The Continuum Of Know:

Knowing and Loving Robert Beezat,2010-06 Be joyful Have fun Be the happy person you were born to be Understanding developing and nurturing the human capacities of knowing and loving are the keys to finding deep and long lasting human happiness Who am I What am I Why am I here Is there a God What will really make me happy These are questions all of us ask ourselves from time to time Our answers to or avoidance of those questions shape the practical and moral choices we make every day Those choices in turn determine our level of happiness As human beings we are born to know and love With a grasp of this basic concept we can make choices and decisions which will enable us to live authentic good and happy lives in the short term and the long run It is never too early or too late in life to be deeply happy Robert Beezat is a successful businessman public official and community leader whose life is devoted to working for social justice peace and the common good He has been engaged for over 50 years with business social political and religious issues at the local national and international levels As a practical man and a man of faith he addresses the important questions which confront all of us regarding the critical decisions and choices we make as we try to build a good and happy life for ourselves our families and society at large He holds Bachelor and Master Degrees and has been an adjunct faculty member at several colleges and universities He is currently a speaker at colleges and universities regarding social justice issues and the concept of the Common Good He has been married to a wonderful woman for 44 years They have two daughters and two grandchildren

Marsilius of Inghen: Divine Knowledge in Late Medieval Thought Maarten Hoenen,2021-11-22 The problem of divine knowledge focusing on questions of freedom and necessity finds itself at the intersection of age old discussions of logic metaphysics and ethics The subject was discussed with particular clarity in the period 1250 1400 Many different solutions were put forward and criticized with an acuity and depth that was never reached again One contributor to the discussion Marsilius of Inghen d 1396 is of special importance He assimilated not only the nominalism and theological developments of the 14th century but also the ideas of Thomas Aquinas and Bonaventure resulting in the so called via marsiliana This study determines with great precision Marsilius s position in the debates in the period 1250 1400 often throwing new light on aspects of his philosophy and theology The wide scope of his work makes it suitable as a general introduction to medieval thought Specialists will find it useful for its detailed and in depth analysis of both maiores and minores By its clear style and structure this study will prove useful in contemporary systematic discussions of the subject as well

Divine Impassibility Richard E. Creel,2005-06-21 In this volume Richard Creel sets forth a thesis that offers a third way to approach divine impassibility Defining impassibility as imperviousness to causal influence from external factors Creel sketches a path between Aquinas and Hartshorne by asserting that once this definition is accepted one must still distinguish the various respects in which God is or is not impassible Virtually no one would dispute that the divine nature is impassible God will never cease to be God no matter what happens in creation With respect to the divine knowledge and will however

there are conflicting views Creel claims that God's will is impassible because God knows everything that can be accomplished by divine power Yet unlike Aquinas Creel believes that God has this knowledge in virtue of a plenum of possibilities eternally coexistent with the divine being The absolute is not simply God but rather God plus the plenum Creel suggests that God's knowledge is passible with respect to the contingent future actions of creatures God knows these actions therefore not in their presentiality from all eternity as Aquinas would hold but only as they happen and become actual God's will however remains immediately impassible because the divine will is ordered to possibilities not actualities God never has to wait until after we do something in order to decide his response to it He has eternally decided his response to all that we might do Ultimately God's feelings remain impassible no matter what concrete decisions human beings make because the basic intent of the divine plan for us is always achieved we exercise our freedom to choose for or against God God is impassible with respect to the divine nature divine will and divine feelings but God is passible with respect to the divine knowledge of future contingent events

Knowledge Management and Learning Organizations Carolina Machado, J. Paulo Davim, 2021-04-26 This book focuses on knowledge management and learning organizations showing how they realise entrepreneurship and innovation Understanding knowledge management as the process of creating sharing and managing an organization's information and knowledge and focusing learning organizations in their collaborations to promote continuous learning are two issues that are critical to the organizational success As such this book offers insights into the topic and the appropriate use of the tools and strategies that drive competitive organizations operating on an international or transnational scale

Mathematics and the Roots of Postmodern Thought Vladimir Tasic, 2001-08-30 This is a charming and insightful contribution to an understanding of the Science Wars between postmodernist humanism and science driving toward a resolution of the mutual misunderstanding that has driven the controversy It traces the root of postmodern theory to a debate on the foundations of mathematics early in the 20th century then compares developments in mathematics to what took place in the arts and humanities discussing issues as diverse as literary theory arts and artificial intelligence This is a straightforward easily understood presentation of what can be difficult theoretical concepts It demonstrates that a pattern of misreading mathematics can be seen both on the part of science and on the part of postmodern thinking This is a humorous playful yet deeply serious look at the intellectual foundations of mathematics for those in the humanities and the perfect critical introduction to the bases of modernism and postmodernism for those in the sciences

Opus Dei Manuel S. Marin, 2007-09-07 A quasi religious corporation worth mentioning is the Fabretto Foundation based in Nicaragua This Foundation is a true God Enterprise Father Rafael Mara Fabretto was an Italian priest who moved to Nicaragua with the purpose of opening and managing an orphanage It was a catastrophic failure Father Fabrettos experiment almost killed me together with other kids who were rescued at the brink of starvation Ironically it was Anastasio Somoza the father the first member of the Somoza dynasty who saved our lives The continuum works in marvelous ways just picture a hated soft hearted

tyrant being impacted by the sight of more than 300 children starving to death I bet his conscience screamed to his inner ears that he was going to be blamed if some of those children were to die Somoza was moved by the continuum to do what is atypical of dictators an act of love The author Manuel S Marin as a child lived for a short time in the Oratorio San Juan Bosco where he met Father Rafael Mara Fabretto who lighted up in him the notion of the continuum for which he didnt have a name until he met Bob Jones at Williams Brothers Construction Co
