The Alien's Dictionary David Hallamshire, 1989-10-01 *The Alien Apocalypse* Frank Morin, 2014-05 *A Donkey's Diary* Conny Jansky, 2020-04-01

Seventy five years after the publication of Orwell's satirical fable it's story time again So welcome to the Free World where everyone will live happily ever after right SYNOPSIS A team of future scientists is determined to find out what caused a previous mass extinction of species when they discover evidence of mysterious creatures that may provide an answer to what caused the event The ancient finds include several scriptures among them a story called Animal Farm which tells the tale of a farm on which animals decide to overthrow their evil human master but soon after doing so the farm's pigs take over and turn malignant too This story is continued in another scripture titled Animal Farming which is told from the perspective of the donkey Benjamin who escapes the farm in fear of persecution by the pigs At first Benjamin is impressed by the high living standards on his new host farm but soon starts developing ethical concerns when a huge hen cage is installed Benjamin meets a series of characters representing renowned Western philosophers who have shaped the basis of today's moral justification for intensive animal farming methods From Aristotle to Kant they all try their best to convince Benjamin of its legitimacy and not without success It is only after a personal tragedy that Benjamin realises he should have listened to his gut feeling Besides challenging the popular reasoning in favour of intensive farming methods A Donkey's Diary explores arguments concerning animal welfare animal rights and environmental protection in the context of the ongoing climate crisis and mass extinction event In a sarcastic tone the story questions the popular assumption that humans are not to be considered animals due to their allegedly superior intellect In doing so the donkey Benjamin reveals what truly lies beneath their apparent need for eternal growth despite its fatal consequences that currently threaten to destroy their own livelihoods Similar to its prequel A Donkey's Diary is a satirical fable about humans and other animals The story represents how food production and with it the human animal relationship has changed over the course of the past three Industrial Revolutions and highlights which ancient arguments were and still are used to justify intensive farming practices It invites the reader to ponder animals food money work intelligence and much more

account of Maria Orsic Published by Times Square Press New York If you are among those who believe that our government's representatives met with aliens extraterrestrials then and logically you should entertain or consider the possibility that some of the subjects discussed during those meetings would be of a religious or at least moral or ethical nature especially since at least three powerful religious leaders in our country attended one or two meetings with aliens on an American soil In fact this is exactly what happened And we will be discussing the concerns and the questions of those religious dignitaries the answers of the aliens and how a synopsis of the discussions between our religious leaders and aliens ended up on the desk of religious authorities thanks to their religious affiliation and or loyalty to their faith's hierarchy The Westminster Review, 1904

Vakoch, 2011-04-01 In April 2010 fifty years to the month after the first experiment in the Search for Extraterrestrial Intelligence SETI scholars from a range of disciplines including astronomy mathematics anthropology history and cognitive science gathered at NASA's biennial Astrobiology Science Conference AbSciCon for a series of sessions on the search for intelligent life This book highlights the most recent developments in SETI discussed at that conference emphasizing the ways that SETI has grown since its inception The volume covers three broad themes First leading researchers examine the latest developments in observational SETI programs as well as innovative proposals for new search strategies and novel approaches to signal processing Second both proponents and opponents of Active SETI debate whether humankind should be transmitting intentional signals to other possible civilizations rather than only listening Third constructive proposals for interstellar messages are juxtaposed with critiques that ask whether any meaningful exchange is possible with an independently evolved civilization given the constraints of contact at interstellar distances where a round trip exchange could take centuries or millennia As we reflect on a half century of SETI research we are reminded of the expansion of search programs made possible by technological and conceptual advances In this spirit of ongoing exploration the contributors to this book advocate a diverse range of approaches to make SETI increasingly more powerful and effective as we embark on the next half century of searching for intelligence beyond Earth **Supreme Court, Appellate Division-First Department , Administrative Decisions Under Immigration & Nationality Laws** United States.
