Hiles, 2022-03-30 The Routledge Companion to Art and Disability explores disability in visual culture to uncover the ways in which bodily and cognitive differences are articulated physically and theoretically and to demonstrate the ways in which disability is culturally constructed. This companion is organized thematically and includes artists from across historical periods and cultures in order to demonstrate the ways in which disability is historically and culturally contingent. The book engages with questions such as: How are people with disabilities represented in art? How are notions of disability articulated in relation to ideas of normality hybridity and anomaly? How do artists use visual culture to affirm or subvert notions of the normative body? Contributors consider the changing role of disability in visual culture the place of representations in society and the ways in which disability studies engages with and critiques intersectional notions of gender race ethnicity class and sexuality. Vital Nourishment François Jullien, 2025-09-30 An intellectual history of the concept of life and body politics in Chinese philosophy The philosophical tradition in the West has always subjected life to conceptual divisions and questions about meaning Although this process has given rise to a rich history of inquiry it proceeds too fast contends François Jullien In its anxiety about meaning Western thinkers since Plato have forgotten simply to experience life In Vital Nourishment Jullien slows down and begins to think about life from a point outside of Western inquiry using the third and fourth century BCE Chinese thinker Zhuangzi as a foil in this installment of his continuing project of plumbing the philosophical divide between Eastern and Western thought The question of how to feed life or nourish it is the point of departure for the Chinese tradition that Jullien locates in Zhuangzi Life is something that passes through each of us and we have a duty to become amenable to its ebbs and flows We must cultivate a sense of being adequate to it so that we can house it Exploring notions of breath energy and immanence Jullien reopens a vibrant space of intellectual exchange between East and West In doing so he refuses to commit to a rigid thesis of meaning and his text unfolds as an elegant process that begins to mirror the very type of thought he explores While his inquiry is certainly weighted toward reinvigorating Western thought with ideas from the East Jullien points out that this approach is intellectually and politically imperative at present Against the self help industry which pursues an opportunistic simulacrum of this type of intellectual exchange Jullien seeks to create a space of mutual inquiry that maintains the integrity of both Eastern and Western thinking Vital Nourishment is therefore both a rich intellectual historical journey and a text very much attuned to the philosophical politics of the present
