The African Husbandman:

The African Husbandman William Allan, 2004 The African Husbandman helped a generation of scholars and officials to appreciate that Africans agricultural practices were both more complex and more malleable than was often thought Allan's work also pioneered research methods that wedded ethnographic and ecological fieldwork in ways that demonstrated the inextricable links between social arrangements environmental conditions and land use patterns If certain facets of Allan's analysis have now come under scrutiny his general tenet that to improve agricultural prospects in Africa one first has to understand it from the cultivators point of view has only been strengthened with time As long as there are individuals struggling to make sense of African agricultural productivity *The African Husbandman* will remain a classic

The African Husbandman William Allan, 1967 **The African Husbandman** William Allan, 1965 *The African Husbandman. [With Plates Maps and a Bibliography].* William Allan (Director of Agriculture, Mauritius.), 1965 *The African Husbandman* William ALLAN (O.B.E.), 1965 *The African Today* Diedrich Westermann, 2018-09-03 Originally published in 1934 and inevitably a product of the time in which it was published this book nevertheless remains an important volume in African sociology and psychology Topics such as race economics family and kinship tribal organization ritual and the supernatural language and education are discussed in a balanced way especially given the era of publication

Journal of the African Society African Society, 1916 **African-American Social and Political Thought** Howard Brotz, B. William Austin, 2017-07-28 In bringing together the most characteristic and serious writings by black scholars authors journalists and educators from the years that preceded the modern civil rights movement African American Social and Political Thought provides a comprehensive guide to the range and diversity of black thought The volume offers a deep history of how the terms of contemporary debate over the future of black Americans were formed The writings assembled here reveal a tension and a thread between two essential poles of thought These include those voices that clearly projected civic assimilation as the goal of black aspiration and those who described how this aim would be achieved as well as nationalist or separatist voices that despaired of ever having a dignified future in a biracial society These two positions reflect the most fundamental questions faced by any minority group In his forceful and courageous introduction to this new edition Howard Brotz relates the thoughts and reflections of these black thinkers to the social and political situation of blacks in America today and argues against the political orthodoxy and sociological determinism that perpetuates the image of the black as a perennial and passive victim In the scope and quality of its contents African American Social and Political Thought is a unique invaluable source book for cultural historians sociologists and students of black history

Documents of the African Commission on Human and Peoples' Rights - Volume 1, 1987-1998 Rachel Murray, Malcolm Evans, 2001-11-06 Fourteen years since its establishment the work of the African Commission on Human and Peoples Rights has not received the attention that should have been paid to its important contributions towards the promotion and protection of human rights in Africa The aim

of this publication is to provide not only the basic documents but also the less well known material related to the jurisprudence emanating from the consideration of communications This volume therefore includes amongst other material the twelve activity reports adopted by the Commission resolutions and final communiqués from the sessions This is the first attempt to reproduce comprehensively the many documents of the Commission adopted since its inception in 1987 It will be an essential reference for academics students and practitioners The publication is produced in collaboration with the African Society for International and Comparative Law the Centre for Human Rights at the University of Pretoria and Interights in London

Innovation In African Agriculture Arthur J. Dommen,2019-04-10 This book looks at the input output relations of low resource agriculture in Africa and shows how the intensification process through the application of modern technologies can work successfully to raise productivity and to sustain production over the long term

Postcolonial Representation of the African Woman in the Selected Works of Ngugi and Adichie Eren Bolat,2022-03-07 Until the lives and issues of African women arrived on the agenda of postcolonial writers African women who continued their lives under double colonization by patriarchy and dominant powers did not have much standing in literary works and in the world of literature Postcolonial African women have often been represented as weak subaltern and speechless by western writers and have even been underrepresented by some postcolonial writers This book shows how the African woman who is usually represented in clichéd and stereotyped forms is depicted a versatile way in Ngugi and Adichie's novels

Rethinking the African Diaspora Kristin Mann,Edna G. Bay,2001 This work dramatically revises scholarship on the cultural impact of trans Atlantic slavery between Africa and Brazil

Africa as a Living Laboratory Helen Tilley,2011-04-15 Tropical Africa was one of the last regions of the world to experience formal European colonialism a process that coincided with the advent of a range of new scientific specialties and research methods Africa as a Living Laboratory is a far reaching study of the thorny relationship between imperialism and the role of scientific expertise environmental medical racial and anthropological in the colonization of British Africa A key source for Helen Tilley's analysis is the African Research Survey a project undertaken in the 1930s to explore how modern science was being applied to African problems This project both embraced and recommended an interdisciplinary approach to research on Africa that Tilley argues underscored the heterogeneity of African environments and the interrelations among the problems being studied While the aim of British colonialists was unquestionably to transform and modernize Africa their efforts Tilley contends were often unexpectedly subverted by scientific concerns with the local and vernacular Meticulously researched and gracefully argued Africa as a Living Laboratory transforms our understanding of imperial history colonial development and the role science played in both

The African Experience Vincent B. Khapoya,2015-07-14 This book examines the role that Africa has played on the world stage the African Union the African leaders efforts to take care of their own problems and lessen their dependence on the United States and European countries

Visions for an African Valley DR JONATHAN M. JACKSON,2025-03-11 What was the effect of the numerous

albeit often unsatisfied plans for development on the land and communities of the Kilombero valley throughout the colonial period and into the first decades of independence This book traces histories of development in and crucially visions of development for the Kilombero valley of south central Tanzania Taking the notion of development planning as a form of future making the book examines the many visions or past futures projected onto Kilombero by colonial and national governments by international organisations syndicates and individuals It examines how such plans were conceived evaluates their successes and analyses their shortcomings against changing political and economic landscapes Four key themes agricultural intensification ecology control infrastructure and re settlement are shown to persistently surface and continue to shape the valleyscape today By considering past future visions for the reorganisation of rural life in Tanzania the book reveals how even recent initiatives have suffered through their failure to learn from this history Offering fresh insights and approaches to the historiography of development Visions for an African Valley shows Kilombero to be a prism which refracts broader phenomena across more than a century *The Rise and Fall of the South African Peasantry* Colin
