The Cat in the mysteries of religion and magic M. Oldfield Howey, 1930 **The Cat in the Mysteries of Religion and Magic** M. Oldfield Howey, 1981 *The Cat in the Mysteries of Religion and Magic, By M. Oldfield Howey* M. Oldfield Howey, 1955 **The Cat in Magic and Myth** M. Oldfield Howey, 2003-01-01 The cat has symbolized a host of concepts good and evil light and darkness religion and black magic This intriguing book traces the history of these fascinating creatures from vampire and clairvoyant cats to cats in heraldry as sacrificial objects and idols of secret sects Includes 50 black and white illustrations *The Cat in the Mysteries of Magic and Religion* M. Oldfield Howey, 1955 [The Ethics of Reading According to Emmanuel Levinas](#) Roland A. Champagne, 2023-06-05 Reading a text is an ethical activity for Emmanuel Levinas His moral philosophy considers written texts to be natural places to discover relations of responsibility in Western philosophical systems which are marked by extreme violence and totalizing hatred While ethics is understood to mean a relationship with the other and reading is the appropriation of the other to the self readings according to Levinas naturally entail relationships with the other Levinas s own writings are often fraught with the struggle between his own maleness the concerns of feminism and the Judaism that marks his contributions to the debates of the Talmud This book uses male feminism as its perspective in presenting the applications of Levinas s ethical vision to texts whose readings have presented moral dilemmas for women readers Levinas s philosophical theories can provide keys to unlock the difficulties of these texts whose readings will provide models of reading as ethical acts beginning with the ethical contract in Song of Songs where the assumption of a woman writer begins the elaboration of issues that sets a male reader as her other From the reader s vantage point of seeing the self as other other issues of male feminism become increasingly poignant ranging from the solicitude of listening to C line Chapter 2 the responsibility for noise in Nizan Chapter 3 the asymmetrical pattern of face to face relationships in Maupassant Chapter 4 the sovereignty of laughter in Bataille and Zola Chapter 5 the call of the other in Italo Svevo Chapter 6 the Woman as Other in Breton Chapter 7 the ethical self in Drieu la Rochelle Chapter 8 the response to Hannah Arendt Chapter 9 and the vulnerability of Bernard Henri L vy Chapter 10 The male feminist reader is thus the incarnation of the struggle at the core of the issues outlined by Levinas for the act of reading as an ethical endeavor

Rethinking the Anthropology of Magic and Witchcraft Phillips Stevens, Jr., 2023-12-12 This book introduces students to the anthropology of magic and witchcraft terms widely used but with no widely accepted definitions It takes a new approach to this area within the anthropology of religion demonstrating that the bases for these beliefs and alleged practices are inherent in human cognition and psychology even instinctual and likely rooted in our evolutionary biology It shows how magic and magical thinking are regular elements in people s daily lives and that understanding the components of the witchcraft complex offers surprisingly important insights into patterns of thinking and social behavior The book reviews the many meanings of magic and witchcraft and introduces the best anthropological meanings of the terms The components

of these beliefs are timeless and universal this fact and recent advances in the brain sciences suggest that the principles of magic are derived from basic processes of human thinking and the attributes of the witch derive from neurobiologically based fears and fantasies The propensity for such beliefs probably had adaptive significance in the evolutionary development of the human species they are inherently human This book is intended to focus anew on the core concepts of magic witchcraft and the supernatural while also serving as an introduction to the anthropology of religion for undergraduate and graduate level courses

Classical Cats Donald W. Engels, 2018-10-03 This is the definitive book on classical cats The cat has played a significant role in history from the earliest times Well known is its role in the religion and art of ancient Egypt no less than its association with witchcraft in the Middle Ages But when did the cat become a domestic companion and worker as well There has been much debate about the position of the cat in ancient Greece and Rome Artistic representations are sometimes ambiguous and its role as a mouse catcher seems often to have been carried out by weasels Yet other evidence clearly suggests that the cat was as important to Greeks and Romans as it is to many modern people This book is the first comprehensive survey of the evidence for cats in Greece and Rome and of their functions and representations in art Donald Engels draws on authors from Aesop to Aristotle on vase painting inscriptions and the plastic arts and on a thorough knowledge of zoology of the cat He also sets the ancient evidence in the wider context of the Egyptian period that preceded it as well as the views of the Church fathers who ushered antiquity into the Middle Ages
