Stress Management For Busy People

Allen R. Miller, Susan Shelly

Stress Management For Busy People:

Stress Management for Busy People Aino Felicity Virtanen, In today's hyperconnected world stress has become as common as morning coffee and evening news. We wake up to buzzing phones filled with notifications, rush through packed schedules and fall asleep to the blue glow of screens displaying tomorrow's endless to-do lists. The modern lifestyle while offering unprecedented convenience and opportunity has also created a perfect storm for chronic stress that affects millions of people worldwide. Stress fundamentally is our body's natural response to perceived threats or challenges. When our ancestors faced a charging mammoth, their stress response system kicked into gear, flooding their bodies with adrenaline and cortisol to either fight the beast or flee to safety. This fight or flight response served them well in life or death situations that lasted minutes, not months. Today's stressors are vastly different. We don't face mammoths, but we do face mounting deadlines, financial pressures, relationship conflicts, and the constant barrage of information that demands our attention. The problem is that our bodies haven't evolved to distinguish between a charging mammoth and a demanding boss. Our stress response system treats them with equal urgency, keeping us in a state of chronic alertness that wreaks havoc on our physical and mental well-being.

Stress Reduction for Busy People Dawn Groves, 2010-10-05. Offering serious information with a light touch, author Dawn Groves shows that by starting with a few simple changes, anyone can find a few minutes each day to take care of their bodies with exercise, sleep, and good food; their souls with meditation and prayer; and their minds with pursuits that challenge and please. Practical techniques will help readers understand how to mindfully interpret events and issues for healthier emotional responses. Groves demonstrates how a few choices can change bad habits into good ones and how parents can not only cope with their children but also help them become part of a lower stress solution.
