There is an Affirmation Crisis It is the result of fatherlessness Generations have grown up without a father Whether physically or emotionally absent it leaves in the child a wound of absence Fatherlessness has become a major social problem in America even an epidemic with approximately 50% of children under the age of 18 not living in the same home as their biological father It has been documented in many ways and yet it is a secret hidden in plain view Over the last fifty years the family has been under attack Concepts and opinions concerning the family have changed and a new perception of family has emerged Much of the destruction of the family has been popularized and normalized through the media and arts and entertainment The large percentage of marriages that end in divorce and the increasing trend of out of wedlock births seems to have contributed to a widespread belief that being a single parent is somehow a noble venture and that the father is unimportant to raising children There are indeed many exceptional single parents But these are the exceptions to the rule as statistics prove It is as if there were a systematic scheme in the works to destroy our society by using progressive cultural engineering The influence of popular approaches to the family in the media that rejects traditional and biblical norms of family construction is creating a confused depressed and fractured population Men and women with a confused self identity and self confidence are the product of this fatherlessness epidemic and this affirmation crisis Today after over a hundred years of cultural fatherlessness we have seen multiple generations who have grown up without the father's emotional and often physical influence and support Combine that with two world wars economic challenges media influence rising divorce rates sexual identity conflict and you are left with a generation of wandering fatherless children Many of these fatherless children are wounded adults who continue to live their lives not knowing that they are suffering from the wound of absence referred to as the father wound The father wound in short is the absence of the emotional blessing that only the father can provide to the child One of the major responsibilities of the father is the modeling and impartation of true fatherhood A father is the God given instrument that identifies the child as well as gives the child a sense of self and self confidence This is true for both men and women Every young man is waiting for his father to tell him he has what it takes Every young woman is waiting for a father to show her that she is beautiful and worthy to be pursued and protected Every young man looks to his father for

affirmation and identity Every young girl is looking to the father for her identity and affirmation as a woman The father identifies the child The father calls forth the masculine in the son and the femininity of the daughter Without this essential input from Dad the boy struggles to see himself as a man and the girl struggles to identify as a woman Their spirit cries out for a father to save them Our fathers have a special role to play in our discovery of who we are in life This is why a father telling his child a statement like You ll never amount to anything has such a devastating effect On the other hand a father who lovingly affirms his child is giving him a solid foundation towards developing into a healthy well adjusted adult In *The Affirmation Crisis* Pastor Teacher and Missionary Randy Hix details the serious impact this fatherlessness epidemic is having on our society and individuals Randy explains our Heavenly Father s original plan for the family and how to receive the needed affirmation and healing needed to mend the wounded heart *The Affirmation* Christopher Priest,2011-10-13 Peter Sinclair is tormented by bereavement and failure In an attempt to conjure some meaning from his life he embarks on an autobiography but he finds himself writing the story of another man in another imagined world whose insidious attraction draws him even further in *THE AFFIRMATION* is at once an original thriller and a haunting study of schizophrenia it has a compulsive dream like quality **The Affirmations of Reason** Sigurd Baark,2018-01-08 This book examines the speculative core of Karl Barth s theology reconsidering the relationship between theory and practice in Barth s thinking A consequence of this reconsideration is the recognition that Barth s own account of his theological development is largely correct Sigurd Baark draws heavily on the philosophical tradition of German Idealism arguing that an important part of what makes Barth a speculative theologian is the way his thinking is informed by the nexus of self consciousness reason and freedom which was most fully developed by Kant Fichte and Hegel The book provides a new interpretation of Barth s theology and shows how a speculative understanding of theology is useful in today s intellectual climate *Nietzsche and Philosophy* Gilles Deleuze,2006-05-10 Presents important accounts of Nietzsche s philosophy The author shows how Nietzsche began a new way of thinking which breaks with the dialectic as a method and escapes the confines of philosophy itself Reiki Energetics John Kroneck,2012-01-25 Not only a Reiki manual Reiki Energetics includes principles tools and insights regarding a model of energetic healing Reiki translating to higher life energy is a beautiful high frequency of natural energy that an individual may learn to use to facilitate his or her self healing and personal growth We may also use this elegant energy with others to assist with their health and wellness The Reiki energy is simple to administer yet can have profound influences on ones health status This book pulls together dynamics of energy systems psychology conscious awareness and personal growth creating a powerful and unique holistic approach to self healing and wellness In addition to self healing tools people taking classes with author John Kroneck learn how to work with clients to empower the clients to work with their own healing processes Further considering healing approaches used under the names of energy psychology and energy medicine it is clear that energy healing can be used effectively with other healing modalities Inclusive of Reiki

Energetics however is the recognition that energy healing or healing energetics is its own field with specific skill sets and healing processes This is a new approach to health care that acknowledges and empowers our role in our health care experiences The study of Reiki is a cornerstone in evolving this new field of healing energetics Again the Reiki approach is simple to administer Yet as with any work of significant spiritual significance its depth and breadth of possibilities are without measure

The Formula For Happiness Douglas R. Ramm, 2011-06-02 The Formula for Happiness is a self help book which popularizes cutting edge discoveries made by a board certified clinical psychologist about the nature of happiness and the behaviors and beliefs which enable people to become and remain happy His groundbreaking way of understanding life and how to live has attracted worldwide attention since it was originally introduced to the scientific community in New Ideas in Psychology an international journal of innovative theory in psychology in 1996 This is a peer reviewed journal produced by the world's largest publisher of original scientific work and overseen by an editorial board consisting of faculty from departments of psychology in several of the world's leading universities The Formula for Happiness presents this paradigm for the pursuit of happiness in a format which is entertaining and easily understood It familiarizes readers with what they need to become and remain happy and how to proceed with their personal pursuit of happiness Readers are provided with an objective means of measuring current levels of happiness as well as methods for increasing happiness and forecasting the effect potential courses of action are likely to have on their happiness at some future point in time The Formula for Happiness is the product of an innovative approach to the study of happiness which incorporates and surpasses research currently going on in the field of positive psychology in a number of important ways It is based on generalizations emerging from the review of massive amounts of positive psychology research integrated with insights into the nature of happiness emerging from the fields of clinical and developmental psychology It provides a comprehensive and coherent set of propositions about the nature of happiness which is different from anything available elsewhere in scientific and self help literature today The Formula for Happiness is the first solidly scientifically based self help book to assert that happiness is primarily a matter of how people are situated with respect to the circumstances of their lives Beyond making this assertion it actually specifies exactly which circumstances make a difference in the quality of human life It precisely identifies what we require in order to become and remain happy The Formula for Happiness is also the first solidly scientifically based self help book to assert that happiness is a matter of choice In addition to advancing this proposition it provides readers with the only set of scientifically formulated guidelines for making choices which have happiness as their effect It is the first book to present a set of principles for the pursuit of happiness which like the principles of nutrition and health are the product of scientific reasoning and research In showing readers how happiness is mainly a matter of circumstances and that circumstances are largely a matter of choice The Formula for Happiness provides a new and much needed counterpoint to most of the thinking within psychology as well as much of what is available on the self help market

today Instead of promoting the notion that happiness is a matter of what we think how we perceive or how we interpret things The Formula for Happiness shows readers how quality of life is a matter of the way things really are and what we actually do It is the first self help book to provide a blueprint for constructing a durable high quality life In addition to presenting a pioneering paradigm for the pursuit of happiness The Formula for Happiness contains a set of newly developed psychometric instruments Readers can use these instruments to measure happiness to develop goals for personal strategic planning and to make momentous decisions such as what to major in at college which career to pursue whether to take a particular job whether to remain in a romantic relationship whether to g

Meditation, Prayer & Affirmations Edgar Cayce,2010 Perhaps more than any other advice offered in the Edgar Cayce readings meditation prayer and the use of spiritual affirmations were given as tools for personal attunement and enlightenment The Cayce readings were one of the first sources in the Western hemisphere to consistently recommend meditation to individuals from every religious background The Cayce readings on prayer advance the ecumenical Oneness nature of prayer and discuss the workings and vibrations of this integral tool for personal attunement and spiritual healing The Cayce readings frequently extol the extraordinary power of affirmations with the philosophy that mind as the builder and the premise that personal co creation is empowered by that which the mind dwells upon In other words what one continues to think one eventually becomes
