Camaj, 2024-10-08 This book examines the ways in which Albanian men women and families who have migrated from Montenegro and Kosovo to the United States understand and make sense of their mobility and settlement Drawing on empirical research including interview material it goes beyond the experiences of individual migrants to explore the role that cultural identity has in shaping their mobility and immobility with particular attention to the manner in which subjects talk about their experiences in terms of past and present movements and moments An original storytelling study of the meaning scope and outcomes of mobility and the construction of home and identity on the part of migrants this title will appeal to scholars of sociology geography anthropology and politics with interests in migration and diaspora      [The Fall of the Berlin Wall](#) William F. Buckley, Jr., 2008-04-21 Eloquent immensely readable the saga of the victory of capitalism over the brutal and irrational fraud that was state socialism The Baltimore Sun Buckley's lucid account celebrates the tenacity of the human spirit and the will to achieve freedom Publishers Weekly This is a small masterpiece of the narrative tradition The Fall of the Berlin Wall keeps readers turning the page National Review A great narrative of democratic survival and democratic victory The Washington Times The fall of the Berlin Wall in November 1989 was the turning point in the struggle against Communism in Eastern Europe In The Fall of the Berlin Wall renowned author and conservative pioneer William F Buckley Jr explains why the wall was built reveals its devastating impact on the lives of people on both sides and provides a riveting account of the events that led to the wall's destruction and the end of the Cold War      *The Making of Modern Kosovo* Jakup Azemi, 2025-06-26 This book traces the origins and success of Ibrahim Rugova's policy of nonviolence in Kosovo between 1989 1999 and how it laid the framework for the creation of Kosovo's cultural and political identity as an independent state

Ibrahim Rugova has long been neglected in understanding how Kosovo became an independent state with most observers concentrating on the Kosovo Liberation Army and the armed conflict of 1999 in which NATO was involved Jakup Azemi seeks to remedy this arguing that despite the events of 1998-99 local actors and their political organisation mattered much more than is widely recognised Rugova's movement represented a novelty not only for the Albanians but for the whole Balkan region He developed a vision that integrated Albanians cultural and historical experiences into the non violent movement and presented the Kosovan conflict to the world with a different political and cultural lens This is a key text for scholars interested in the history of the Kosovar liberation movement the dissolution of the former Yugoslavia and those looking at current issues in the Western Balkans and the Albanian Kosovar relationship

**The Balkans in Travel Writing** Marija Knežević, 2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region's path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature linguistics history sociology anthropology ethnology political sciences and geography

*Foreign Fighters and Radical Influencers* Asya Metodieva, 2022-12-30 This book looks at Salafi influencers and foreign

fighters in the Balkans to examine how the origins and dynamics of radical milieus are related to the legacy of the Bosnian War and the Kosovo War The work seeks to understand if and in what ways these wars influenced the consolidation of radical milieus and whether they impacted the recruitment of foreign fighters In doing so the book traces the path of more than 400 individuals that either traveled to Syria or were involved in recruitment locally Employing a qualitative methodological approach the book argues that radical influencers are likely to be more evident in postwar societies due to state and societal fragility which create more power for social actors and constrain efforts to counter extremism Through the activism of social actors emerging from wars preceding conflicts resonate through society across different locations and particular postwar radical milieus do not need to be only in the place where war atrocities happened Thus radical milieus can spread to various locations including countries hosting postwar diaspora communities This book will be of much interest to students of radicalisation terrorism and political violence Balkan politics Middle Eastern politics and IR in general

*Prospects and Risks Beyond EU Enlargement* Wim van Meurs,2013-11-11 Werner Weidenfeld Since the signing of the Treaties of Rome in 1957 Western European history has been an ongoing process integrating and enlarging European institutions Over the course of that time the institutions now known as the European Union have become a major pillar for the security and

stability for Europe as a whole These essential functions can only be perpetuated if the Union can project its capacities and capabilities beyond its current borders Today s European agenda is defined by integration Offering prospects for membership in the EU has been a successful instrument for helping shape the transition in East Central Europe The imminent first round of enlargement also calls for a deep ening of EU integration which should be resolved through the EU Convention While the European Union is preparing for ten new member states developments in Europe are far from standing still The countries beyond the EU s future borders in Eastern Europe and the Balkans are undertaking a threefold process of national con solidation transition to a market economy and strengthening parliamentary democ racy These processes entail risks that range from authoritarian regimes to armed es calation in Southeastern Europe These risks have a direct impact on European secu rity and stability At the same time some areas of internal transition are making seri ous strides toward Western standards For this reason simply reducing Eastern and Southeastern Europe to a set of risks threatens to create a self fulfilling prophecy

**The Persistence of Orientalism** Peter Gran,2020-12-17 Why is the 1798 Napoleonic invasion of Egypt routinely accepted as a watershed moment between premodern and modern in general histories on the Middle East Although decades of scholarship most notably Edward Said s Orientalism have critiqued traditional binaries of developed and undeveloped in Arab studies the narrative of 1798 symbolizing the coming of the modern west to the rescue of the static east endures Peter Gran s The Persistence of Orientalism is the first book to take stock of this dominant paradigm interrogating its origins and the ways in which scholarship is produced to perpetuate it Gran surveys the history of American studies of Modern Egypt examining three central issues the periodization of modern professional knowledge in the US in the 1890s the contemporary identity of orientalism and its critique and the close connection between Oriental Despotism and the dominant formulation of American identity found in American Studies and in American life Reinvigorating the conversation on the historiography of modern Egypt this volume will influence a new generation of scholars studying the Middle East and beyond
