the Most Notorious Crimes in England. Gordon Honeycombe, 2014-06-05 EXCELLENT WRITING AND RESEARCH RUTH RENDELL The Crime Museum of New Scotland Yard invariably known as the Black Museum houses a remarkable collection of exhibits photographs and documents connected with some of the most notorious crimes in this country's history Although the museum is closed to the general public Gordon Honeycombe was granted privileged access to its classified records and his book reveals the stories behind 21 murders committed in Britain between 1835 and 1985 The author's painstaking research which reaches beyond the Black Museum to other archives as well as contemporary newspaper and similar reports allows him to give searching accounts of the murders and manslaughter committed by such infamous characters as William Palmer Charles Peace Donald Nielson the Black Panther the serial killer Dennis Nilsen and Ruth Ellis the last woman to be hanged in Britain Here too are John Lee the Man They Could Not Hang George Chapman a London publican who poisoned his wives and the murder by IRA bomb of four soldiers of the Household Cavalry in London's Hyde Park in a work that provides a fascinating if uncompromising insight into the minds and methods of those who practise murder The well known writer and former ITN newscaster Gordon Honeycombe is also the author of *Murders of the Black Museum 1875-1975* John Blake Publishing 2009 *Sessional Papers Printed by Order of the House of Lords: Minutes of Proceedings ... Public Bills ... Reports from Committees ... Miscellaneous* Great Britain. Parliament. House of Lords, 1988 Includes lists of orders rules bills etc *Violence in America* Ted Robert Gurr, 1989-06 *Violence in America* The History of Crime presents a wealth of new research on the long term dynamics of murder and other crimes of violence The contributors clearly identify and diagnose the painful circumstances of recurring epidemics of violent crime that have swept the American society over the past 150 years Among the possible causes discussed are waves of immigration the social dislocations of war and growing concentrations of urban poverty In addition this engaging volume offers an evaluation of the traits of political assassins and an assessment of the pros and cons of gun control and whether or not it will help to reduce crimes of violence Surprisingly the contributors to this compelling volume present the idea that the past and present dynamics of violent crime projected into the future suggest grounds for cautious optimism This outlook is based on recent increases in effective criminal justice policies and the widespread efforts to remedy the social disintegration that breeds violent crime Students and professionals in history criminology victimology political science and other related fields will find this volume to be essential reading For both volumes This is a major timely and immensely welcome addition to the literature on violence in American society With fresh scholarship and new insights it updates a classic study of violence first published in 1969 It would make a valuable addition to courses on American social history as well as classes specifically addressing violence and crime in this society John J Broesamle California State University Northridge Supreme Court Reporter United States.
