Women Pioneers of Medical Research King-Thom Chung,2014-12-24 While most laymen could recognize Florence Nightingale as the founder of modern nursing it s doubtful they could likewise identify Louise Pearce as one of the primary researchers in the cure for African Sleeping Sickness or Anna W Williams as the discoverer of the diphtheria antitoxin This book profiles 25 women who have made significant contributions to medical research including Lady Mary Wortley Montagu Lydia Folger Fowler Virginia Apgar and Rosalind Franklin among others Each profile includes a general introduction and covers the woman s childhood or family background her formal education her most valuable contributions to the field and the important events or persons which influenced her life and career **Hearings, Reports and Prints of the Senate Select**

Committee on Small Business United States. Congress. Senate. Select Committee on Small Business,1967 **Rachel Carson** Mary Ellen Snodgrass,2021-03-16 Rachel Carson was a marine biologist credited with the founding of the ecology movement and the rise in ecofeminism One of her most popular works was Silent Spring which challenged the use of DDT an insecticide infamous for its negative environmental effects and questioned the claims of modern industry Carson also wrote essays reviews articles and speeches to educate the public about the impacts of chemical pollutants on both the environment and the human body This literary companion provides readers with Carson s key messages via an A to Z index of topics discussed in her works including carcinogens endangered species and radioactivity Aquillrelle - Anthology 100, Book One

Aquillrelle,2011-02-06 The winners of Aquillrelle s first Publishing Contest are all included in this book Oh the beauty of this child birthed by the marriage of professional and aspiring voices each voice limited in its expression by nothing but personal talent avidity of word and poetry of heart Centers of the Cancer Universe Donald L. Trump,Eric T. Rosenthal,2021-10-11 A 2022 Choice Reviews Outstanding Academic Title An important history of the development of cancer centers of excellence and the revolution in cancer treatment In the 1960s a coalition of concerned citizens scientists and politicians joined forces to convince the federal government to focus its efforts on conquering cancer The National Cancer Act of 1971 resulted and was signed into law on December 23 1971 by President Nixon The national War on Cancer was declared with some leaders naively arguing that the disease would be conquered by the nation s bicentennial a mere five years in the future Over the next five decades scientific discoveries demonstrated the great complexity of what had formerly been thought of as a single disease with the advent of the genetic characterization of cancers it is now recognized that there are almost an infinite

number of cancers as defined by their many genetic mutations The National Cancer Act established the infrastructure for the designation of centers by the National Cancer Institute NCI and these centers have evolved into models of multidisciplinary collaborative cancer research treatment and prevention contributing to a reduction in cancer mortality and increase in quality of life and survival that has translated into more than 17 million cancer survivors in the United States in 2021 Centers of the Cancer Universe A Half Century of Progress Against Cancer tells the story of how cancer research was not front and center at most universities and research institutions before the National Cancer Act of 1971 and why many physicians were reluctant even to treat patients with cancer in the early 20th century It follows the behind the scenes lobbying resistance and negotiating that preceded signing the Act into law and how the cancer centers of today came to fruition and shaped how cancer research clinical trials and treatment would be conducted
