The Answer Mystery Of The Truth Craig Cox, *Form and Spirit* J.H. Badley, 2023-10-30 First published in 1951

Form and Spirit deals with two primary questions regarding religion a the nature of religion as a permanent need in human life and its relation to the cults and creeds in which it has been embodied and b whether what is admittedly a crying need of our time can be met by the revival of religious forms which have lost their hold An attempt is made to trace the evolution of religion and a brief survey is given of the development of the chief world religions The object is not to show that any of these can be accounted truer than the rest but rather to see what were the reasons for the forms that they have taken and what elements and tendencies are common to them as throwing light both on the meaning of religion and on the needs of man s spiritual nature This is an essential read for general readers interested in religion

Tolerance and co existence are both great In fact they are necessary If we are to live together in peace without hating each other or physically harming each other over differences in race culture sexual orientation political views and religious beliefs we must have tolerance However we must also recognize that every belief can t be equally valid If two beliefs directly contradict each other both of them cannot be true no matter how tolerant we become This means it is false to say that every religion is true or that every religion leads to God When people make such claims they show that they have not taken the time to study the world s religions because a brief reading of the sacred texts of only a handful of religions quickly reveals
