the global economy technical advancement and product innovation playing a pivotal role in the world economy and the global technological revolution However MNEs are also often embroiled in financial fraud and corporate scandal which show that MNEs should improve their corporate governance Meanwhile as COVID 19 runs rampant across the world populism and deglobalisation have resurged and protectionism and unilateralism are exerting negative impacts on the world economy Achieving sustainable development in this context is a test of a company's management and governance abilities How should they be governed This book will be a useful tool for university research led teaching and fundamental research in corporate governance theories of MNEs in general as well as using Chinese case studies as evidence to support our theoretical arguments
