The Consumer Jungle:

The Consumer Jungle Marion Giordan, 1974 *The Consumer Jungle: what You Don't Know Can Hurt You* Frank C. Hale, 1967 **Consumer Jungle** , The goal of Consumer Jungle is to promote consumer literacy among high school students Consumer Jungle features interactive games and other activities for students lesson plans and other teaching materials for teachers and tips for parents on how to promote consumer literacy Consumer Jungle is a service of Young Adult Consumer Education Trust YACET a nonprofit organization in Wenatchee Washington Consumerism in Twentieth-Century Britain Matthew Hilton, 2003-11-13 This book is the first comprehensive history of consumerism as an organised social and political movement Matthew Hilton offers a groundbreaking account of consumer movements ideologies and organisations in twentieth century Britain He argues that in organisations such as the Co operative movement and the Consumers Association individual concern with what and how we spend our wages led to forms of political engagement too often overlooked in existing accounts of twentieth century history He explores how the consumer and consumerism came to be regarded by many as a third force in society with the potential to free politics from the perceived stranglehold of the self interested actions of employers and trade unions Finally he recovers the visions of countless consumer activists who saw in consumption a genuine force for liberation for women the working class and new social movements as well as a set of ideas often deliberately excluded from more established political organisations *Introducing Economics: A Critical Guide for Teaching* Mark H. Maier, Julie Nelson, 2014-12-18 Make economics resonate to high school students This practical handbook will help economics and social studies teachers foster critical thinking by introducing students to the real life dimensions of the major controversies in contemporary economics Filled with useful teaching tips and user friendly information on finding engaging materials and activities for the classroom the book also includes detailed coverage of the Voluntary National Content Standards for economics Introducing Economics is a one stop resource for high school teachers who want to make economics relevant to their students lives It includes more than 50 sections with lists of suggested Activities and Resources many with Internet links It features boxed Hints for Clear Teaching tips for presenting particularly difficult topics It provides an annotated resource guide to more than 30 organizations involved in economics education with associated Internet links It follows the flow of topics in a typical economics course It addresses real life topics that are ignored or glossed over in traditional textbooks economics and the environment the distribution of income and wealth discrimination labor unions globalization the power of corporations and more It offers critical guidance for meeting all 20 Voluntary National Content Standards in economics and also provides an overview of the political and intellectual history and contemporary state of economics education *An Affluent Society?* Lawrence Black, Hugh Pemberton, 2017-07-28 During an election speech in 1957 the Prime Minister Harold Macmillan famously remarked that most of our people have never had it so good Although taken out of context this phrase soon came to epitomize the sense of increased affluence and social progress that was

prevalent in Britain during the 1950s and 1960s Yet despite the recognition that Britain had moved away from an era of rationing and scarcity to a new age of choice and plenty there was simultaneously a parallel feeling that the nation was in decline and being economically outstripped by its international competitors Whilst the study of Britain's postwar history is a well trodden path and the paradox of absolute growth versus relative decline much debated it is here approached in a fresh and rewarding way Rather than highlighting economic and industrial decline this volume emphasizes the tremendous impact of rising affluence and consumerism on British society It explores various expressions of affluence new consumer goods shifting social and cultural values changes in popular expectations of policy shifting popular political behaviour changing attitudes of politicians towards the electorate and the representation of affluence in popular culture and advertising By focusing on the widespread cultural consequences of increasing levels of consumerism emphasizing growth over decline and recognizing the rising standards of living enjoyed by most Britons a new and intriguing window is opened on the complexities of this golden age Contrasting growing consumer expectations and demands against the anxieties of politicians and economists this book offers all students of the period a new perspective from which to view post imperial Britain and to question many conventional historical assumptions

Carried Away Rachel Bowlby, 2002-09-17 Asserting that a history of shopping was until recently a history of women Rachel Bowlby trains her eye on the evolution of the modern shopper She uses a compelling blend of history literary analysis and cultural criticism to explore the rise of department stores and supermarkets of the United States France and Great Britain Bowlby recalls the fascinating early days of these institutions In the mid nineteenth century when department stores first developed their fabulous new buildings brought middle class women into town where they could indulge in what was then a new activity a day's shopping The stores offered luxury flattering women into believing that they belonged in a beautiful environment It is here Bowlby argues that the idea of the modern woman's passion for fashion and shopping took hold Developed in the twentieth century supermarkets took an opposite tack they offered functionality standardization and cheapness However Bowlby claims despite their differences the two institutions belong together as emblematic of their respective eras social developments the department store with the growth of cities the supermarket with the proliferation of suburbs With their dazzling lights and displays both supermarkets and department stores were thought to produce in females an enhanced or trance like state of mind For readers who regard shopping as a spectator or participatory sport and for those who wish to understand our culture and the psychology of women or those who simply enjoy a witty literate romp through the aisles *Carried Away* is the perfect purchase
