Headquarters Directory United States. National Aeronautics and Space Administration, 1988 **Black Cultural Capital** Vanessa Garry, E. Paulette Isaac-Savage, Sha-Lai L. Williams, 2023-09-01 In antebellum America Black children even those of tax paying Blacks in most states could not attend White public schools or in some states any schools Nevertheless with the signing of the Emancipation Proclamation in 1863 Blacks assumed they would receive all inalienable rights granted to them as American freedmen For most the right to a proper public education for their children was paramount Nevertheless White

educators often neglected or poorly implemented Black schools especially secondary schools With their reluctance to provide schools for Blacks African American communities organized and petitioned school districts to develop Black schools on par with those for Whites In the book *Black Cultural Capital Activism that Spurred African American High Schools* authors describe the role of the Black community in the development of high schools Their narratives reveal White educators unwillingness to implement state laws requiring the education of all children Their lack of engagement galvanized Blacks to petition boards to adhere to the law Additionally they forced school districts to hire Black teachers and provide facilities for Black children equal to those of White children The fruits of their labor enabled Black children to attend suitable facilities as well as learn from Black teachers who attended outstanding White and Black colleges and universities Furthermore stories of the high schools illustrate how communities sprouted up around them during their heydays as well as for some their demise as laws and court decisions eradicated Jim Crow and enabled all Americans to live and learn where they desired

ENDORSEMENTS Throughout America the freedom dreams of Black people and the intellectual currents that guided them were first unleashed within one room schoolhouses dilapidated shacks and church basements that were converted into laboratories of discovery and dissent In short Black spaces matter and have always mattered in the struggle for Black liberation The authors of *Black Cultural Capital* have delivered one of the most comprehensive collection of essays to date that highlight the monumental legacy and rich history of America s first Black high schools Utilizing a vast array of sources the authors have created an intimate portrait of the struggle to carve out historic spaces that educated and affirmed Black youth while simultaneously countering pernicious systems of white supremacy that sought to undermine them at every step This volume of essays is a must have for any serious scholar or student of the Black freedom struggle in America Jelani M Favors North Carolina A T State University This is a long awaited quintessential contribution to our still incomplete knowledge and understanding of the unique but intertwined histories of Black education and secondary schools in the United States The narratives are incisive enlightening and inspiring A welcome advancement to the historical foundations of education Tondra L Loder Jackson The University of Alabama at Birmingham At a time when there is a deservingly greater appreciation for historically Black colleges and universities HBCUs we must also remember that K 12 Black high schools played a pivotal role in anchoring communities and creating a sense of place and freedom for Black people In this edited book *Black Cultural Capital Activism that Spurred African American High Schools* Drs Vanessa B Garry E Paulette Isaac Savage and Sha Lai L Williams produced a timely and much needed book about the significant role Black high schools have historically and continue to play in Black communities and the Black freedom struggle With detailed historical case studies of Black high schools throughout the United States the various authors illuminate how these schools served as pillars in Black communities Jerome Morris The University of Missouri St Louis *Directory United States.
