difficult client a personal disclosure gone terribly wrong a bartering arrangement that literally falls apart a private life revealed in a most public way a vengeful act that sullies the reputation of an entire department breaking confidentiality when a client threatened harm and the slippery slope to sexual exploitation The stories are absorbing enlightening sometimes shocking and often stranger than fiction Narrative nonfiction puts human faces and emotions on what would otherwise be cursory statistics What led to the formal complaint from both the vantage point of the complainant and the psychologist offers insights not otherwise available unless the dynamics of their private lives leading up to the conflict are revealed An author's commentary and discussion questions follow every story Both new and seasoned practitioners as well as those still in training will find this to be an invaluable resource
