Work and Strife in Paradise Bradley Bowden, 2009 From Queensland's inception as a self governing colony in December 1859 the issue of labour relations has preoccupied governments and shaped the experiences of its working men and women However despite the often turbulent nature of labour relations in Queensland there has prior to this book been no attempt to provide an overview of the system as a whole This important addition to Queensland's sesquicentenary celebrations redresses this failure looking at the diverse range of experiences that together made up a unique system of labour relations including those of employers women workers indigenous workers unions the Queensland Industrial Relations Commission labour law industrial disputation the workings of health and safety system and life in regional areas It is argued that overall Queensland's system of industrial regulation was central to its economic and social development Despite past emphasis on the large scale strikes that periodically raked the state this book finds that consensus normally prevailed

Law and Order in Australia Donald James Weatherburn, 2004 How much crime is committed in Australia What sort of crime where and by whom What can we do to stop it This book deals in facts and dispels myths Don Weatherburn Director of the NSW Bureau of Crime Statistics and Research shows how policies are driven by the political need to manage public reactions not to control and prevent crime Law and Order in Australia informs public debate about crime in Australia by contrasting popular assumptions about crime and crime control with what is actually known to be true The opening chapter sets the scene by asking how serious Australia's crime problems are Weatherburn then offers a critique of the way Australian governments attempt to deal with Australia's crime problems This is followed by the foundations for a discussion of what actually works in crime prevention and control by highlighting some basic facts about crime and offenders The final chapters discuss what the evidence reveals about crime prevention and control and the key issues in crime prevention and control in Australia Weatherburn clearly provides

numerous ideas for better policies ones that will actually work Communism in Australia Beverley Symons,1994 This bibliography covers the 70 years of existence of the Communist Party in Australia The material listed relates not only to the CPA but to its allied and breakaway movements from 1920 to 1991 Contains over 3400 references and includes a name index

Coal, Class & Community Len Richardson,2013-11-01 Geographically isolated and long regarded as the quintessential proletarians industrial bogeymen and revolutionaries coal miners occupy an important place in the history of industrial radicalism in New Zealand Looking behind the stereotypes this study tells a story about New Zealand s industrial past with clear identification of the central issues and attention to the colorful personalities involved **Neither Power Nor Glory** Paul Strangio,2012 When Frank Hardy published *Power Without Glory* his notorious novel about corruption and venality in the Victorian Labor Party it quickly came to be seen as a true account of the party Until now there has been no authoritative chronicle of the struggles of political Labor in Victoria from its origins in the mid nineteenth century through to the calamitous split of the 1950s By conventional measures these were fallow years Ensnared by the colony s powerful liberal protectionist tradition in the late nineteenth century Victorian Labor then found itself hindered by a grossly unfair electoral system and the lack of a constituency outside Melbourne s industrial suburbs But exile from government also meant that the party developed its own distinctive traditions and culture It was a unique and intriguing species among the state Labor parties Meticulously researched and elegantly written *Neither Power Nor Glory* fills an important gap in Australian political history and our understanding of the Labor Party It is also a timely antidote to nostalgia about Labor s past In Victoria at least that past was anything but golden **Frontiers of Labor** Greg Patmore,Shelton Stromquist,2018-03-21 Alike in many aspects of their histories Australia and the United States diverge in striking ways when it comes to their working classes labor relations and politics Greg Patmore and Shelton Stromquist curate innovative essays that use transnational and comparative analysis to explore the two nations differences The contributors examine five major areas World War I s impact on labor and socialist movements the history of coerced labor patterns of ethnic and class identification forms of working class collective action and the struggles related to trade union democracy and independent working class politics Throughout many essays highlight how hard won transnational ties allowed Australians and Americans to influence each other s trade union and political cultures Contributors Robin Archer Nikola Balnave James R Barrett Bradley Bowden Verity Burgmann Robert Cherny Peter Clayworth Tom Goyens Dianne Hall Benjamin Huf Jennie Jeppesen Marjorie A Jerrard Jeffrey A Johnson Diane Kirkby Elizabeth Malcolm Patrick O Leary Greg Patmore Scott Stephenson Peta Stevenson Clarke Shelton Stromquist and Nathan Wise **Policing the Lucky Country** Mike Enders,Benoît Dupont,2001 *Policing The Lucky Country* addresses key challenges of contemporary Australian policing and places them within the context of Australia s particular culture and history The book s approach is to combine policing case studies with an analysis of the wider social and political environment Policing students are given information which enables them to think critically about contemporary policing practice and to

understand the factors behind pervasive attitudes in the forces and the community In this way it aims to increase each officer's range of responses leading to appropriate policing practices and increased safety for the officer One of the key strengths of the book is the discussion of policing and indigenous persons with articles on policing indigenous peoples and indigenous participation in policing Specific police indigenous clashes are examined and situated within the Aboriginal policies of the day This historical perspective illuminates the discussion of current police force relationships with and responsibilities towards indigenous persons Other issues considered the use of technology the enforcement of drug laws the maintenance of public order the role of police in industrial disputes the social construction of crime are studied in similar fashion and provide a useful source of information and discussion about areas of policing relevant to contemporary police work This book is designed for first year policing students but will also be useful in criminology courses
