speculation about the meaning and uses of history itself **William Styron, an Annotated Bibliography of Criticism**, 1978 **Twentieth-century American Literary Naturalism** Donald Pizer, 1982 Pizer explores six novels to define

naturalism and explain its tenacious hold throughout the twentieth century on the American creative imagination

Comparative Literary Dimensions Jay L. Halio, Ben Siegel, 2000 *Comparative Literary Dimensions* like its companion volume *American Literary Dimensions* honors the memory of Melvin J. Friedman. The authors studied include James Joyce, Robert Graves, and Virginia Woolf. A wide range of classical and modern writers and literary themes and concepts are discussed by international scholar critics such as Haskell Block, Zack Bowen, and Owen Aldrich. The volume concludes with Jackson Bryer's detailed bibliography of Melvin Friedman's singular contribution to the study of modern literature.

American Literary Dimensions Ben Siegel, Jay L. Halio, 1999 This is the first of two volumes commemorating Friedman's life and work and includes essays on American literature, poetry, and remembrances **Civil Rights in the White Literary Imagination** Jonathan W. Gray, 2013-01-14 The statement "The Civil Rights Movement changed America" though true has become something of a cliché. *Civil Rights in the White Literary Imagination* seeks to determine how exactly the Civil Rights Movement changed the literary possibilities of four iconic American writers: Robert Penn Warren, Norman Mailer, Eudora Welty, and William Styron. Each of these writers published significant works prior to the *Brown v. Board of Education* case in 1954 and the Montgomery Bus Boycott that began in December of the following year, making it possible to trace their evolution in reaction to these events. The work these writers crafted in response to the upheaval of the day—from Warren's *Who Speaks for the Negro* to Mailer's *The White Negro* to Welty's *Where Is the Voice Coming From?* to Styron's *Confessions of Nat Turner*—reveal much about their own feeling in the moment, even as they contribute to the national conversation that centered on race and democracy. By examining these works closely, Gray posits the argument that these writers significantly shaped discourse on civil rights as the movement was occurring, but did so in ways that intentionally or not often relied upon a notion of the relative innocence of the South with regard to racial affairs and on a construct of African Americans as politically and/or culturally naive. As these writers grappled with race and the myth of southern nobility, their work developed in ways that were simultaneously sympathetic of and condescending to black intellectual thought occurring at the same time.

History and the Contemporary Novel David Cowart, 1989 Cowart presents a study of international historical fiction since World War II with reflections on the affinities between historical and fictional narrative. Analysis of the basic modes of historical fiction and readings of a number of historical novels including John Barth's *The Sot-Weed Factor*, Marguerite Yourcenar's *Memoirs of Hadrian*, Russell Hoban's *Riddley Walker*, Margaret Atwood's *The Handmaid's Tale*, Giuseppe Tomasi di Lampedusa's *The Leopard*, D. M. Thomas's *The White Hotel*, William Faulkner's *Go Down, Moses*, and Umberto Eco's *The Name of the Rose*. He proposes recognizing four modes of the historical novel: the past as a distant mirror of the present; fictions whose authors seek to pinpoint the precise historical moment when the modern age or some prominent feature of it

came into existence fictions whose authors aspire purely or largely to historical verisimilitude and fictions whose authors reverse history to contemplate utopia and dystopia in the future Thus historical fiction can be organized under the rubrics The Distant Mirror The Turning Point The Way It Was and The Way It Will Be This fourfold schema and his focus on postwar novels set Cowart's work apart from previous studies which have not devoted adequate space to the contemporary historical novel Cowart argues that postwar historical fiction merits more extensive treatment because it is the product of an age unique in the annals of history an age in which history itself may end

Reader's Guide to Literature in English Mark Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study

Cold War American Literature and the Rise of Youth Culture Denis Jonnes, 2014-09-04 Demands placed on many young Americans as a result of the Cold War give rise to an increasingly age segregated society This separation allowed adolescents and young adults to begin to formulate an identity distinct from previous generations and was a significant factor in their widespread rejection of contemporary American society This study traces the emergence of a distinctive post war family dynamic between parent and adolescent or already adult child In depth readings of individual writers such as Arthur Miller William Styron J D Salinger Tennessee Williams Vladimir Nabokov Jack Kerouac Flannery O'Connor and Sylvia Plath situate their work in relation to the Cold War and suggest how the figuring of adolescents and young people reflected and contributed to an empowerment of American youth This book is a superb research tool for any student or academic with an interest in youth culture cultural studies American studies cold war studies twentieth century American literature history of the family and age studies
