The Politics of the Presidency John Anthony Maltese, Andrew Rudalevige, Joseph A. Pika, 2023-12-26 Get the most up to date coverage and analysis of the presidency with this comprehensive text Never losing sight of the foundations of the office The Politics of the Presidency maintains a balance between historical context and contemporary scholarship on the executive branch providing a solid foundation for any presidency course Now in its Eleventh Edition Maltese Rudalevige and Pika thoroughly analyze the change and continuity in Biden's first two and a half years in office and look forward to the competitive setting for the 2024 presidential race

The Irony Of Reform G. Calvin Mackenzie, 2018-03-08 This book describes how American society has evolved over the past half century by examining the cultural context for political change It explores the profound alterations that have occurred in American political process and discusses the reforms that have altered the American politics

The History Buff's Guide to the Presidents Thomas R. Flagel, 2012-08-01 Did you know that Warren G Harding played poker in the White House at least once a week Or that Richard Nixon was a Quaker The History Buff's Guide to the Presidents takes a peek behind the scenes revealing everything you ever wanted to know about the families personal habits and social lives of the most powerful job in the world Author Thomas R Flagel's unique perspective on the presidents makes this an essential book for the merely curious and hardcore history buffs alike From George Washington to Barack Obama Flagel's top ten lists compile the most religious presidents the biggest scandals and more to present a comprehensive history of the American presidents Do You Think You Know The Presidents Top Ten Presidential Pastimes Top Ten Most Controversial Elections Top Ten Assassinations and Attempts Top Ten Debt Presidencies Top Ten Most Influential First Ladies

The Oxford Handbook of Political Leadership R. A. W. Rhodes, Paul 't Hart, 2014-05-29 Political leadership has made a comeback It was studied intensively not only by political scientists but also by political sociologists and psychologists Sovietologists political anthropologists and by scholars in comparative and development studies from the 1940s to the 1970s Thereafter the field lost its way with the rise of structuralism neo institutionalism and rational choice approaches to the study of politics government and governance Recently however students of politics have returned to studying the role of individual leaders and the exercise of leadership to explain political outcomes The list of topics is nigh endless elections conflict management public policy government popularity development governance networks and regional integration In the media age leaders are presented and stage managed spun DDLas the solution to almost every social problem Through the mass media and the Internet citizens and professional observers follow the rise impact and fall of

senior political officeholders at closer quarters than ever before This Handbook encapsulates the resurgence by asking where are we today It orders the multidisciplinary field by identifying the distinct and distinctive contributions of the disciplines It meets the urgent need to take stock It brings together scholars from around the world encouraging a comparative perspective to provide a comprehensive coverage of all the major disciplines methods and regions It showcases both the normative and empirical traditions in political leadership studies and juxtaposes behavioural institutional and interpretive approaches It covers formal office based as well as informal emergent political leadership and in both democratic and undemocratic polities

Legislating Together Mark A. Peterson,1990 Peterson investigates how recent presidents have engaged Congress on domestic policy issues Rejecting the presidency centered perspective on national government so firmly rooted in the popular imagination he argues that Congress s to presidential initiatives is often far more cooperative than the presidency centered perspective suggests

Scripted for Change Victoria A. Farrar-Myers,2007 Farrar Myers s analysis will offer theoretical guidance for political scientists understanding of the development of presidential authority and the processes that drive the institutionalization of the presidency and will provide historians with a nuanced understanding of the institution from the period between the end of Reconstruction and the Progressive era

The Politics of the Presidency

Joseph A. Pika,John Anthony Maltese,2013 Once again delivering their comprehensive and accessible analysis of the presidency Pika and Maltese bring their trusted core text completely up to date Never losing sight of the historical foundations of the office the authors maintain a delicate balance as they examine the presidency through a modern lens

The Politics of the Presidency, Revised 8th Edition Joseph A. Pika,John Anthony Maltese,2013-07-15 In the most up to date core text available on the presidency The Politics of the Presidency Revised Eighth Edition Joseph A Pika and John Anthony Maltese once again deliver their comprehensive and accessible analysis of the presidency Never losing sight of the foundations of the office the authors maintain a balance between historical context and contemporary scholarship on the executive A solid foundation for any presidency course the revised eighth edition features updated chapters including coverage of the 2012 election and a new chapter analyzing Obama s challenges as a second term president in an entrenched partisan environment

Presidential Policymaking: An End-of-century Assessment Steven A. Shull,Norman C.

Thomas,2016-09-16 A comprehensive overview of the president s policy making role and the way this role structures the president s interaction with other institutions of government The book concludes with a discussion of the issues of accountability and policy leadership

The ^AOxford Guide to the United States Government John J. Patrick,Richard M. Pious,Donald A. Ritchie,2001-07-04 The Oxford Guide to the United States Government is the ultimate resource for authoritative information on the U S Presidency Congress and Supreme Court Compiled by three top scholars its pages brim with the key figures events and structures that have animated U S government for more than 200 years In addition to coverage of the 2000 Presidential race and election this Guide features biographies of all the Presidents Vice Presidents and

Supreme Court Justices as well as notable members of Congress including current leadership historical commentary on past elections major Presidential decisions international and domestic programs and the key advisors and agencies of the executive branch in depth analysis of Congressional leadership and committees agencies and staff and historic legislation and detailed discussions of 100 landmark Supreme Court cases and the major issues facing the Court today In addition to entries that define legal terms and phrases and others that elaborate on the wide array of government traditions this invaluable book includes extensive back matter including tables of Presidential election results lists of Presidents Vice Presidents Congresses and Supreme Court Justices with dates of service lists of Presidential museums libraries and historic sites relevant websites and information on visiting the White House the Capitol and Supreme Court buildings A one stop comprehensive guide that will assist students educators and anyone curious about the inner workings of government The Oxford Guide to the United States Government will be a valued addition to any home library

Unifying Political Methodology Gary King, 1998-06-24 Argues that likelihood theory is a unifying approach to statistical modeling in political science

Politics, Process, and American Trade Policy Sharyn O'Halloran, 1994 Relying on the New Economics of Organizations NEO or New Institutionalism Politics Process and American Trade Policy shows why conventional models do not adequately describe the formation of American trade policy Rejecting both the pressure group model and the presidential ascendancy model this study's institution based approach emphasizes the influence Congress has in setting trade policy connecting theories of institutional design with the procedural details of regulating trade policy To reach her conclusions Sharyn O'Halloran uses time series data and econometric analysis to test a set of propositions concerning trade policy She examines detailed case studies and provides a comprehensive history of the institutions that govern trade policy making Unlike most scholars who see trade policy as disparate and ad hoc O'Halloran is able to explain both early and contemporary American trade policy in a consistent and integrated fashion She argues that a single set of procedures may lead to apparently different outcomes under differing initial conditions therefore the key is to identify the common logic derived from constitutional imperatives that underlies all policy outcomes

Liberal Democracy and the Social Acceleration of Time William E. Scheuerman, 2020-06-09 A fine contribution to the literature on the problems of modern liberal democracy Choice The pace of American society has quickened exponentially since the Founding Fathers first mapped the constitution Information travels at the speed of light so does money We can hop from one side of the country to the other in a matter of hours contact our elected officials instantaneously and share our views with thousands of people at the touch of a button Both academia and the popular media have grappled with the consequences of this acceleration on every aspect of contemporary life Most pressing however may be its impact on political life In Liberal Democracy and the Social Acceleration of Time William Scheuerman offers a sophisticated assessment of the implications of social and technological celerity in the operation of liberal democracies Specifically he asks what is acceleration's main impact on the traditional liberal democratic

model of the separation of powers According to Scheuerman high speed has created an imbalance The executive branch was intended to react with dispatch by contrast legislatures and the courts were designed to be more deliberate and thoughtful While this system of checks and balances was effective in the age of horse and buggy Scheuerman argues that the very features that were these institutions strengths may now be a liability Throughout this book Scheuerman offers a constructive critique which articulates ways in which liberal democracy might be recalibrated in accordance with the tempo of modern society Economic Actors, Economic Behaviors, and Presidential Leadership C. Damien Arthur, 2014-07-22 There is considerable disagreement about whether the U S president has a direct and measurable influence over the economy The analysis presented in Economic Actors Economic Behaviors and Presidential Leadership The Constrained Effects of Rhetoric suggests that while presidents have increased their rhetoric regarding the economy they have not had much success in shaping it Considering this research Arthur argues that the president s decision to address the economy so often must stem from a symbolic placation or institutional necessity that is intended to comfort constituencies or somehow garner electoral advocacy from the party s base No other viable explanation exists given the lack of results presidents obtain from discussing the economy and their persistent determination to do so This discrepancy suggests that presidential rhetoric on the economy is at best a tool used to appear concerned to everyone and toe the party line to their base Arthur presents an overview of economic rhetoric from the presidential office that will be of interest to scholars of the economy and political communication

Presidential Responsiveness and Public Policy-Making Jeffrey E. Cohen, 2010-05-07 We expect a president to respond to public opinion as an elected official in a democracy Indeed the president needs public support to overcome opposition to his policies in Congress and the bureaucracy At the same time the president may want to pursue policies that do not have widespread support How does public opinion affect presidential policy making Jeffrey Cohen finds that presidents are responsive to the public in selecting issues to focus on If an issue has captured the interest of the people then the president will focus on that issue Cohen finds that having chosen to work on an issue presidents pay less attention to public opinion when making a policy The president will try to maintain control over the details of the policy so that the outcome fits his policy agenda Cohen examines the way presidents from Eisenhower through Clinton have dealt with public opinion in policy making He uses case studies of issues such as Clinton and gays in the military Bush and the extension of unemployment benefits and Kennedy and cutting the income tax to explore the relationship between presidents and public opinion In addition Cohen uses a quantitative analysis of State of the Union addresses and positions on roll call votes of presidents from Eisenhower through George Bush to test his theories This book should appeal to political scientists and historians interested in the presidency and in public opinion as well as general readers interested in the history of the American presidency Jeffrey Cohen is Professor of Political Science Fordham University **Taking the Initiative** John B. Bader, 1996 Taking the Initiative shows that majority party leaders in Congress have set and successfully pushed their own

policy agendas for decades revealing the Contract With America as only the most recent and certainly not the most successful example of independent policy making Cutting deeply into the politics and personalities of three decades of party leadership John B Bader probes the strategies and evaluates the effectiveness of House and Senate leaders operating in a divided government when Congress and the presidency are controlled by different political parties He provides a historical context for analyzing the Contract and shows that aggressive agenda setting has long been a regular feature of majority party leadership Bader interviewed more than seventy congressional leaders staff members party officials and political consultants including speakers Thomas Tip O Neill and Jim Wright for this book He supplemented these interviews with research in largely unexplored archival materials such as press conference transcripts notes from White House leadership meetings and staff memoranda on strategy

Governing the White House Charles Eliot Walcott, Karen Marie Hult, 1995 Charles Walcott and Karen Hult maintain that the organization of the White House influences presidential performance much more than commonly thought and that organization theory is an essential tool for understanding that influence Their book offers the first systematic application of organizational governance theory to the structures and operations of the White House Office Using organizational theory to analyze what at times has been a rather ad hoc and disorganized office might seem quixotic After all the White House Office exists within a turbulent political environment that encourages expedient decision making And every four to eight years it must be reinvented by presidents who have their own theories and preferences about how to organize a staff to serve their policy needs But Walcott and Hult argue that White House staffs are not simply puppets of presidential preference and style Yes staff structures evolve primarily from presidents strategic responses to external demands But those structures in turn significantly influence how the executive branch perceives and responds to further demands The first part of their book lays out the theoretical argument The second examines White House outreach congressional liaison press relations personnel selection executive branch oversight and interest group and intergovernmental liaison The third focuses on White House handling of policy development and implementation The fourth analyzes staff structures that facilitate the operation of the presidency itself presidential writing and scheduling staff management and cabinet coordination The book concludes by identifying general patterns in the emergency nature and stability of governance structures in the White House Original and instructive *Governing the White House* provides a much needed primer on the inner workings of the White House staff and will be an essential volume for anyone studying the presidency

Yeah, reviewing a books **The Elusive Executive Discovering Statistical Patterns In The Presidency** could add your near contacts listings. This is just one of the solutions for you to be successful. As understood, feat does not recommend that you have astonishing points.

Comprehending as skillfully as understanding even more than additional will give each success. next-door to, the broadcast as capably as acuteness of this The Elusive Executive Discovering Statistical Patterns In The Presidency can be taken as skillfully as picked to act.
