

Sky At Night

Bob Berman

Sky At Night:

The Sky at Night Patrick Moore, 2010-11-01 When I became the producer of the Sky at Night in 2002 I was given some friendly advice It's a quiet little programme not much happens in astronomy How wrong they were It's been a hectic and enthralling time ever since with missions arriving at distant planets new discoveries in our Universe and leaps in technology which mean amateurs can take pictures as good as the Hubble Space Telescope What a privilege it is to work on a programme with such a huge heritage I am constantly amazed looking back at the flotilla of excellent programmes which have gone out over the past five decades The Sky at Night has always been at the sharp end of science broadcasting whether it's showing the first view from the far side of the Moon or pictures of a new comet which has swept into our sky Viewers can depend on Sir Patrick to tell them the latest news and explain what it means It's an outstanding achievement and Sir Patrick still holds the world record for being the same presenter on the longest running TV programme Our guests love coming down to Farthings Sir Patrick's home For them meeting him is like meeting their astronomical hero Over the past five decades the Sky at Night has managed to talk to the space scientists and astronomers making the landmark discoveries No matter how busy they are they make room for Sir Patrick

The Sky at Night Chris North, Sir Patrick Moore, 2012-04-12 Celebrating the 55th anniversary of The Sky at Night this book collects and answers questions sent in by viewers With sections on the solar system the bizarre and unexplained space missions and more this is an exciting journey into space for the novice astronomer and the lifelong stargazer alike Discover how scientists work out the gravity of planets what the Great Attractor is and the basic principles of space navigation Learn how to start observing the sky what event inspired Patrick Moore to take up astronomy and just how many of his cats are named after celestial bodies From comets to black holes and Orion to eclipses The Sky at Night is the ultimate introduction to the wonders and mysteries of the universe

40 Nights to Knowing the Sky Fred Schaaf, 1998-08-15 Starting with simple instructions on learning one's way around the night sky and progressing to more challenging concepts this ingenious program takes readers to a deeper level of knowledge and understanding of the night sky 70 illustrations charts

The Night Sky Giles Sparrow, 2017-12-15 On any clear night the night sky offers an ever changing display of fascinating objects visible to the naked eye stars constellations bright planets the moon human made satellites and sometimes even meteor showers or the International Space Station With gorgeous high definition imagery and a wealth of charts graphs and infographics readers will find here what is visible in the night sky at various times of the year and from what locations around the world They will learn what additional objects they can see with the help of telescopes binoculars and sky maps Also featured are skywatching terms and night sky observing tips

An Intimate Look at the Night Sky Chet Raymo, 2009-05-26 On one level An Intimate Look at the Night Sky is a unique star guide twenty four beautiful star maps created specifically for this book cycle through the seasons and across the heavens revealing what you can see with the naked eye throughout the year on a clear night in the northern hemisphere Raymo's commentaries

amplify the maps offering intriguing details and tips on identifying stars planets and constellations On another level Chet Raymo challenges our imagination to see what is unseeable in the universe to perceive distance and size and shape that is inconceivable to appreciate ever more fully our extraordinary place in the cosmos His elegant essays on the heavens blend science and history mythology and religion making clear why he is one of the most insightful and passionate science writers of our time

A Child's Introduction to the Night Sky (Revised and Updated), 2019-09-17 This charming exploration of the night sky featuring a star finder and glow in the dark stickers which has more than a quarter of a million young astronomers enjoying the night sky in countries around the world is now completely revised and updated A Child's Introduction to the Night Sky is the perfect introduction to the always fascinating world of astronomy Children ages eight and up will find out what astronomers have learned and are still discovering what astronauts and scientists explore and what they can find by gazing up into the sky at night Author Michael Driscoll explains how stars are born the achievements of the great scientists the history of space exploration the story of our solar system the myths behind the constellations how to navigate the night sky and more Whimsical color illustrations throughout and handy definitions and sidebars help engage younger readers and develop their interest Also included are a nifty star finder tool and fun glow in the dark stickers

Night Sky Storm Dunlop, 1999 The first true beginner's guide to astronomy Wild Guide Night Sky provides an introduction to the subject that is both colourful and accessible

The World at Night Babak Tafreshi, 2019-11-19 See the full beauty of our night sky revealed as never before in over 200 photographs from around the world Bringing together the images of over 40 photographers across 25 countries be astounded by the lights of the night sky in some of the darkest places on earth discover the beauty of galaxies planets and stars view great celestial events and see some of the world's most important landmarks against the backdrop of an incredible nightscape Babak Tafreshi founder of the international organization The World at Night has curated the images in this collection many of them previously unseen to reveal the true splendor of the sky at night A specialist guide to night sky photography will help you capture your own gorgeous images of the heavens Commentary on the science astronomy and photography accompany stunning images organized by theme Symbols of all nations and religions embraced by one sky of endless beauties UNESCO World Heritage Sites at night The Universe revealed through constellations sky motions atmospheric phenomenon Aurora and other wonders Images highlighting the beauty of dark skies away from light polluted urban areas Celestial events from great comets to spectacular eclipses Astro tourism destinations like ancient astronomical monuments and modern observatories

The Night Sky Kimberly Hutmacher, 2020-01-01 Updated for 2020 Students will love learning more about our Earth Moon and stars in this title It gives information on the phases of the Moon the constellations of stars that we see in the night sky comets and meteors and what exactly happens during a lunar eclipse
