Nine Lives to Eternity Scott D. Gottschalk, 2010-12-11 *Nine Lives to Eternity* is a true chronicle of cheating death time and again This inspirational and faith driven human triumph details the aftermath of my many harrowing experiences and mishaps any of which should have resulted in certain death Each time I was somehow incessantly saved by guardian angels The numerous near death experiences accounted for twenty six fractured bones and rendered me unconscious on five separate occasions yet somehow I lived to tell my compelling story of survival and triumph over death By the release date of this book the good Lord has allowed me to somehow somehow survive up until and beyond the celebration of my fifty fifth birthday Trust me when I reiterate that my life hasn't been a painless journey while defeating death on a habitual basis Beginning as a mere infant at the age of nine months old and then continuing through fifty five years I've cheated death again and again During my life's journey I've survived an unfathomable twenty seven encounters with death I've escaped death through seven different machinery and equipment mishaps I've avoided horse or mule death challenges no fewer than five times Although one of my life's greatest pleasures has always been motorcycling I've paid a price by suffering through five singular accidents that should have terminated my life Few in life could survive even one automobile crash yet I've lived to describe three separate vehicular collisions In addition I've escaped death from toxic fumes twice and twice averted death threats while working within dangerous third world countries I've even fallen from a rooftop nearly crashed in an airplane and lived through a poisoning yet by the grace of God I've failed to become a fatality statistic I've often joked that for every day in which I don't read my own name within a newspaper obituary column that becomes a really good day for me To survive so many brushes with death is difficult to absorb My goal driven ambitions have unfortunately brought me to the threshold of death numerous times I've driven myself to limits that few would attempt Early in life I set a goal for myself to try and fit three lifetimes of experiences into my short time on this planet As a youth I never believed that I would survive beyond an age of forty years Most certainly my high risk behaviors reduced my odds for a lengthy existence As my life unfolded the numerous encounters with death became staggering Between the ages of nine

months up until nine years I faced death three times From the ages of ten years through my nineteenth birthday death crossed my pathway four more times During my tumultuous twenties from the ages of twenty years through twenty nine years I survived eight separate death encounters Between the ages of thirty years through thirty nine years my chances of death slowed down to two By the ages of forty years through forty nine years the Grim Reaper visited me on three separate occasions As I reached midlife I discovered that the pace of my death engagements was increasing From the ages of fifty years through fifty five years Id already amassed five singular close encounters with death Perhaps that assertion should come as no surprise Since reaching my fifties Id done little to slow down or reduce my zest for life and risk taking determination Few adults when faced with their own midlife crisis will attempt such outlandish feats as mountain climbing to the summit of Devils Tower in Wyoming or riding a motorcycle nonstop for ten thousand miles or consulting in the midst of a war within the country of Afghanistan Im thankful for each and every day that Im allowed the privilege of living I try to give thanks and praise to my Lord every day for granting me the tenacity to overcome even the worst of survival odds Through my strong faith and spirituality and by never accepting defeat Ive been able to constantly repel the onset of death **Bang to Eternity and Betwixt** John Hussey,2014-07-31 Covering the Cosmos from before the Big Bang through to the creation of our universe and up to but not including our arrival on stage our will is not yet imposed we had no hand act nor part in its provisions beyond investigating to understand what has been delivered us The many aspects of the Cosmos are melded in a headline driven style to paint a cohesive picture as well as allowing the reader choose to delve further where they may choose to paint their personal picture Cosmos includes The creation mechanism for our Universe and why there exists a possible Multiverse The creation mechanisms of the galaxies with their diversity of Star types The space exploration of our Solar System The Earth and Moon from their birth to their life driving engines for our planet The evolutionary processes that led to our arrival on the planet Our natural world with its great events Documentary video links on all topics of the book are included The story is factual in manner in the proper tradition of reporting no personal opinions are expressed The life stories of the standout personalities in text and video without whom what is now known could not have been unraveled in the case of Cosmos they are Galileo Galilei Isaac Newton Albert Einstein Charles Darwin This is a Video Book vBook beyond its text there are 150 video titles 100 viewing hours downloaded and stored locally on your computer to be able to watch anytime offline without the need for local internet connection Google Cosmos and you get about 27 800 000 search results so over these last several years I ve searched out the best documentary videos with their hyperlinks included here blending their content to report cohesively supplementing where appropriate from Wikipedia and also include those hyperlinks for readers wanting to delve further The List of Contents runs to 6 levels to provide a form of map to the reader as the reporting sequence is not a mere chronology of Cosmic events it delves as necessary into the stories as to how the events became understood to us There is a 7th level hyperlinked at its base which brings further background content from Wikipedia to
