Kathleen Gallagher,Jonothan Neelands,2014-03-05 Urban theatre can be described as theatre made with or by those whose lives are marked by the urban landscape and its social limits and possibilities At the heart of this text lies the question of how theatre can illuminate the urban and how theatre is illuminated by the urban The city like a play is a space where everything adopts multiple meanings It is an objective thought and a subjective experience a charged and symbolic thing as well as a real material lived reality The chapters in this book illustrate the theatre s uncanny ability to narrate and symbolize the physical and psychic space of the city Running through all of the pieces presented are the themes of power and of young people s sense of agency within the structures they dwell in and are shaped by Through drama education and applied theatre practices the affinity between the urban and its theatres is radically replaced by marginal spaces boulevards and schools As Guillermo Gomez Pea suggests the theatre has gone to the people to serve their local and immediate need for a means of holding the urban and the self so that both can be interrogated and re imagined so that the various dystopias of urban existence can be envisaged as places of urban solidarity and as utopias at least of the mind This book was originally published as a special issue of Research in Drama Education The Journal of Applied Theatre and Performance **Performed**

Ethnography and Communication D Soyini Madison,2018-04-27 Performed Ethnography and Communication explores the relationships between these three key terms addressing the impact of ethnography and communication on the cutting edge of performance studies Ranging from digital performance improvisation and the body to fieldwork and staged collaboration this volume is divided into two main sections Embodied technique and practice which addresses improvisation devised theatre making and body work to consider what makes bodies move sound behave mean or appear differently and the effects of these

differences on performance Oral history and personal narrative performance which is concerned with the ways personal stories and histories might be transformed into public events looking at questions of perspective ownership and reception Including specific historical and theoretical case studies exercises and activities and practical applications for improvisation ethnography and devised and digital performance Performed Ethnography and Communication represents an invaluable resource for today s student of performance studies communication studies or cultural studies **Theatre for Youth Third Space** Stephani Etheridge Woodson, 2015-07-23 Theatre for Youth Third Space is a practical yet philosophically grounded handbook for people working in theatre and performance with children and youth in community or educational settings Presenting asset development approaches deliberative dialogue techniques and frames for building strong community relationships Stephani Etheridge Woodson shares multiple project models that are firmly grounded in the latest community cultural development practices Guiding readers step by step through project planning creating safe environments and using evaluation protocols Theatre for Youth Third Space will be an invaluable resource for both teaching and practice
