Trump on North Korea About the Authors *North Korea* United States. Congress. Senate. Committee on Foreign Relations, 2006 **Understanding North Korea** Jongwoo Han, Jung Tae-hern, 2013-12-04 Why does North Korea want to possess nuclear capabilities In order to find the answer to this question we must have an accurate understanding of the history and structure of the North Korean regime So far we have only formed conjectures and predictions regarding North Korea based on our own perspectives we now need to deal with and consider North Korea as is to reach viable solutions to the issues North Korea presents This volume contains analyses of the most salient critical issues pertinent to understanding the North Korean regime penned by representative Korean scholars of North Korea As such the book examines the historical formation of North Korea the identities of those power elite and the relative stability or instability as the case may be of the new regime under Kim Jong un Also an important aspect to consider is the possibility of socio economic change in North Korea Though North Korea has remained relatively static vis vis its political and military systems it is in the process of becoming rapidly marketized having continued various attempts to modify its economic policy In the social realm said economic shift has elicited the polarization of the disparate classes and the expansion of individualism Such social transformations obscured by the easily visible political reality of North Korea can provide solid grounds for determining the future of the North Korea regime Moreover it is imperative that we accurately understand the motivation behind North Korea

s intention to develop nuclear weapons namely the expansion of deterrence We must recognize the reasons for the North Korean hostility toward the United States from the very beginning of the DPRK formation and the North Korean fixation on nuclear weapons development Further we need to understand the nature of relations between China and North Korea relations on which the international community has focused since North Korea began its nuclear testing as well as the history and structure of relations between North and South Korea Only when we accurately understand North Korea can we reach solutions to the North Korean nuclear issue The studies in this volume by Korean scholars will reveal the veiled background of the visible phenomena and thereby help the readers to correctly understand the North Korean behaviors hitherto misunderstood or even those that were impossible to understand *U.S. Policy Toward North Korea* United States. Congress. House. Committee on International Relations,2000 *North Korea's Second Nuclear Crisis and Northeast Asian Security* Tae-Hwan Kwak,2016-05-23 North Korea s testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia This testing has far reaching implications for Korean peace and unification Northeast Asian security and America s global war on terrorism This key volume provides an in depth analysis of the inter Korean and international dynamics of North Korea s nuclear crisis It offers new insights into the six party talks designed to resolve the crisis suggests creative formulas to resolve the ongoing crisis through peaceful diplomatic means and delves into the interests and policies of the major powers the US China Japan and Russia at the six party negotiating table The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students and academics **THE TRUE FORCE OF NORTH KOREA: Military, Weapons of Mass Destruction and Ballistic Missiles, Including Reaction of the U.S. Government to the Korean Military Threat** Andrew Scobell,John M. interaction over DPRK and other regional powers this volume seeks to explore the role of DPRK in Northeast Asia and its implication to regional security as a whole The volume does not confirm a particular position over DPRK s nuclear showdown rather it invites scholars to provide assessments from the viewpoints of neighbouring powers in order to present a more complete understanding of the leading issue in Northeast Asia The volume will serve as an invaluable resource for policymakers students and scholars of North Korean politics and international relations This book was published as a special issue of the Journal of Comparative Asian Development
