**Albatross** Graham Barwell,2013-10-15 At length did cross an Albatross Through the fog it came As if it had been a Christian soul We hailed it in God s name The introduction of the albatross in Samuel Taylor Coleridge s *The Rime of the Ancient Mariner* remains one of the most well known references to this majestic seabird in Western culture In *Albatross* Graham Barwell goes beyond Coleridge to examine the role the bird plays in the lives of a wide variety of peoples and societies from the early views of north Atlantic mariners to modern encounters by writers artists and filmmakers Exploring how the bird has been celebrated in proverbs folk stories art and ceremonies Barwell shows how people marvel at the way the albatross soars through the air covering awe inspiring distances with little effort thanks to its impressive wingspan He surveys the many approaches people have taken to thinking about the albatross over the past two hundred years from those who devoted their lives to these birds to those who hunted them for food and sport and discusses its place in the human imagination Concluding with a reflection on the bird s changing significance in the modern world Barwell considers threats to its continued existence and its prospects for the future With one hundred illustrations from nature film and popular culture *Albatross* is an absorbing look at these beautiful birds

**Rewriting God** Elaine Lindsay,2021-11-22 Women are rarely if ever mentioned in commentaries upon Australian Christianity and spirituality Only exceptional women are recognized as authorities on religious matters Why is this so Does it matter Don t people from the same religious tradition share similar experiences of the divine regardless of their gender *Rewriting God* asks whether women have been writing about the divine and whether their insights are different from those contained in malestream accounts of Australian Christianity and spirituality An analysis of the writings of popular theologians and religious commentators over the last twenty years suggests that the most popular form of spirituality among Australian theologians is Desert Spirituality An analysis of women s autobiographical writings however suggests that the desert is irrelevant to many women s spiritual experiences This book through a close investigation of the fictions of Thea Astley Elizabeth Jolley and Barbara Hanrahan attempts to posit alternative forms of women s spirituality and to signal ways in which this spirituality is already being expressed From the evidence gathered here it becomes obvious that traditional expressions of Australian Christianity and spirituality are gender specific and that they have functioned to deny women s religious experiences and to silence their claims to equality in the sight and service of the divine It becomes obvious too that women have been developing their own forms of religious expression and that these may be expected to supplant gradually withering images of Desert Spirituality Whether this new imagery will strengthen Australian Christianity or whether it merely marks a decline in the authority of Christianity remains a moot point

**Transnational Jean Rhys** Juliana Lopoukhine,Frédéric Regard,Kerry-Jane Wallart,2020-12-10 This volume investigates the frameworks that can be applied to reading Caribbean author Jean Rhys While *Wide Sargasso Sea* famously displays overt forms of literary influences Jean Rhys s entire oeuvre is so fraught with connections to other texts and textual

practices across geographical boundaries that her classification as a cosmopolitan modernist writer is due for reassessment Transnational Jean Rhys argues against the relative isolationism that is sometimes associated with Rhys's writing by demonstrating both how she was influenced by a wide range of foreign especially French authors and how her influence was in turn disseminated in myriad directions Including an interview with Black Atlantic novelist Caryl Phillips this collection charts new territories in the influences on of an author known for her dislike of literary coteries but whose literary communality has been underestimated

**Horrifying Sex** Ruth Bienstock Anolik, 2007-07-16 The Gothic moment in literary history arose in the age of the Enlightenment and the Gothic fascination with the unknown reflects the Enlightenment's response to the limits of reason Traditionally the emblem of the unknown that lurks in the Gothic is the supernatural the monstrous and the inhuman Often overlooked is the observation that Gothic texts are also haunted by figures that represent the mystery of sexuality This collection of essays sharpens that observation and asserts that Gothic anxieties about sexuality are likewise rooted in fear of the unknown represented by sexual practices and desires that either lie hidden or deviate from cultural norms The first three sections refer to popular as well as marginalized Gothic texts to portray the three prototypes of sexual deviance the female sexual Other in *The Fatal Woman* the male sexual Other in *The Satanic Male* and the homosexual Other in *Homosexual Horror* The fourth section covers literary works that celebrate sexual difference and question the idea that the sexually deviant is socially Other
