John William Carleton, 1849 Operation Sea Lion Leo McKinstry, 2014-11-13 This immaculately researched and compellingly written WWII history sheds new light on Britain's critical victory against Nazi invasion The New Criterion In the summer of 1940 the Nazi war machine was at its zenith France Denmark Norway and the Low Countries were all under occupation Only Britain stood in the way of the complete triumph and Hitler planned a two pronged offensive a blistering aerial bombardment followed by a land invasion to subdue his final enemy But for the first time in the war Hitler did not prevail As Leo McKinstry details in this fascinating new history the British were far more ruthless and proficient than is usually recognized The brilliance of the RAF in the Battle of Britain was not an exception but part of a pattern of magnificent organization that thwarted Hitler's armies at every turn Using a wealth of archival and primary source materials Leo McKinstry provides a groundbreaking new assessment of the six fateful months in mid 1940 when Operation Sea Lion was all that stood between the Nazis and total victory **University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects** University of California (System).
