The Enduring Ghetto Sources And Readings:

The Enduring Ghetto David R. Goldfield, James B. Lane, 1973

The Enduring Ghetto David R. Goldfield, 1973

Lower East Side Memories Hasia R. Diner, 2002-03-03 Manhattan's Lower East Side stands for Jewish experience in America. With the possible exception of African Americans and Harlem, no ethnic group has been so thoroughly understood and imagined through a particular chunk of space. Despite the fact that most American Jews have never set foot there and many come from families that did not immigrate through New York, much less reside on Hester or Delancey Street, the Lower East Side is firm in their collective memory. Whether they have been there or not, people reminisce about the Lower East Side as the place where life pulsed, bread tasted better, relationships were richer, tradition thrived, and passions flared. This was not always so. During the years now fondly recalled 1880-1930, the neighborhood was only occasionally called the Lower East Side. Though largely populated by Jews from Eastern Europe, it was not ethnically or even religiously homogenous. The tenements, grinding poverty, sweatshops, and packs of roaming children were considered the stuff of social work, not nostalgia and romance. To learn when and why this dark warren of pushcart-lined streets became an icon, Hasia Diner follows a wide trail of high and popular culture. She examines children's stories, novels, movies, museum exhibits, television shows, summer camp reenactments, walking tours, consumer catalogues, and photos hung on deli walls far from Manhattan. Diner finds that it was after World War II when the Lower East Side was enshrined as the place through which Jews passed from European oppression to the promised land of America. The space became sacred at a time when Jews were simultaneously absorbing the enormity of the Holocaust and finding acceptance and opportunity in an increasingly liberal United States. Particularly after 1960, the Lower East Side gave often secularized and suburban Jews a biblical yet distinctly American story about who they were and how they got here. Displaying the author's own fondness for the Lower East Side of story books combined with a commitment to historical truth, *Lower East Side Memories* is an insightful account of one of our most famous neighborhoods and its power to shape identity.

A Nation of Neighborhoods Benjamin Looker, 2015-10-22 Benjamin Looker investigates the cultural, social, and economic complexities of the idea of neighborhood in postwar America. In the face of urban decline, competing visions of the city, neighborhood's significance and purpose became proxies for broader debates over the meaning and limits of American democracy. Looker examines radically different neighborhood visions by urban artists, critics, writers, and activists to show how sociological debates over what neighborhood values resonated in art, political discourse, and popular culture. The neighborhood, both the epitome of urban life and in its insularity, an escape from it, was where twentieth-century urban Americans worked out solutions to tensions between atomization or overcrowding, harsh segregation or stifling statism, ethnic assimilation or cultural fragmentation.

America Aflame David

Goldfield,2011-03-15 In this spellbinding new history David Goldfield offers the first major new interpretation of the Civil War era since James M McPherson's *Battle Cry of Freedom* Where past scholars have limned the war as a triumph of freedom Goldfield sees it as America's greatest failure the result of a breakdown caused by the infusion of evangelical religion into the public sphere As the Second Great Awakening surged through America political questions became matters of good and evil to be fought to the death The price of that failure was horrific but the carnage accomplished what statesmen could not It made the United States one nation and eliminated slavery as a divisive force in the Union The victorious North became synonymous with America as a land of innovation and industrialization whose teeming cities offered squalor and opportunity in equal measure Religion was supplanted by science and a gospel of progress and the South was left behind Goldfield's panoramic narrative sweeping from the 1840s to the end of Reconstruction is studded with memorable details and luminaries such as Harriet Beecher Stowe Frederick Douglass and Walt Whitman There are lesser known yet equally compelling characters too including Carl Schurz a German immigrant war hero and postwar reformer and Alexander Stephens the urbane and intellectual vice president of the Confederacy *America Aflame* is a vivid portrait of the fiery trial that transformed the country we live in
