Buckler, Justin Weir, 2025 The Oxford Handbook of the Russian Novel brings together top specialists in Russian literature to treat the Russian novel from the late 18th to the 21st century using a range of interpretive perspectives The Russian novel is a distinctive tradition by virtue of its formal eccentricities as well as the boldness with which these works approached the most complex philosophical political and moral questions This Handbook treats well known works and authors but also explores the much broader tradition of the Russian novel up to the present The essays in the Handbook provide cultural and historical perspectives on the Russian novel as well as showcasing emergent modes of analysis including postcolonialism ecocriticism and posthumanism *Beginning Realism* Steven Earnshaw, 2013-01-18 Realism is an essential concept in literary studies yet for a variety of reasons it has not received the attention and clarity it deserves often being dismissed as too slippery to be of use This accessible study remedies that failing for students and scholars of English Literature and Literary Theory alike plainly setting out what realism is the issues surrounding it and its role in other major literary modes such as modernism and postmodernism *Beginning Realism* gives detailed coverage of the nineteenth century realist novel through its focus on novels by Gaskell Eliot Trollope Dickens Mrs Oliphant Thackeray and Zola As well as discussing the novel the book also includes chapters on the use of realism in drama and poetry and a chapter on the language of realism another aspect often overlooked in analysis of the concept *Religion, Secularism, and the Spiritual Paths of Virginia Woolf* Kristina K. Groover, 2019-12-13 *Religion Secularism and the Spiritual Paths of Virginia Woolf* offers an expansive interdisciplinary study of spirituality in Virginia Woolf's writing drawing on theology psychology geography history gender and sexuality studies and other critical fields The essays in this collection interrogate conventional approaches to the spiritual and to Woolf's work while contributing to a larger critical reappraisal of modernism religion and secularism While Woolf's atheism and her sharp criticism of religion have become critical commonplaces her sometimes withering critique of religion conflicts with what might well be called a religious sensibility in her work The essays collected here take up a

challenge posed by Woolf herself how to understand her persistent use of religious language her representation of deeply mysterious human experiences and her recurrent questions about life's meaning in light of her disparaging attitude toward religion These essays argue that Woolf's writing reframes and reclaims the spiritual in alternate forms she strives to find new language for those numinous experiences that remain after the death of God has been pronounced Readers' Guide to Periodical Literature, 1922 **Walford's Guide to Reference Material** Albert John Walford, Anthony P. Harvey, Laurence John Taylor, H. Drubba, 1980 **Columbia Dictionary of Modern European Literature** Jean Albert Bédé, William Benbow Edgerton, 1980 With more than 1800 critical entries on the writers and literatures of 33 languages this work presents the entire range of modern European writing from the symbolist and modernist works rooted in the last decades of the nineteenth century through the avant garde and existentialist movement to Barthes Blanchot Breton and continental thought pertinent today **British Book News**, 1977 *A Dictionary of European Literature* Laurie Magnus, 1927 **The German Novel in the Twentieth Century** David R. Midgley, 1993 From the demise of realism to the origins and growth of modernism this book examines 20th century German writing It gives an account of developments in narrative technique as German novelists lived through a century of cultural and political change culminating in the Reunification Using selected novels by Fontane Rilke Musil Kafka Hesse Döblin Thomas Mann Günter Grass Uwe Johnson and Christa Wolf the book sets out close studies of the relationship between theme and technique It shows how authors questioned and subverted the conventions of 19th century literary realism yet were still heavily influenced by it Easing the transition of literary criticism from a realist approach to a more modern perception of literature the book also includes a full guide to further reading
