Critical Perspectives on Aging Meredith Minkler, Carroll Estes, 2020-11-25 This unique volume brings together 20 critical essays on aging within the context of the broad social, political, and economic factors that help shape and determine the realities of growing old. Rather than viewing aging in isolation, it explores the social creation of old age dependency and the profound influence of race, gender, and social class on what it means to grow old. It looks too at such topics as the biomedicalization of aging, the role of business and the media in changing societal images of the old, the fact and fiction behind senior power, the multibillion dollar nursing home industry, and the role of advanced capitalist nations in creating economic dependency among elders in the Third World.

**Politics and Old Age: Older Citizens and Political Processes in Britain** John A. Vincent, Guy Patterson, Karen Wale, 2024-11-01 This title was first published in 2001. Older people have been characterized by two mutually contradictory stereotypes. On the one hand, they have been portrayed as a powerful lobby, growing demographically and able to demand large redistributions of the nation's income in their direction. On the other hand, they have been typified as a marginalized group at high risk of poverty and exclusion and in a political context largely powerless. This book examines, using original research conducted by the Older People and Politics Project (OPPOL) within Exeter University's Sociology Department, the reality of the impact of the increasing number of older people on the British political process. The project had three main investigative concerns: how effective are pressure groups and lobbyists for older people; how is the power and influence of older people perceived by older people themselves and the general public; and how are politicians responding to older people and their needs.

*The New Politics of Old Age Policy* Robert B. Hudson, 2014-09-22 Scholars, students, and policymakers will appreciate the volume's timely overview of the evolution of aging policy.

**Old Age Pensions and Policy-Making in Canada** K. Bryden, 1974-05-01 Revised thesis comprising a case study of the old age benefit programme in Canada to illustrate the political aspects and social policy decision-making processes of income redistribution, includes references and statistical tables.

**Aging Public Policy** Theodore H. Hoff, Richard W. Park, 2016-12-05 *Aging Public Policy: Bonding the Generations* is presented in three parts. Part One describes the policy process as a response to human needs through the laws of our country. Part Two explores the national policy development on behalf of older persons. Part Three describes the major public policies on behalf of the elderly that include Social Security, Medicare, The Older Americans Act, institutional care, employment, and retirement policies. The final chapter discusses the advocacy process in the field of aging.

*Gerontological Social Work Practice in the Community* George S. Getzel, M. Joanna Mellor, 1985 Here is an extremely useful book, one which will help social workers understand the needs of special populations of older people, the nature of practices in the community, and some of the policy and practice.

issues which they confront in their work      **Culture and Politics in the Information Age** Frank Webster,2001 This volume addresses these key issues through an analysis of important theoretical debates on issues such as digital democracy cultural politics and transnational communities Featuring contributors from both sides of the Atlantic the book contains a series of case studies on new social movements including campaigns on the environment gender animal rights and human rights It combines cutting edge research with theoretical material and makes an important contribution to this highly topical and rapidly growing area This book will be invaluable reading for students in areas including Politics Communications and IT Sociology and Cultural Studies      **Political Simulation in the Age of AI** Robert Beisler,2024-08-19 In the age of artificial intelligence political decision making processes are facing an unprecedented transformation Policy simulations once used as tools for education and strategy development have evolved into powerful tools that have the potential to profoundly influence realpolitik But while these technologies offer new ways of analysing and forecasting they also raise pressing questions Can simulations truly capture the complexity of real world politics What influence do they have on democratic decision making And above all do they pose a threat to democracy In this book the author sheds light on the fascinating but also worrying development of political simulations in the context of artificial intelligence With a critical eye he examines how these technologies could simplify political processes favour technocratic solutions and place power in the hands of a small group of experts In doing so he highlights the risks for transparency citizen participation and ultimately for democracy itself Political simulation in the age of AI a threat to democracy is a work for anyone who wants to understand and help shape the future of politics It analyses the opportunities and risks associated with the integration of AI into political processes and calls for the responsible use of these technologies in order to preserve democratic values      The Media and Political Process P. Eric Louw,2005-05-20 The Media and Political Process examines the increasingly topical subject of the political process and assesses The nature of the relationship between mass media and the political process The impact of media ization on existing political frameworks The implications of media ized politics Eric Louw uses a number of case studies including political celebrity war and terrorism to provide a media studies perspective on how media workers journalists public affairs officers spin doctors impact upon the political process The book also considers the media s role in promoting a range of twentieth century ideologies and emerging dominant discourses      *Compromise in an Age of Party Polarization* Jennifer Wolak,2020-06-04 In *Compromise in an Age of Party Polarization* Jennifer Wolak challenges conventional wisdom and argues that Americans value compromise as a way to resolve differences in times of partisan division Using evidence from a variety of surveys and innovative experiments she demonstrates that citizens want more from politics than just ideological representation they also care about the processes by which disagreements are settled This book stands as an important first step toward trying to reducing the extreme polarization that plagues our politics      World Politics Simulations in a Global Information Age Hemda Ben-Yehuda,Luba Levin-Banchik,Chanan Naveh,2015-10-13 An invaluable guide to creating
