Stress and Coping Across Development Tiffany M. Field, Philip Mccabe, Neil Schneiderman, 2013-12-19 This is the second volume based on the annual University of Miami Symposia on Stress and Coping The present volume is focused on some representative stresses and coping mechanisms that occur during different stages of development including infancy childhood and adulthood Accordingly the volume is divided into three sections for those three stages Handbook of the Development of Coping Ellen A. Skinner, Melanie J. Zimmer-Gembeck, 2023-07-06 Despite broad interest in how children and youth cope with stress and how others can support their coping this is the first Handbook to consolidate the many theories and large bodies of research that contribute to the study of the development of coping The Handbook s goal is field building it brings together theory and research from across the spectrum of psychological developmental and related sciences to inform our understanding of coping and its development across the lifespan Hence it is of interest not only to psychologists but also to neuroscientists sociologists and public health experts Moreover work on stress and coping touches many areas of applied social science including prevention and intervention science education clinical practice and youth development making this Handbook a vital interdisciplinary resource for parents teachers clinical practitioners social workers and anyone interested in improving the lives of children Current Developments in Health Psychology Paul Bennett, John Weinman, Peter Spurgeon, 1990 First Published in 1990 Routledge is an imprint of Taylor Francis an informa Handbook of Developmental Psychopathology Arnold J. Sameroff, Michael Lewis, Suzanne M. company Miller, 2000-08-31 Developmental psychopathology involves the study and prediction of maladaptive behaviors and processes across time This new edition of the Handbook furthers the goal of integrating developmental processes into the search for adequate categorical systems for understanding child mental health problems and the trajectories that lead to adult psychopathology The editors respond to contemporary challenges to place individual behavior in a biological and social context By including a range of approaches this volume encompasses the complexity of the growing developmental literature At the same time it includes the most recent efforts to produce concise child diagnostic categories In a thoroughgoing revision of the first edition of this classic text and reference published by Plenum in 1990 the editors have assembled a distinguished roster of contributors to address such topics as issues and theories context and mental health biology and mental illness disorders of early childhood disruptive behavior disorders emotional disorders control disorders pervasive developmental disorders and trauma disorders Clinicians researchers and students in such diverse fields as developmental and clinical psychology child and adolescent psychiatry social work and educational and counseling psychology will benefit from the concepts investigations and challenges presented in this state of the art compendium **Handbook of Life-Span Development** Karen L. Fingerman, 2011 Print CourseSmart Adaptive and Maladaptive Aspects of Developmental Stress Giovanni Laviola, Simone Macrì, 2013-01-31 Since the very early stages of life we all experience some form of stress Stressors can be mild to severe and can range from unsuccessfully longing for maternal milk in infancy to recklessly wiggling on a motorbike to be on time to watch the NBA finals on TV to breaking up a relationship All those events that we call stress have the capability of perturbing a given state of psychological and physiological equilibrium and moving it to a different level The transition from crawling to walking has to be considered a form of stress as much as losing a job It is through a continuous cross talk between environmental stressors and individual adaptations that we build our personalities and our ways to cope with daily hassles External challenges should not necessarily be regarded as bad but instead seen as constructive forces forming our ability to navigate a changing world What is stress good for What is stress bad for When and why do we need to be stressed Should we worry about stress When does stress equate to normality When does it turn into pathology We hope with this book to provide some answers to these fundamental questions Action and Self-Development Richard M. Lerner, 1999-08-24 This text explores the theoretical breadth of models and ideas relevant to action theory Areas addressed include personal goals projects life themes life planning cultural agency and historical and social contexts impact developmental patterns Encyclopedia of Infant and Early Childhood Development, 2020-03-13 Encyclopedia of Infant and Early Childhood Development Second Edition provides a comprehensive entry point into the existing literature on child development in the fields of psychology genetics neuroscience and sociology Featuring 171 chapters across 3 volumes this work helps readers understand these developmental changes when they occur why they occur how they occur and the factors that influence development Although some medical information is included the emphasis lies mainly in normal growth primarily from a psychological perspective Comprehensive and in depth scholarly articles cover theoretical applied and basic science topics providing an interdisciplinary approach All articles have been completely updated making this resource ideal for a wide range of readers including advanced undergraduate and graduate students researchers and clinicians in developmental psychology medicine nursing social science and early childhood education Cutting edge content that cover the period of neonates to age three Organized alphabetically by topic for ease of reference Provides in depth scholarly articles covering theoretical applied and basic science Includes suggested readings at the end of each article Stress, Coping, and <u>Development</u> Carolyn M. Aldwin, 2009-10-14 How do people cope with stressful experiences What makes a coping strategy effective for a particular individual This volume comprehensively examines the nature of psychosocial stress and the implications of different coping strategies for adaptation and health across the lifespan Carolyn M Aldwin synthesizes a vast body of knowledge within a conceptual framework that emphasizes the transactions between mind and body and between persons and environments She analyzes different kinds of stressors and their psychological and physiological effects both negative and positive Ways in which coping is influenced by personality relationships situational factors and culture are explored The book also provides a methodological primer for stress and coping research critically reviewing available measures and data analysis techniques The SAGE Encyclopedia of Lifespan Human Development Dr Marc

Bornstein, Marc H. Bornstein, 2018-01-15 In approximately 800 signed articles by experts from a wide diversity of fields this encyclopedia explores all individual and situational factors related to human development across the lifespan
