The Effete Conspiracy Ben H. Bagdikian, 1972 *Terrorism, the Media and the Law* Abraham Miller, 2024-07-08
Published under the Transnational Publishers imprint Provoking the Press Kevin M. Lerner, 2019-05-24 At the beginning of the 1970s broadcast news and a few newspapers such as The New York Times wielded national influence in shaping public discourse to a degree never before enjoyed by the news media At the same time however attacks from political conservatives such as Vice President Spiro Agnew began to erode public trust in news institutions even as a new breed of college educated reporters were hitting their stride This new wave of journalists doing their best to cover the roiling culture wars of the day grew increasingly frustrated by the limitations of traditional notions of objectivity in news writing and began to push back against convention turning their eyes on the press itself Two of these new journalists a Pulitzer Prize winning Harvard educated New York Times reporter named J Anthony Lukas and a former Newsweek media writer named Richard Pollak founded a journalism review called MORE in 1971 with its pilot issue appearing the same month that the Times began publishing the Pentagon Papers MORE covered the press with a critical attitude that blended seriousness and satire part New York Review of Books part underground press In the eight years that it published MORE brought together nearly every important American journalist of the 1970s either as a writer a subject of its critical eye or as a participant in its series of raucous A J Liebling Counter Conventions meetings named after the outspoken press critic the first of which convened in 1974 In issue after issue the magazine considered and questioned the mainstream press s coverage of explosive stories of the decade including the Watergate scandal the seven dirty words obscenity trial the debate over a reporter s constitutional privilege the rise of public broadcasting the struggle for women and minorities to find a voice in mainstream newsrooms and the U S debut of press baron Rupert Murdoch In telling the story of MORE and its legacy Kevin Lerner explores the power of criticism to reform and guide the institutions of the press and in turn influence public discourse *The Media, Diplomacy, and Terrorism in the Middle East* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1986 *The Press, the Rosenbergs, and the Cold War* John Neville, 1995-09-26 This book is a study of cold war agenda setting in relation to the Julius and Ethel Rosenberg spy case Its primary interest is with press coverage of the case from 1950 to 1953 although the historical focus of the case extends before and beyond those years The purpose of the book is not to debate the Rosenbergs guilt or innocence but rather to provide a fresh view of the case in its most political terms news coverage filtered through the dynamics of cold war patriotism A large sample of U S and foreign newspapers and magazines was monitored to determine if the Rosenbergs were victims of sensational pretrial and during trial newspaper publicity Neville also determines if the press reported on the claims of a U S left wing newspaper the National Guardian that the Rosenbergs were framed by the U S government with the complicity of the news media His conclusions question whether the mainstream press and news media ignore issues of justice for radicals in time of war and political crisis When MBAs

Rule the Newsroom Doug Underwood, 1995 Writing with anger but with a deep affection for the trade he examines the growing economic pressures within the industry the roots of the managerial revolution and the impact of marketplace journalism on the operation of the newsroom and employee morale

Estimating Equilibrium Exchange Rates John Williamson, 1994 The problems of exchange rate misalignments and the resulting payments imbalances have plagued the world economy for decades At the Louvre Accord of 1987 the Group of Five industrial countries adopted a system of reference ranges for exchange rate management influenced by proposals of C Fred Bergstan and John Williamson for a target zone system The reference range approach has however been operated only intermittently and half heartedly and questions continue to be raised in policy and scholarly circles about the design and operation of a full fledged target zone regime This volume with chapters by leading international economists explores one crucial issue in the design of a target zone system the problem of calculating Williamson's concept of the fundamental equilibrium exchange rate FEER Williamson contributes an overview of the policy and analytic issues and a second chapter on his own calculations

A Social History of Contemporary Democratic Media Jesse Drew, 2013-05-02 The last few decades have helped dispel the myth that media should remain driven by high end professionals and market share This book puts forward the concept of communications from below in contrast to the globalization from above that characterizes many new developments in international organization and media practices By examining the social and technological roots that influence current media evolution Drew allows readers to understand not only the Youtubes and Facebooks of today but to anticipate the trajectory of the technologies to come Beginning with a look at the inherent weaknesses of the U S broadcasting model of mass media Drew outlines the early 1960s and 1970s experiments in grassroots media where artists and activists began to re engineer electronic technologies to target local communities and underserved audiences From these local projects emerged national and international communications projects creating production models social networks and citizen expectations that would challenge traditional means of electronic media and cultural production Drew's perspective puts the social and cultural use of the user at the center not the particular media form Thus the structure of the book focuses on the local the national and the global desire for

communications regardless of the means *International Bibliography of Business History* Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians *Shame the Devil* Wayne J. Guglielmo, 2023-04-15 When the press loses sight of truth and falls prey to bias American press critics push back to safeguard our free and democratic nation Journalists are no strangers to criticism and some have even seen disagreements turn to outrage and acts of violence There is another history of press criticism though This one as a rule doesn't resort to physical threat or denunciation Nevertheless it can be merciless when critics think the press has become too slanted in one direction has fallen short of some ideal is too concentrated for its own good or seems to be underreporting or ignoring some critical story of the day *Shame the Devil* is a sweeping look at this other history Beginning with Walter Lippmann rightly regarded as the first modern press critic *Shame the Devil* provides a chapter by chapter profile and analysis of his successors Many critics work within the profession of journalism while some consider it from the outside These include George Seldes A J Liebling Ben Bagdikian Reed Irvine Neil Postman and Noam Chomsky A concluding chapter brings together a diverse group of contemporary critics including Sharyl Attkisson Brooke Gladstone Eric Deggans Amy Goodman Janine Jackson and Candace Owens Merging history biography and a candid analysis of various critical points of view *Shame the Devil* moves from press commentary in the bitter aftermath of World War I to the head spinning paradoxes of the post truth era Throughout some of America's best critics contend with both the big events of their day and the big issues of journalism to ask the always vital question How can the press help to create and sustain a more democratic society Economic Concentration in the Media--newspapers United States. Katharine the Great Deborah Davis, 2017-12-07 In the early 1970s Katharine Graham was one of the most powerful women on earth The publisher of the Washington Post she published the Pentagon Papers which shed light on the darkest corners of the war in Vietnam and she oversaw the investigation into Watergate that would bring down President Richard Nixon Her story is one of the greatest triumphs in the history of American journalism but she may have had a secret ally the Central Intelligence Agency In this stunning biography veteran reporter Deborah Davis unearths the truth about the Washington Post and the family that ran it Upon the first printing of *Katharine the Great* the original publisher pulled the

book under pressure from Katharine Graham and her editor in chief Benjamin Bradlee who demanded that it be destroyed. Nothing in the book was ever disproven and it stands today as a testament to dogged reporting and the unmatched power of the intelligence community. Don't miss the new Steven Spielberg film *The Post* starring Meryl Streep as Katharine Graham and Tom Hanks as Benjamin Bradlee.

Qualitative Research in Journalism Sharon Hartin Iorio, 2014-04-04 This volume highlights the integration of qualitative research methods into traditional journalism, offering new ways of expanding and enhancing news coverage. Designed for readers without prior experience in social science research, this collection presents a wide variety of qualitative techniques and their applications in journalistic practice. The work brings together contributions from professional journalists and journalism scholars who are highly experienced in conducting qualitative research. These experts demonstrate how valid, reliable qualitative procedures can be used to increase coverage and offer new insights. Written in a straightforward, reader-friendly style, features in this volume include real-world examples from contemporary newsrooms and interviews with practicing journalists who use the techniques of qualitative research in reporting; a rationale for the use of qualitative methods in journalism; an illustration of how various qualitative methods tie together; step-by-step instructions for applying each methodology; a solid foundation for understanding the history and theory behind qualitative research and its usefulness in journalism; chapters on pairing qualitative and quantitative methods in journalism; and on detailing partnerships between academics and professional journalists to facilitate newsroom research and reporting; and a discussion of objectivity in qualitative research and in journalism that offers an ethic for journalists of today. The methodologies covered here include oral and life histories, textual analysis, focused interviews, ethnographies, focus groups, and case studies. In addition, a recently developed technique, civic mapping, is presented as a qualitative tool for reporting. *Qualitative Research in Journalism* is an indispensable resource for current and future journalists interested in enhancing their coverage of the news.

Murder from Within Fred T. Newcomb, Perry

Adams,2011-11-03 Written in 1974 *Murder From Within* will show what actually happened to President Kennedy the consequences of his murder and what action Americans can take to protect their institutions from further internal assault The problem of usurpation from within and illegitimate and bloody transfer of power is as old as political history itself Betrayal from within from the leaders own inner circle dates all the way back to Julius Caesar and Jesus Christ Centuries ago several Roman Emperors were killed by their own Praetorian guards This plot which involved only a handful of high officials and a few Secret Service Agents called for President Kennedy to be maneuvered to Dallas and executed in public His body was then forcibly removed from the control of the Dallas Coroner and flown to Washington D C to a military hospital There autopsy findings were supervised to foil a later investigation and implicate a scapegoat The plot required a high probability of success Therefore it was self contained carefully recruited members of the Secret Service the Presidents guards murdered him The portability of a motorcade allowed the assassins to escape and the evidence to remain under their control With their obvious cover as guards the Secret Service could ensure that the planning would result in the replacement of one chief executive with another who now had the power to cover the crime up The scapegoat for the crime was placed near the motorcade by being told to look for work at locations on one of two likely parade routes Once he had a job the motorcade was planned to pass in front of where he worked In this way it would appear that he had found his position by accident To plan the route first and then place the scapegoat in position would raise serious questions in an investigation about his prior knowledge Seven years in the making *Murder From Within* shows exactly and in detail how a small high level group within Kennedys own Cabinet betrayed him and killed him to benefit an ambitious Vice President determined to become President no matter what Records and Briefs of the United States Supreme Court ,1832 **American Studies** Jack Salzman,American Studies Association,1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988
