Podair, 2003-01-01 This admirably balanced book will most likely stand as the definitive account of the Ocean Hill Brownsville crisis for some time engrossing New York History Winner of the Allan Nevins Prize awarded by the Society of American Historians On May 9 1968 junior high school teacher Fred Nauman received a letter that would change the history of New York City It informed him that he had been fired from his job Eighteen other educators in the Ocean Hill Brownsville area of Brooklyn received similar letters that day The dismissed educators were white The local school board that fired them was predominantly African American The crisis that the firings provoked became the most racially divisive moment in the city in more than a century sparking three teachers strikes and increasingly angry confrontations between black and white New Yorkers at bargaining tables on picket lines and in the streets This superb book revisits the Ocean Hill Brownsville crisis a watershed in modern New York City race relations Jerald E Podair connects the conflict with the sociocultural history of the city and explores its legacy The book is a powerful sobering tale of racial misunderstanding and fear and a New York story with national implications Deftly weaves a complicated story about class and race labor and civil rights There are no faultless heroes or thoroughly evil villains here

only human beings struggling to make sense of their world and achieve justice as they understand it

Choice Compelling Washington Monthly Carrier Strike Eric Hammel, 2020-12-21 CARRIER STRIKE The Battle of the Santa Cruz Islands October 1942 By Eric Hammel The Battle of the Santa Cruz Islands a strategic naval action in the bitter Guadalcanal Campaign was history's fourth carrier versus carrier naval battle Though technically a Japanese victory the battle proved to be the Empire of Japan's last serious attempt to win the Pacific War by means of an all out carrier confrontation Only one other carrier battle occurred in the Pacific War in June 1944 in the Philippine Sea By then however the U S Navy's Fast Carrier Task Force was operational and Japan's dwindling fleet of carriers was outnumbered and completely outclassed Though hundreds of Japanese naval aviators perished in the great Marianas Turkey Shoot of June 19 20 1944 it was during the first four carrier battles in the six month period from early May through late October 1942 that the fate of Japan's small elite naval air arm was sealed It was at Coral Sea in May that Japan's juggernaut across the Pacific was blunted It was at Midway in June that Japan's great carrier fleet was cut down to manageable size And it was at Eastern Solomons in August and Santa Cruz in October that Japan's last best carrier air groups were ground to dust After their technical victory at Santa Cruz the Japanese withdrew their carriers from the South Pacific and were never able to use them again as a strategically decisive weapon Of the four Japanese aircraft carriers that participated in the Santa Cruz battle only one survived the war Following Santa Cruz and the subsequent series of air and surface engagements known as the Naval Battle of Guadalcanal the Imperial Navy's Combined Fleet never again attempted a meaningful strategic showdown with the U S Pacific Fleet Though several subsequent surface actions in the Solomons were clearly Japanese victories their results were short lived After November 1942 Japan could not again muster the staying power or the willpower to wage a strategic war with her navy Once the veteran carrier air groups had been shredded at Eastern Solomons and Santa Cruz Japanese carriers ceased to be a strategic weapon The Santa Cruz clash was deemed a Japanese victory because U S naval forces withdrew from the battlefield That is how victory and defeat are strictly determined But on the broader strategic level the U S Navy won at Santa Cruz because it was able to achieve its strategic goal of holding the line and buying time Japan was unable to achieve her strategic goal of defeating the U S Pacific Fleet in a final decisive all or nothing battle The technical victory cost Japan any serious hope she had of winning the Pacific naval war The victory at Santa Cruz cost Japan her last best hope to win the war in the Pacific Once again author historian Eric Hammel brings to the reading public an exciting narrative filled with the latest information and written in the edge of the seat style that his readers have enjoyed for nearly two decades in nearly thirty acclaimed military history books As was the case with its companion volume Carrier Clash this new book is based upon American and Japanese battle reports and the recollections of many airmen and seamen who took part **On Strike and on Film** Ellen R. Baker, 2012-09-01 In 1950 Mexican American miners went on strike for fair working conditions in Hanover New Mexico When an injunction prohibited miners from picketing their wives took over the picket lines an unprecedented act that

disrupted mining families but ultimately ensured the strikers victory in 1952 In *On Strike and on Film* Ellen Baker examines the building of a leftist union that linked class justice to ethnic equality She shows how women s participation in union activities paved the way for their taking over the picket lines and thereby forcing their husbands and the union to face troubling questions about gender equality Baker also explores the collaboration between mining families and blacklisted Hollywood filmmakers that resulted in the controversial 1954 film *Salt of the Earth* She shows how this worker artist alliance gave the mining families a unique chance to clarify the meanings of the strike in their own lives and allowed the filmmakers to create a progressive alternative to Hollywood productions An inspiring story of working class solidarity Mexican American dignity and women s liberation *Salt of the Earth* was itself blacklisted by powerful anticommunists yet the movie has endured as a vital contribution to American cinema
