The Empty Nest Karen Stabiner, 2016-02-02 A heartwarming wry and often surprising collection of essays about the next rite of passage for Baby Boomers what happens when the kids leave home As the baby boom generation ages the oldest are now turning sixty many of them are learning to deal with a whole new way of life after the last child has finally moved out and they are once again alone It's the same milestone their own parents faced but as with so many other markers this generation approaches it in a whole new way In this fascinating collection journalist Karen Stabiner has assembled essays from thirty one writers about their own experience with the empty nest Parents whose children left home last week join those with grandchildren to explore how life changes once the offspring leave unless of course they move back in again later They represent the full range of experience from traditional nuclear families to single parents to gay parents to grandparents with humor grace and poignancy

The Empty Nest Shelley Bovey, 2016-07-01 The time when children leave home is a major transitional period for all mothers but there are no widely accepted rites of passage to acknowledge this massive change and very little recognition of the spectrum of emotions it triggers in so many of us In The Empty Nest Shelley Bovey fully explores the many dimensions of parental life once children leave their family homes Drawing on her own experiences as a mother as well as those of a broad range of other women Bovey examines the pain and isolation many women experience and their guilt about those feelings when their children leave home In a society that prizes a parent's ability to let their children go many are overwhelmed not only by their huge and unexpected sense of loss but also by shame at their own reactions Shelley Bovey believes that empty nest syndrome is a phrase used all too casually in our society arguing that flippant or dogmatic approaches to empty nest syndrome are wholly inappropriate She notes that this experience is a real and profound loss that ought to be understood as a kind of bereavement And that once this grieving is acknowledged as necessary and warranted a mother's identity can evolve and blossom with newfound freedoms and limitless possibilities for the first time in many women
