G. Jones, 2013-03-21 Originally published in 1938 this book presents a social history of eighteenth century elementary education The main focus is on the different reactions of philanthropists in England Scotland Ireland and Wales to the movement for establishing schools on a religious basis for the children of the poor Intended to draw attention to an often marginalised area the text provides a detailed analysis of the ideologies behind charity schools and the various difficulties they encountered A detailed bibliography appendices and illustrative figures are also included This book will be of value to anyone with an interest in eighteenth century history and the role of charity schools in the development of education **British Museum Catalogue of printed Books**, 1891 [Catalogue. M. Signet in Scotland* Signet Library (Great Britain), 1871 *Bulletin of the New York Public Library* New York Public Library, 1905 Includes its Report 1896 19 [Making Ireland Modern](#) Enda Delaney, 2025-10-02 A provocative and original reinterpretation of modern Irish history There is a widespread misconception that Ireland became modern much later than its neighbours in the 1960s and 1970s This is grounded in several enduring stereotypes and caricatures of Ireland as a timeless and unchanging land of saints and scholars of its society and culture in the long nineteenth century as puritanical regressive or archaic of Gaelic language and culture as backward or inward looking in contrast to a modern English counterpart and of the island as natural and rural in the face of the urban and technological progress of modernity Drawing on an extensive range of sources from poetry and novels to contemporary historical documents acclaimed historian Enda Delaney here offers a reinterpretation of Ireland's encounter with modernity that corrects these stereotypes By situating the

island's history between 1780 and 1916 within its broader European global and colonial contexts he demonstrates that Ireland's pathway to modernity was not inevitable belated or uni-directional over a complex and centuries long process it was made modern and in its own distinctive way This was related to but distinct from Ireland's complicated colonial relationship with Britain and played out in the broader contexts of globalisation and the rise of capitalism And at the heart of this history are the Irish people themselves both those who lived on the island and the millions of those who left during this period and made their lives in Britain America Australia and beyond who made sense of modernity in a variety of conflicting ways and in so doing sought to shape their own destinies and adapt the old ways of doing things in the face of relentless waves of progress Changes in values consciousness and beliefs interacted with broader social political and cultural revolutions to create a distinctive experience of becoming modern The result is a bold and wide ranging new history of modern Ireland that restores agency to those who lived and made its history raising important and timely questions about modernity globalisation modern history and post colonialism The Irishman in the English Novel of the Nineteenth Century Mary Edith Kelley (Sister), *Gentleman's Magazine, Or Monthly Intelligencer* Sylvanus Urban (pseud. van Edward Cave.), 1847
