The African Union Tony Karbo, Tim Murithi, 2017-11-23 The African Union has been a major factor in establishing peace security and development in Africa Today however the intranational body is struggling in the midst of a perceived dissipating appetite for supporting continental institutions Previously seen as the panacea to Africa's continuing problems with violence and corruption in society under the slogan African Solutions to African Problems the African Union this book argues seems to have run its course Recognizing that the measured successes in political emancipation which have been recorded across the African continent do not seem to have translated into economic and social gains for its 1.2 billion citizens the AU adopted a new development framework dubbed Agenda 2063 The framework calls on African leaders to rediscover the Pan African spirit and to create the Africa Africans want In practice this means a new focus and engagement with the African Diaspora tapping into their strong track record in economic development As this book shows however there remain deep differences over the meaning timing and sequencing of pan African integration Indeed different member states have different understandings of the role of the African Union itself This essential handbook from one of the leading research institutions on

the continent seeks to uncover what some of those understandings are and why the unification project has remained so elusive

Handbook of Africa's International Relations Tim Murithi, 2013-09-05 Africa's international relations have often been defined and oriented by the dominant international and geopolitical agendas of the day. In the aftermath of colonialism the Cold War became a dominant paradigm that defined the nature of the continent's relationship with the rest of the world. The contemporary forces of globalization are now exerting an undue influence and impact upon Africa's international relations. Increasingly the African continent is emerging as a vocal and in some respects an influential actor in international relations. There is a paucity of analysis and research on this emerging trend. This timely book proposes to fill this analytical gap by engaging with a wide range of issues with chapters written by experts on a variety of themes. The emerging political prominence of the African continent on the world stage is predicated on an evolving internal process of continental integration. In particular there are normative and policy efforts to revive the spirit of Pan Africanism. The 21st century is witnessing the evolution of Pan Africanism notably through the constitution and establishment of the African Union (AU). Given the fact that there is a dearth of analysis on this phenomenon this volume will also interrogate the notion of Pan Africanism through various lenses notably peace and security, development, the environment and trade. The volume will also engage with the emerging role of the AU as an international actor e.g. with regard to its role in the reform of the United Nations Security Council, climate change, the International Criminal Court (ICC), the treaty establishing Africa as a nuclear free zone, Internally Displaced Persons, the Millennium Development Goals (MDGs), international trade, the environment, public health issues, security and development issues. This book will assess how the AU's role as an international actor is complicated by the difficulty of promoting consensus among African states and then maintaining that consensus in the face of often divergent national interests. This book will in part assess the role of the AU in articulating collective and joint policies and in making interventions in international decision and policy making circles. The Handbook will also assess the role of African social movements and their relationship with global actors. The role of African citizens in ameliorating their own conditions is often underplayed in the international relations discourse and this volume will seek to redress this oversight. Throughout the book the various chapters will also assess the role that these citizen linkages have contributed towards continental integration and in confronting the challenges of globalization.

The African Union Samuel M. Makinda, F. Wafula Okumu, 2007-11-13 A comprehensive examination of the work of the African Union (AU) with special emphasis on its capacity to meet the challenges of building and sustaining governance institutions and security mechanisms. Samuel Makinda and F. Wafula Okumu show how Africa and in particular the AU can effectively address the challenges of building and sustaining governance institutions and security mechanisms only if they have strategic leadership. Current debates on and criticisms of leadership in Africa are also analyzed as well as key options for overcoming the constraints that African leaders face. Core topics covered include the colonial policies of the European powers, the emergence of Pan Africanism, the creation of the Organization of African Unity

OAU in 1963 the evolution of the OAU into the AU in 2002 the AU's capacity to address poverty alleviation conflict management and resolution peacebuilding and humanitarian intervention

Engagement of Africa in Conflict Dynamics and Peace Architectures Stanley Osezua Ehiane, Lukong Stella Shulika, Clayton Hazvinei

Vhumbunu, 2024-03-25 This book examines the nature of conflict in Africa vis-à-vis the African Union (AU) peace and security architecture in Africa. It focuses on the intense campaign 'Silencing the Guns by 2020' since 2013, one of the flagship projects of Agenda 2063 to achieve a conflict-free continent by AU. It analyses various causes of conflict in Africa using case studies to pursue the causality and dynamics of these conflicts, which often point to the intersectionality of historical legacies of colonialism and neo colonialism. It further examines the interplay of factors such as resource curse, resource exploitation, election-induced violence, political violence, incessant and interminable challenges of social justice, oppression, contemporary governance and leadership dynamics. It also focuses on the application and integration of conflict and gender for analytical reflection. In the quest for a peaceful and secure Africa, this book examines the different mechanisms to prevent, manage and resolve conflicts on the continent and the challenges thereof. It probes and investigates by asking critical questions about continental conflict dynamics and peace architectures, which warrants in-depth inquiry and interrogation.

Post-conflict

Reconstruction and Development in Africa Theo Neethling, Heidi Hudson, 2013-10-01 Some of the bloodiest conflicts occur on the African continent. An Afrocentric perspective is therefore a suitable starting point for research into the possible strategies for post-conflict peacebuilding. The authors of this book consider the problems around the concept of post-conflict and the blurring of military and civilian roles, analysing the UN roles in the DRC and Sierra Leone as well as the African Union Mission in Burundi. The main context of the book, however, is the South African Army's strategy for PCRD in Africa, which was developed with the African Union's 2006 Post-Conflict Reconstruction and Development Needs Assessment Guide.

in mind This book emanates from this plan It therefore also explores South Africa's policy imperatives to integrate development projects and peace missions involving the military as well as civilian organisations While this book is not intended as an instruction manual it hopes to ignite an understanding of the particular processes required to develop a sustainable and cohesive post conflict peacebuilding strategy within the African environment **Regionalism in Africa** Daniel C Bach,2015-12-22 Africa which was not long ago discarded as a hopeless and irrelevant region has become a new frontier for global trade investment and the conduct of international relations This book surveys the socio economic intellectual and security related dimensions of African regionalisms since the turn of the 20th century It argues that the continent deserves to be considered as a crucible for conceptualizing and contextualizing the ongoing influence of colonial policies the emergence of specific integration and security cultures the spread of cross border regionalisation processes at the expense of region building the interplay between territory space and trans state networks and the intrinsic ambivalence of global frontier narratives This is emphasized through the identification of distinctive threads of regionalism which by focusing on genealogies trajectories and ideals transcend the binary divide between old and new regionalisms In doing so the book opens new perspectives not only on Africa in international relations but also Africa's own international relations This text will be of key interest to students and scholars of African politics African history regionalism comparative regionalism and more broadly to international political economy international relations and global and regional governance Africa and the ICC Kamari M. Clarke, Abel S. Kottnerus, Eefje de Volder,2016-10-27 By investigating how the International Criminal Court ICC is portrayed in Africa this book highlights how perceptions of justice are multilayered **The Africana World** Mammo Muchie, Sanya Osha, Matlotleng P. Matlou,2012 Collected papers from the first Scramble for Africa conference held from 25-27 May 2011 **War and Governance** Richard Weitz,2011-10-05 An insightful and expert assessment examines how best to end and avert wars How do we avoid war To arrive at an answer master analyst Richard Weitz explores the ways nations international organizations and individuals have sought to bring order to an inherently disorderly phenomenon potential and actual violent conflict among organized political entities Specifically War and Governance International Security in a Changing World Order analyzes a number of critical issues such as whether regional security institutions have distinct advantages and liabilities in promoting international security as compared with universal organizations like the United Nations Other important questions are addressed as well How will international organizations such as the UN EU and NATO change the nature of war in the 21st century and be changed by it What role might less formal institutions and nongovernmental organizations play in peacemaking Will the nation state remain the most important international security actor The book ends with a gap analysis that identifies incongruities between international needs and capabilities and suggests ways to overcome them **Neo-Panafricanism Foreign Powers and Non-State Actors** Francisco Kofi Nyaxo Olympio,2013 Apart from decolonization and the liquidation of apartheid the Organization of African Unity OAU has had

three goals unity security and development In none of these three areas did the OAU live up to its expectation The transformation of the OAU was designed to inject institutional vim mainstream its social forces and keep abreast with challenges of the 21st century This book explores Pan Africanism from a perspective of a rapidly changing international system Key obstacles remain to the leadership conundrum and endemic capacity gaps Series African Politics Politiques Africaines Vol 6
