The age of capital : 1848 - 1875 Eric John Hobsbawm,1995

Age Of Capital: 1848-1875 Eric Hobsbawm,2010-12-16

A magisterial account of the rise of capitalism Eric Hobsbawm's magnificent treatment of the crucial years 1848-1875 is a penetrating analysis of the rise of capitalism and the consolidation of bourgeois culture In the 1860s a new word entered the economic and political vocabulary of the world capitalism The global triumph of capitalism is the major theme of history in the decades after 1848 The extension of capitalist economy to four corners of the globe the mounting concentration of wealth the migration of men the domination of Europe and European culture made the third quarter of the nineteenth century a watershed This is a history not only of Europe but of the world Eric Hobsbawm's intention is not to summarise facts but to draw facts together into a historical synthesis to make sense of the period and to trace the roots of the present world back to it He integrates economics with political and intellectual developments in this objective yet original account of revolution and the failure of revolution of the cycles of boom and slump that characterise capitalist economies of the victims and victors of the bourgeois ethos

Chicago in the Age of Capital John B. Jentz,Richard Schneirov,2012-04-15 In this sweeping interpretive history of mid nineteenth century Chicago historians John B Jentz and Richard Schneirov boldly trace the evolution of a modern social order Combining a mastery of historical and political detail with a sophisticated theoretical frame Jentz and Schneirov examine the dramatic capitalist transition in Chicago during the critical decades from the 1850s through the 1870s a period that saw the rise of a permanent wage worker class and the formation of an industrial upper class Jentz and Schneirov demonstrate how a new political economy based on wage labor and capital accumulation in manufacturing superseded an older mercantile economy that relied on speculative trading and artisan production The city's leading business interests were unable to stabilize their new system without the participation of the new working class a German and Irish ethnic mix that included radical ideas transplanted from Europe Jentz and Schneirov examine how debates over slave labor were transformed into debates over free labor as the city's wage earning working class developed a distinctive culture and politics The new social movements that arose in this era labor socialism urban populism businessmen's municipal reform Protestant revivalism and women's activism constituted the substance of a new post bellum democratic politics that took shape in the 1860s and 70s When the Depression of 1873 brought increased crime and financial panic Chicago's new upper class developed municipal reform in an attempt to reassert its leadership Setting local detail against a national canvas of partisan ideology and the seismic structural shifts of Reconstruction Chicago in the Age of Capital vividly depicts the upheavals integral to building capitalism

The Age of Monopoly Capital Paul A. Baran,Paul M.

Sweezy,2017-07-24 The rich correspondence that preceded the publication of Monopoly Capital Paul A Baran and Paul M Sweezy were two of the leading Marxist economists of the twentieth century Their seminal work Monopoly Capital An Essay on the American Economic and Social Order published in 1966 two years after Baran's death was in many respects the

culmination of fifteen years of correspondence between the two from 1949 to 1964 During those years Baran a professor of economics at Stanford and Sweezy a former professor of economics at Harvard then co editing Monthly Review in New York City were separated by three thousand miles Their intellectual collaboration required that they write letters to one another frequently and in the years closer to 1964 almost daily Their surviving correspondence consists of some one thousand letters The letters selected for this volume illuminate not only the development of the political economy that was to form the basis of Monopoly Capital but also the historical context the McCarthy Era the Cold War the Cuban Missile Crisis in which these thinkers were forced to struggle Not since Marx and Engels carried on their epistolary correspondence has there has been a collection of letters offering such a detailed look at the making of a prescient critique of political economy and at the historical conditions from which that critique was formed Age of Capital E.
