field The essays in this volume written from a variety of international perspectives range across the most pressing concerns of contemporary literary study and reassert Moore's centrality to a critical and poetic field in which she has been surprisingly marginalized This book also includes poems written by contemporary poets many of them significant contributors to scholarship on Moore as a way of acknowledging the importance of Moore's verse to living writers The poems compliment the scholarly essays by demonstrating in verse the important ways in which Moore's artistic achievements have stimulated her successors

Serious Poetry Peter McDonald, 2002-06-13 Do we want to read poetry or just like having a few poets to talk about The history of poetry in twentieth century Britain and Ireland is one which ends with the assimilation of successful poets into a media culture it is also however another history one of form and authority in which certain poets found modes and pitches of resistance to the seeming inevitabilities of their times In this history it is the authority of poetry and not the media processed poet which is at stake in the integrity of poetic form Serious Poetry Form and Authority from Yeats to Hill offers a controversial reading of twentieth century British and Irish poetry centred on six figures all of whom are critics as well as poets W B Yeats T S Eliot W H Auden Louis MacNeice Seamus Heaney and Geoffrey Hill Yeats's centrality to twentieth century poetry and the problem many poets and critics had or still have with that centrality is a major focus of the book Serious Poetry argues that it is in the strengths possibilities perplexities and certainties of the poetic form that poetry's authority in a distrustful cultural climate remains most seriously alive

Defensive Measures Lee Upton,2005 Much of our strongest poetry that learned its lessons from early modernism lives by its defensive measures that is by means of reversing inverting and challenging in covert ways a dominant perceptual mode Defensive Measures explores strategies by which poets claim their distinctiveness and argues that poetry is the one literary form that most insistently demands a defense It demands a defense it would seem because it is perpetually in crisis not only in regard to its utility and its aesthetic appeal or the vigor of its renunciation of such an appeal but in regard to its generic existence Upton defines a generative conception of defense and examines in a new light the poetry of Lorine Niedecker Elizabeth Bishop Louise Gluck and Anne Carson In writing about Bishop Upton puts this well regarded poet in a new framework aligning her work with that of three poets whose aesthetics might be viewed as antithetical to her own
