The Aims Of Representation Subject Text History:

The Aims of Representation Murray Krieger, 1987-03-02 Writing the Social Text Richard Brown, 2017-07-05 During the past decade it has become commonplace to interpret social and cultural reality the very groundwork of the social sciences as linguistic constructions Not only is society viewed as a text but scientific texts themselves are seen as rhetorical constructions This collection of scholarly essays begins with an overview of this emerging field and covers the specific stylistic practices by which social scientists create objective or true representations of society The volume closes with a consideration of the more telling challenges to the rhetorics of the social sciences and how these might be encompassed or overcome

The Past as Text Gabrielle M. Spiegel, 1999-11-08 This study of familiar medieval histories and chronicles argues that the historian should be aware of the discursive nature literary modes and ideological investments of such texts as well as the social circumstances to which they were applied and by which they were generated Postmodernism has challenged historians to look at historical texts in a new way and to be skeptical of the claim that one can confidently retrieve fact from historical writings In *The Past as Text* historian Gabrielle M Spiegel sets out to read medieval histories and chronicles in light of the critical theoretical problems raised by postmodernism At the same time she urges a method of analysis that enables the reader to recognize these texts simultaneously as artifice and as works deeply embedded in a historically determinate knowable social world Beginning with a theoretical basis for the study of medieval historiography Spiegel demonstrates her theory in practice offering readings of medieval histories and chronicles as literary social and political constructions The study insightfully concludes that historians should be equally aware of the discursive nature literary modes and ideological investments of such texts and the social circumstances to which they were applied and by which they were generated Arguing for the social logic of the text Spiegel provides historians with a way to retrieve the social significance and conceptual claims produced by these medieval or any historical writings

Murder by Accident Jody Enders, 2009-08-01 Over fifty years ago it became unfashionable even forbidden for students of literature to talk about an author's intentions for a given work In Murder by Accident Jody Enders boldly resurrects the long disgraced concept of intentionality especially as it relates to the theater Drawing on four fascinating medieval events in which a theatrical performance precipitated deadly consequences Enders contends that the marginalization of intention in critical discourse is a mirror for the marginalization and misunderstanding of theater Murder
