The Oxford Handbook of Civil Society Michael Edwards, 2013-07-04 Broadly speaking The Oxford Handbook of Civil Society views the topic of civil society through three prisms as a part of society voluntary associations as a kind of society marked out by certain social norms and as a space for citizen action and engagement the public square or sphere

Managing Nongovernmental Organizations Frederik Claeyé, 2014-03-26 The idea that international development aid needs to be better managed and coordinated gained currency in the early 1990s The increasing emphasis on management has resulted in the present vogue of managing for development results as one of the central tenets in the discourse on international aid But how appropriate are these ideas tools and techniques for non governmental development organizations NGOs and how much does geographic context matter Examining the current debate on aid effectiveness and the role of NGOs in contributing to it this book highlights the critical importance of

understanding how the global and the local interact to increase aid efficacy and develop more culturally astute ways of managing NGOs With a focus on NGOs active in sub Saharan Africa as case studies author Frederik Claey demonstrates that NGOs are not mere passive recipients of management knowledge and practices emanating from the global governance structure of international aid but actively engage with these ideas and practices to translate and rework them through a local cultural lens This process results in the emergence of unique hybrid management systems that combine the pressure to become more business like with the mission to satisfy the demands of the communities they serve

International Politics of HIV/AIDS Hakan Seckinelgin, 2007-08-07 This book examines the global governance of the HIV AIDS epidemic interrogating the role of this international system and global discourse on HIV AIDS interventions The geographical focus is Sub Saharan Africa since the region has been at the forefront of these interventions There is a need to understand the relationship between the international political environment and the impact of resulting policies on HIV AIDS in the context of people s lives Hakan Seckinelgin points out a certain disjuncture between this governance structures and the way people experience the disease in their everyday lives Although the structure allows people to emerge as policy relevant target groups and beneficiaries the articulation of needs and design of policy interventions tends to reflect international priorities rather than people s thinking on the problem In other words he argues that while the international interventions highlight the importance attributed to the HIV AIDS problem the nature of the system does not allow interventions to be far reaching and sustainable Offering a critical contribution to the understanding of the problems in HIV AIDS in Sub Saharan Africa International Politics of HIV AIDS will be invaluable to students and researchers of health international politics and development

The International Handbook of Gender and Poverty Sylvia H. Chant, 2011-01-01 possibly the most comprehensive contribution to a detailed and thorough analysis of gendered dimensions of international poverty contexts causes and consequences ever brought together into one volume Gender and Development I recommend this book to be a staple of reference libraries British Politics and Policy With international attention focused on halving poverty by 2015 the appearance of The International Handbook of Gender and Poverty is both timely and essential Sylvia Chant is to be congratulated for producing a state of the art compendium of everything you need to know about the often hidden gendered dimensions of poverty Edited and written by leading scholars and policy advisers the Handbook comprehensively covers the key themes that are vital to understanding poverty as a gendered process combining policy lessons with theoretical insight Richly illustrated with examples from across the world this book will not only be welcomed by all those dedicated to the study of poverty but by casting new light on its causes will also help to develop appropriate measures to tackle it Professor Maxine Molyneux Institute for the Study of the Americas University of London UK While each of the articles in this impressive collection makes an original contribution to the conceptual empirical and policy analysis of gender and poverty together they provide a comprehensive overview of the field and an essential resource for all sections of the development community

Professor Sylvia Chant is to be congratulated for bringing together some of the leading thinkers in the field from across the world. This is not only an unprecedented feat of international co-operation but feminist collaboration at its best. Professor Naila Kabeer, Institute of Development Studies, University of Sussex, UK. These diverse thoughtful essays go far beyond a mere summary of international scholarship. They outline a fascinating and provocative agenda for future policy-relevant research. This book will help redefine and revitalise the field of gender and development. Professor Nancy Folbre, Department of Economics, University of Massachusetts Amherst, USA. In the interests of contextualising and nuancing the multiple interrelations between gender and poverty, Sylvia Chant has gathered writings on diverse aspects of the subject from a range of disciplinary and professional perspectives, achieving extensive thematic as well as geographical coverage. This benchmark volume presents women's and men's experiences of gendered poverty with respect to a vast spectrum of intersecting issues, including local to global economic transformations, family, age, race, migration, assets, paid and unpaid work, health, sexuality, human rights, and conflict and violence. The Handbook also provides up-to-the-minute reflections on how to theorise, measure, and represent the connections between gender and poverty and to contemplate how gendered poverty is affected and potentially redressed by policy and grassroots interventions. An unprecedented and ambitious blend of conceptual, methodological, empirical, and practical offerings from a host of established as well as upcoming scholars and professionals from across the globe lends the volume a distinctive and critical edge. Notwithstanding the broad scope of *The International Handbook of Gender and Poverty*, one theme in common to most of its 100-plus chapters is the need to engage in analysis and initiatives to combat poverty and inequality at local, national, and international levels. As such, the volume will inspire its readers not only to reflect deeply on poverty and gender injustice but also to consider what to do about it. This book will be essential reading for all with academic, professional, or personal interests in gender, poverty, inequality, development, and social, political, and economic change in the contemporary world.

Environment, Development, and Sustainability Gordon Wilson, Pamela Furniss, Richard Kimbowa, 2010. Case studies from technologists, engineers, natural and social scientists, and practitioners present multiple perspectives on sustainable development. Examples from both developing and developed countries show how environment, development, and sustainability intertwine to form an issue of truly global concern.

Non-Governmental Development Organizations and the Poverty Reduction Agenda Jonathan Makuwira, 2013-12-04. The Non-Governmental Development Organisations (NGDOs) have over the past two decades entered centre stage in their active participation in the social, political, and economic issues affecting both the developing and developed world. This book offers a highly stimulating and concise summary of the NGDO sector by examining their history and metamorphosis, their influence on the social, political, and economic landscapes of the Northern and Southern governments and societies. The author analyses competing theoretical and conceptual debates not only regarding their contribution to the global social, political dynamism but also on the sector's changing external influence as they try and

mitigate poverty in marginalized communities This book presents NGOs as multidimensional actors propelled by the desire to make a lasting change but constrained by market oriented approaches to development and other factors both internal and external to their environment While a lot of attention has been given to understanding international NGOs like World Vision International Oxfam Care International and Plan International this book offers a critical analysis of grassroots organizations those NGOs founded and established by locals and operate at the deepest end of the development contexts This work will be of interest to students and scholars in a range of areas including Development Studies International Organizations and Globalization

Capacity-building Deborah Eade, 1997 This book considers specific and practical ways in which NGOs can contribute to enabling people to build on the capacities they already possess It reviews the types of social organisation with which NGOs might consider working and the provision of training in a variety of relevant skills and activities

Africa and the New Globalization George Klay Kieh, Jr., 2016-03-16 Globalization is not a new phenomenon in the international system However the various phases of globalization have had divergent scopes actors dimensions and dynamics that is each of the phases of globalization can be differentiated according to these terms Against this background this book focuses on the new globalization a phase that emerged when the Cold War ended and which is significantly the most expansive and technologically advanced of all the phases of globalization The contributors identify and discuss many of the frontier issues in Africa that are being impacted by the dynamics of this new globalization debt human rights development state sovereignty the environment and the HIV AIDS pandemic The volume will hold particular interest for students scholars and researchers of African and development politics
