

The background of the cover is a stylized, high-contrast red maple leaf. The leaf is composed of several large, angular segments that radiate from the center, creating a sense of movement and depth. The segments are separated by thin white lines, and the overall shape is a classic seven-pointed maple leaf.

## **The Changing Canadian Metropolis A Public Policy Perspective:**

**The Changing Canadian Metropolis**, 1994 Students of Canadian urbanism have paid less attention to the influence of public policy on the development and character of urban places than they have to the influence of economic forces technological change geography culture and language They also tend to treat large cities in isolation from the metropolitan areas with which their fates are intertwined In this two volume study public policy and metropolitan areas are the principal matters of interest Volume One looks at linkages between public policy and changes occurring within or impinging on Canada's system of metropolitan areas and its 25 individual components It considers changes in the Canadian economy and in the forces that drive it in the nature of work and workplaces in the participation of women in the labour force in the social composition of metropolitan populations and in public attitudes to the environment Volume Two deals with aspects of urban policymaking at the federal provincial municipal and in some areas metropolitan or regional levels of government It shows that policies adopted by all levels of government can have important consequences for metropolitan area development and social character even though the Canadian constitution clearly makes provincial governments responsible for municipal institutions and local services

*Planning Canadian Regions* Gerald Hodge, Ira M. Robinson, 2007-10-01 *Planning Canadian Regions* is the first book to consolidate the history evolution current practice and future prospects for regional planning in Canada As planners grapple with challenges wrought by globalization the evolution of massive new city regions and the pressures for sustainable and community economic development a deeper understanding of Canada's approaches is invaluable Hodge and Robinson identify the intellectual and conceptual foundations of regional planning and review the history and main modes of regional planning for rural regions economic development regions resource development regions and metropolitan and city regions They draw lessons from Canada's past experience and conclude by proposing a new paradigm addressing the needs of regional planning now and in the future emphasizing regional governance greater inclusiveness and integration of physical planning with planning for economic sustainability and natural ecosystems *Planning Canadian Regions* will be a much needed text for students and teachers of regional planning and an indispensable reference for planning practitioners It will also find a receptive audience in such disciplines as urban planning environmental studies geography political science public administration and economics

*Local Economic Development Policy* Laura A. Reese, Urban Center Staff, 2014-04-04 First published in 1997 Part of the contemporary urban affairs series this volume looks at the local economic development policy of the United States and Canada Laura Reese compares and analyzes local economic development efforts in Michigan and Ontario She seeks to redress the paucity of literature comparing local economic development in the United States and Canada Her goal is to examine and refine current theories of economic development policy making to include the role of professional bureaucrats and to test an explanatory model which operates cross nationally Her study documents significant statutory differences of local economic development policies between the

United States and Canada At the same time it shows that the similarities are greater than the differences It is in the bureaucratic world where the differences really narrow

**Governing Metropolitan Regions in the 21st Century** Donald Phares, 2015-01-28 While government provides the structure of public leadership governance is the art of public leadership This timely book examines current trends in metropolitan governance issues It analyzes specific cases from thirteen major metropolitan regions in the United States Canada and Mexico all woven together by an overall framework established in the first three chapters The distinguished contributors address such governance issues as city county consolidation local federal coordination annexation and special districting and private contracting with special attention to lessons learned from both successes and failures As urban governance innovations have clearly outpaced urban government structures in recent years the topics covered here are especially relevant

**On Location** Serra Tinic, 2005-12-15 Film and television production are important components of the Canadian economy In Vancouver popular American television series like The X Files and Canadian series like Da Vinci's Inquest have boosted the city's profile as a centre for international and domestic productions Serra Tinic's On Location is the first empirical analysis of regional Canadian television producers in the context of developing global media markets Tinic observes that global television production in Vancouver has been a contradictory process that has on one level led to the homogenization of culturally specific storylines while simultaneously facilitating the development of new avenues for international ventures The author explains how federal and regional network considerations funding guidelines and partnerships with international co-producers affect the capacity of Canadian television producers to negotiate culturally specific storylines in the development process She further interrogates the concepts of globalization culture and national identity and their relationship to broadcasting from the perspectives of members of the television industry themselves highlighting the extent to which industry practices in Vancouver epitomize current trends in global television production On Location fills a major gap in contemporary media and cultural studies debates that question the connections between the politics of place culture and commerce within the larger context of cultural globalization

**The Rise of the Neighbourhood in Canada, 1880s-2020s** Richard Harris, 2025-03-31 Neighbourhoods matter now more than ever before They sustain fewer social connections but in an era of great social inequality and high levels of immigration they have become vital as places for homeowner investment and educational opportunity for children The Rise of the Neighbourhood in Canada 1880s 2020s traces the changing character and significance of Canadian urban neighbourhoods city and suburban since the 1880s The book highlights patterns in neighbourhood life particularly noticeable in larger urban areas which are especially important for the least mobile people workers lower income households immigrants women children and the elderly It explores how the physical and social characteristics of neighbourhoods affect public health crime rates social capital and job opportunities while shaping the lifelong prospects of children Analysing long term trends the book examines the importance of communications technology in the context of rising inequality and immigration It shows how as

homeownership rose neighbourhoods became vital settings for investment increasingly financialized reducing affordability Using examples from all types of neighbourhoods in cities small and large from St John s through Montreal and Winnipeg to Victoria *The Rise of the Neighbourhood in Canada* argues that the current prominence of neighbourhoods will persist

How Ottawa Spends, 1995-96 Susan D. Phillips,1995

**Urban Segregation and the Welfare State** Sako

Musterd,Wim Ostendorf,2013-04-15 *Urban Segregation and the Welfare State* examines ethnic and socio economic segregation patterns social polarisation and social exclusion in major cities in the Western world Contributors from across North America and Europe provide in depth analysis of particular cities ranging from Johannesburg Chicago and Toronto to Amsterdam Stockholm and Belfast The authors highlight the social problems in and of cities indicating differences between nation states in terms of economic restructuring migration welfare state regimes and ethnic history *Merger Mania* Andrew Sancton,Westmount (Québec),2000 The purpose of the report is to analyse the advantages and disadvantages of municipal amalgamations provide a historical perspective of such amalgamations and examine how these experiences apply to the city region of Montreal *Cross-border Cultural Production* Janet Wasko,2008 This volume addresses issues revolving around the production of mediated cultural products across borders More specifically the authors consider cross border cultural production in the film and television industries and how it affects and is affected by media centers and more recently established production locations The film and television industries have long been recognized as playing important economic political and cultural roles And while it could be argued that historically these forms of cultural production often have been international endeavors the choice of production sites has become an especially contentious issue during the last few decades as global production has expanded While some factions notably from the US film and television industries refer to this issue as runaway production this book takes a much broader look at the implications and consequences of this phenomenon Basically cross border production involves the expansion of production away from traditional centers whether to other countries or to other locations within the same country Thus this study covers a wide range of issues involving economic and political considerations as well as creative and aesthetic decision making
