

THE KREMLIN CONTRACT

JAMES BARWICK

'Scores high marks for plenty of action, agile plotting
and a finely tuned cast of characters'

BOOKLIST

The Kremlin Contract

N. C. Weyl

The Kremlin Contract:

The Kremlin Contract James Barwick, Donald James, 1987 [The Kremlin Contract](#) James Barwick, 1987 *The Kremlin Playbook* Heather A. Conley, James Mina, Ruslan Stefanov, Martin Vladimirov, 2016-10-27 Russia has cultivated an opaque web of economic and political patronage across the Central and Eastern European region that the Kremlin uses to influence and direct decisionmaking This report from the CSIS Europe Program in partnership with the Bulgarian Center for the Study of Democracy is the result of a 16 month study on the nature of Russian influence in five case countries Hungary Slovakia Bulgaria Latvia and Serbia **The Kremlin and the High Command** Dale R. Herspring, 2024-07-16 Throughout its existence the Red Army was viewed as a formidable threat By the end of the Cold War however it had become the weakest link in the Soviet Union's power structure Always subordinate to the Communist Party the military in 1991 suddenly found itself answering instead to the president of a democratic state Dale Herspring closely examines how that relationship influenced the military's viability in the new Russian Federation Herspring's book is the first to assess the relationship between the Russian military and the political leadership under Presidents Mikhail Gorbachev Boris Yeltsin and Vladimir Putin He depicts an outmoded and demoralized military force still struggling to free itself from Cold War paradigms while failing to confront not only debacles in Afghanistan and Chechnya but also a rise in crime and corruption within the ranks He reveals how Gorbachev neglected the military to save Russia from internal collapse and Yeltsin reneged on continuing promises of support And while Putin claims a better understanding of the armed forces he has severely tightened his control over the military while monitoring its struggle toward modernization Herspring argues that presidential leadership or a significant lack thereof has been the key variable determining the kind of military Russia puts in the field It has been up to the president to ensure that the high command makes a successful transition to the new polity otherwise combat readiness will decline and generals and admirals could become politicized By focusing on how the high command has reacted to each president's decisions and leadership style Herspring shows that in spite of the continued importance of the military's bureaucratic structure personality factors have assumed a much more important role than in the past **The Kremlin and the High Command** provides the most complete analysis to date of the Russian president's influence on the Russian officer corps the soldiers they lead and their army's combat readiness Shedding light on the chaos that has plagued the USSR and Russia over the past 25 years it also suggests how the often fraught relationship between the president and the high command must evolve if the Russian Federation is to evolve into a truly democratic nation **Rockin' the Kremlin** David Junk, 2024-07-02 Read the true story of Universal Music Russia's first CEO and his quest to bring Western popular music to post Soviet Russia in an account that Publishers Weekly calls an exciting and colorful look at a dynamic period in Russia's cultural history and Library Journal calls an absorbing illustration of the mutuality of music and politics When the Soviet Union collapsed in 1991 Russia opened its borders and Russian audiences were hungry for Western popular music and the values it espoused David

Junk was one of the first idealistic young Americans to seize this opportunity. Rockin the Kremlin is the thrilling true story of how David became the first CEO of Universal Music Russia and built impactful cultural bridges with music but also how that would all shatter with the rise of Vladimir Putin and invasions of Ukraine. There was no proper music industry in the USSR and creating a modern music industry in Russia would be far more challenging than anyone had anticipated. David assembled a team of young and talented Russians and they navigated a terrain filled with political chaos, organized crime, powerful oligarchs, bombings and violence with cultural clashes tinting many aspects. They captivated millions by bringing superstar acts to Russia for the first time ever including Metallica, Mariah Carey, Sting, Eminem and Enrique Iglesias while developing local talent such as Alsou and t A T u, Russia's greatest selling pop act of all time. Eventually David would even build a music industry in Ukraine and other countries in Eastern Europe. While Russia's descent into authoritarianism and two invasions of Ukraine have tarnished this the industry that David shepherded has birthed a newer generation of Russian musicians who are speaking out against the war and Putin. Filled with unique insights as well as gripping and sometimes humorous stories, this book reveals how it all happened.

The Kremlin Playbook 2 Heather A. Conley, Ruslan Stefanov, Donatienne Ruy, Martin Vladimirov, 2019-05-01. In *The Kremlin Playbook 2: The Enablers*, the CSIS Europe Program and the Center for the Study of Democracy explored whether some of these jurisdictions and companies could be enabling forces that amplify Russian malign economic influence in some countries in Europe. The study analyzed the following case study countries: Austria, Czech Republic, Italy, Montenegro, the Netherlands, and Romania. The report shows that some countries facilitate or enable Russian malign economic influence and by doing so, these enablers actively participate in the weakening and discrediting of their own democratic structures. *The Kremlin Playbook 2* concludes that Russian malign economic influence and illicit finance operate in a financial gray zone that is a clear and present danger to U.S. national security as well as transatlantic security. To push back against this threat, the United States and its European allies must take decisive action to limit Russia's malign behavior in their financial systems. Only transparency and enforcement of our rule of law can guarantee trust in the system and rebuild confidence in democratic institutions.

The Kremlin's Noose Amy Knight, 2024-05-15. In *The Kremlin's Noose*, Amy Knight tells the riveting story of Vladimir Putin and the oligarch Boris Berezovsky who forged a relationship in the early years of the Yeltsin era. Berezovsky later played a crucial role in Putin's rise to the Russian presidency in March 2000. When Putin began dismantling Boris Yeltsin's democratic reforms, Berezovsky came into conflict with the new Russian leader by reproaching him publicly. Their relationship quickly disintegrated into a bitter feud played out against the backdrop of billion-dollar financial deals, Kremlin fighting, and international politics. Dubbed the Godfather of the Kremlin by the slain Russian American journalist Paul Klebnikov, Berezovsky was a successful businessman and media mogul who had an outsized role in Russia after 1991. Worth a reported 3 billion by 1997, Berezovsky engineered the reelection of Yeltsin as president in 1996 and negotiated an end to the 1995-96 Chechen war. Despite his own wealth, power, and influence, once he became Putin's

enemy Berezovsky was forced into exile in Britain where he waged a determined campaign to topple Putin Kremlin authorities responded with bogus criminal charges and demanded Berezovsky's extradition. Death threats soon followed. In March 2013, after losing a British court battle with another Russian oligarch, Berezovsky was found dead at his ex-wife's mansion outside London. Whether he died from suicide or murder remains a mystery. The Kremlin's Noose sheds crucial new light on the Kremlin's volatile politics under Yeltsin and Putin, helping us understand why democracy in Russia failed so badly. Knight provides a fascinating narrative of Putin's rise to power and his authoritarian rule told through the prism of his relationship with Russia's once most powerful oligarch, Boris Berezovsky. *Russia, the EU, and the Eastern Partnership* Vasile Rotaru, 2018-07-31. Even before the Ukrainian crisis, neither Russia nor the EU were content with their relationship. Despite economic interdependence, strategic partnership, official declarations of belonging culturally and historically to the same European family, and in spite of Russia's stated interest in establishing an economic community stretching from Lisbon to Vladivostok, the two actors found it difficult to agree on important issues. The conflictual atmosphere between the EU and Russia has three main dimensions: the normative issue, energy relations, and the shared neighbourhood, with the latter being particularly salient after the launch of the Eastern Partnership (EaP) in 2009. The former Soviet space is at the core of Russian foreign policy. Moscow's special interest in this area results from economic factors, diaspora issues, and most importantly from its perceived security need. Obsessed by a fear of being encircled by enemies, Russia sees its hegemony over the former Soviet republics as paramount to the protection of its own borders. Therefore, the rapprochement of any other actor towards this region is regarded with high suspicion. Against this background, Vasile Rotaru analyzes EU-Russia relations with a particular emphasis on the impact of the EaP on Moscow's relations with Brussels. He argues that the EaP represented a turning point in EU-Russia relations, determining Moscow to revise its attitude towards the Union. Rotaru explains that even if the EaP was Brussels' initiative, the Partnership met the aspirations of the six former Soviet republics. Moreover, despite its opposition towards the EU's initiative, Russia itself acted involuntarily as a propeller of the EaP. By aiming to keep the former Soviet republics close, Moscow often conducts an assertive, aggressive policy in the near abroad. This strategy, however, had mostly opposite effects, causing Russia's neighbors to look elsewhere for support of their sovereignty. From this perspective, the rapprochement of Moldova, Belarus, Ukraine, and the three Caucasus republics with the EU has not been determined only by Brussels' prosperity and soft power attractiveness but also by existential fears in the former Soviet republics. The book appeals to a wide range of students, researchers, and professors specializing on Russia, the EU, and the former Soviet space in the fields of International Relations, Foreign Policy Analysis, and Security Studies, as well as to think tank analysts and policy makers.

The Kremlin Contract N. C. Weyl, 1989-05-01. For the new President of the United States, the secret summit to negotiate the end of world terrorism was the fulfillment of a dream. But for the KGB, it could destroy five years of planned disasters throughout the Third World. There was only one way to prevent the summit: kill the Chief Executive. Rebel Russia

Anna Arutunyan, 2025-05-14 Navalny Lenin Pugachev The Russian rebel in his epic battle against the Leviathan of the Russian state has enthralled readers and writers for decades The rebel s story is almost always a sad one that ends in exile imprisonment or martyrdom leaving but a seed for the future reform of the Leviathan which he or she had taken on Why do revolts from the Decembrist uprising to the Snow Revolution that brought Alexei Navalny to the forefront of contemporary Russian politics seem to end up failing or producing an even worse form of despotism In reality the brave words and deeds of dissidents have shaped the course of Russian history more often than we might think Through the stories of prominent rebels from the time of Ivan the Terrible to the present day as well as her own experiences reporting on her country s descent into authoritarianism Russian American journalist Anna Arutunyan explores how the rebel and the Tsar defined each other through a centuries long dance of dissent and repression These characters and their lives not only reveal the true nature of the Russian state they also offer hope for a future Russian democracy

Unveiling the Magic of Words: A Overview of "**The Kremlin Contract**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring.
