**Shadow of Sohvan** Shane C. Callow,2012-03-22 She stared about in confusion before noticing something The crystal rose was twinkling in the snow She huddled down next to it Her fingers stretched toward it brushing the snow off from the pile it lay in Intently her hazel eyes lingered upon the rose The red surface of the petals reflected her stare She closed her eyes and clutching the rose closer to her chest Her eyes opened Golden light swam across her face and in an instant she was gone only leaving a flash of light behind her passage from Shadow of Sohvan Shadow of Sohvan is a tale of heroics in an epic fantasy world filled with magic monsters and the sword The story follows the quest of a young girl to be reunited with her lost love Her journey takes her from distant shores of the wizard isles to the Tomb of the Ancient Kings in the tall Iterian Mountains

**Flowers of the Fern** Matthew Allen-Johnson,2023-05-24 About the Book Flowers of the Fern is a small story that provides the reader with quite personal stories about its characters It isn't the high adventure story where a ragtag bunch assembles to take down a sorcerer or destroy an evil king It's more of a detective story wrapped up in fantasy clothing It is not defined by its scale or its intentions in storytelling Instead it provides a different caliber of fantasy story to counteract many of the larger often overbearing series that come out now The tale is something thoughtful engaging and relatable and it is something that won't intimidate the reader with its length or its content About the Author Matthew Allen Johnson was born in Champaign Illinois He is a self proclaimed shut in who spends most of his time reading and writing He enjoys science fiction fantasy and the days of yore Johnson also likes collecting old music from the 1920s through the 1960s He also loves movies especially the bad ones Perhaps because his grandfather was a detective he has always had an inclination towards crime stories and police procedurals In a way this novel is something of a subconscious marriage between his love of Anglo Saxon history and a few episodes of Columbo

**The People of Sunghir** Erik Trinkaus,Alexandra P. Buzhilova,Maria B.

Mednikova, Maria V. Dobrovolskaya, 2014-05-30 In this latest volume in the Human Evolution Series Erik Trinkaus and his co authors synthesize the research and findings concerning the human remains found at the Sunghir archaeological site It has long been apparent to those in the field of paleoanthropology that the human fossil remains from the site of Sunghir are an important part of the human paleoanthropological record and that these fossil remains have the potential to provide substantial data and inferences concerning human biology and behavior both during the earlier Upper Paleolithic and concerning the early phases of human occupation of high latitude continental Eurasia But despite many separate investigations and published studies on the site and its findings a single and definitive volume does not yet exist on the subject This book combines the expertise of four paleoanthropologists to provide a comprehensive description and paleobiological analysis of the Sunghir human remains Since 1990 Trinkaus et al have had access to the Sunghir site and its findings and the authors have published frequently on the topic The book places these human fossil remains in context with other Late Pleistocene humans utilizing numerous comparative charts graphs and figures As such the book is highly illustrated in color Trinkaus and his co authors outline the many advances in paleoanthropology that these remains have helped to bring about examining the Sunghir site from all angles **Medicine Meets Virtual Reality 13** James D.

Westwood, 2005 Magical describes conditions that are outside our understanding of cause and effect Even in modern societies magic based explanations are powerful because given the complexity of the universe there are so many opportunities to use them The history of medicine is defined by progress in understanding the human body from magical explanations to measurable results To continue medical progress physicians and scientists must openly question traditional models For thirteen years MMVR has been an incubator for technologies that create new medical understanding via the simulation visualization and extension of reality Researchers create imaginary patients because they offer a more reliable and controllable experience to the novice surgeon With imaging tools reality is purposefully distorted to reveal to the clinician what the eye alone cannot see Robotics and intelligence networks allow the healer s sight hearing touch and judgment to be extended across distance as if by magic The moments when scientific truth is suddenly revealed after lengthy observation experimentation and measurement is the real magic These moments are not miraculous however book The Armageddon Incantation C.L. Armerding, 2023-08-03 About the Book If you had the power to kill trillions of lives with three words why would you do it For one cursed soul her motive was revenge On a planet called Kador there existed a planet wide empire called Alonava It was home to many talented wizards who wielded magic by drawing words represented by arcane symbols However the people of Alonava were in grave danger at the hands of a powerful necromancer called the Lich Queen She sought the deadliest spell of all time the Armageddon Incantation To cast the spell all she needed were three words sequestered in the most unreachable of places An audacious and kindhearted wizard named Talia and a sensible scholar named Suki uncovered the Lich Queen s plan but their superiors refused to help them With the fate of the world at stake

these two women must unlock the secrets of the past and uncover the Armageddon Incantation If the Lich Queen got the spell first then all hope will be lost or maybe not The Armageddon Incantation tells the story of a world where magic comes from the power of words Revenge and Anger can cause destruction and pain Incuriosity can cause forgetfulness and loss and Apathy can cause inaction However as Talia and Suki will learn there is only one word more powerful than them all About the Author C L Armerding eagerly presents his second book after Path of the Whiptails Inspired by archaeology and calligraphy he wrote another tale to excite and inspire
