F. Davies, 2016-01-08 Current Issues in Business Ethics analyzes the questions which underlie business activities arguing that the prime object for a legitimate business must be sustainability It also looks at the issues between individuals and business and asks whether businesses can support their employees as an alternative to family and church Finally it assesses the impact of most recent trends in business looking at the activities of multinational companies the changing gender balance privatization the loss of power of the trade unions **Deregulating Freight Transportation** Paul Eric Teske, Samuel Best, Michael Mintrom, 1995 This book examines the effects of government intervention on the operations of the freight transportation industry Privatisation and Liberalisation in European Telecommunications Willem Hulsink, 2012-12-06 This book combines a detailed sector specific study of comparative telecommunications regimes set in the context of the EC with an extensive historical and empirical analysis of individual policy management and change as experienced by three diverse regulatory cultures namely Britain the Netherlands and France By adopting a comprehensive analytical framework based on far reaching literature the author explores a wide range
