Ryan,1996 One fourth of the Jews living in France once considered an asylum for the politically dispossessed were identified rounded up and deported to the death camps of eastern Europe during World War II In this carefully documented gripping account of the treatment and fate of French and foreign Jews in Marseille Donna Ryan explores the extent to which the Vichy government participated in the German plans to exterminate them Marseille was a major French city in the Vichy Zone that had a large Jewish population the Italians who sometimes thwarted French administrators never occupied Marseille and it was a regional office of the Commissariat General aux Questions Juives and the Union Generale des Israelites de France which could provide documentation

Evading International Norms Zoltán Búzás,2021-01-01 How do states violate human rights norms after legalization Why are these violations so persistent What are the limits of legalization for protecting human rights norms Conventional wisdom offers a variety of answers to these questions but most often they conflate laws and norms and focus only on state actions that violate both While this focus is undoubtedly valuable it does not capture cases in which states violate human rights norms without technically violating the law Norm breakers are not necessarily lawbreakers Focusing exclusively on norm violations that are illegal obscures the possibility that agents could violate norms in a legal manner engaging in actions that are awful but lawful Presenting rich case studies of the French expulsion of Roma immigrants from 2007 to 2017 and the Czech segregation of Roma children in schools for those with mild mental disabilities between 1993 and 2017 Evading International Norms argues that the violation of human rights norms often continues after legalization under the cover of technical legality While laws and norms overlap interact and shape each other in many ways they tend to reflect each other only selectively which leads to the existence of norm law gaps Taking advantage of such gaps states resist unwanted human rights obligations by transgressing international human rights norms without violating the laws designed to protect them a process Zoltán Búzás names norm evasion Based on a wealth of evidence including more than 160 interviews the book shows that the treatment of the Roma by France and the Czech Republic violated the norm of racial equality in a

technically legal fashion B z s cautions that the good news about law compliance is not necessarily good news about norm compliance and draws attention to racial discrimination against the Roma one of the largest and most marginalized European minorities The Athenaeum ,1886 *Les Napoleons, Or, The Present and Future Glories of France* William Joseph Battersby,1857 **Citizens' Rights and the Right to Be a Citizen** Ernst Hirsch Ballin,2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century The traditional view that each state has the sovereign power to give or withhold citizenship puts the full enjoyment of human rights at risk whenever exclusion is based on differences in nationality Citizens rights are the essential connecting link between human rights and life in a democratic society Citizens have an individual right as a citizen to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home By recognizing everyone s right to the citizenship of the state in which they can make these rights a reality citizens rights can bridge the gap between the universality of human rights and the changing political and social settings of people s lives Limits on dual citizenship are counterproductive European citizenship paves the way for transnational citizenship Hirsch Ballin s book is very important for academics and practitioners in the field of citizenship It embraces the complexity of citizenship with all its academic practical and emotional meanings Hopefully Hirsch Ballin s work can serve as a compass for new directions in immigration and naturalisation debates Katja Swider in *Journal of European Integration* Vol 38 nr 4 2016
