culture and which engages in speculation about science history and all types of social relations This volume brings together essays by scholars and practitioners of science fiction which look at the genre from these different angles After an introduction to the nature of science fiction historical chapters trace science fiction from Thomas More to more recent years including a chapter on film and television The second section introduces four important critical approaches to science fiction drawing their theoretical inspiration from Marxism postmodernism feminism and queer theory The final and largest section of the book looks at various themes and sub genres of science fiction A number of well known science fiction writers contribute to this volume including Gwyneth Jones Ken MacLeod Brian Stableford Andy Duncan James Gunn Joan Slonczewski and Damien Broderick Science Fiction, Canonization, Marginalization, and the Academy Gary Westfahl, George Slusser, 2002-01-30 Science fiction occupies a peculiar place in the academic study of literature For decades scholars have looked at science fiction with disdain and have criticized it for being inferior to other types of literature But despite the sentiments of these traditionalists many works of science fiction engage recognized canonical texts such as the Odyssey and many traditionally canonical works contain elements of science fiction More recently the canon has been subject to revision as scholars have deliberately sought to include works that reflect diversity and have participated in the serious study of popular culture But these attempts to create a more inclusive canon have nonetheless continued to marginalize science fiction This book examines the treatment of science fiction within the academy The expert contributors to this volume explore a wide range of topics related to the place of science fiction in literary studies These include academic attitudes toward science fiction the role of journals and cultural gatekeepers in canon formation and the marginalization of specific

works and authors by literary critics In addition the volume gives special attention to multicultural and feminist concerns In discussing these topics the book sheds considerable light on much broader issues related to the politics of literary studies and academic inquiry
