The Almanac Of Sea Power 1992:

The Almanac of Seapower, 1992, 1992 **Air University Library Index to Military Periodicals**, 1999 *Inside the Danger Zone* Harold Lee Wise, 2013-09-15 From the Iraqi attack on the USS Stark to Iranian mine fields to Revolutionary Guard gunboats the 1987-88 Persian Gulf was a place of shadowy danger for U.S. Navy ships assigned to protect oil tankers during the Iran-Iraq War. A low profile escort mission quickly became an international test of wills between the United States and Iran. The conflict escalated to involve secret missions and special operations until finally the United States and Iran engaged in open combat most notably during Operation Praying Mantis in April 1988, the world's largest sea-air battle since World War II. It was the largest deployment of American forces between the Vietnam War and Desert Storm and one with dramatic implications for subsequent events. Yet the story remained mostly untold and misunderstood for almost two decades. *Inside the Danger Zone* is the first book ever published to focus on this period, a fourteen-month span that saw an unprecedented series of American military action in this volatile region. Based on declassified documents and extensive interviews with veterans and government officials, many of which spoke out for the first time, *Inside the Danger Zone* is a fast-moving narrative history that tells the story of this quasi-war with Iran from the White House to the front lines. **Monthly Catalog of United States Government Publications**, 1992 **Monthly Catalogue, United States Public Documents**, 1992 *Academic American Encyclopedia*, 1998 A twenty-one volume set of encyclopedias providing an alphabetical listing of information on a variety of topics. *Serials & Newspapers in Microform*, 1992 *Air Force Roles and Missions* Warren A. Trest, 1998 Traces the usage of and meaning given to the terms roles and missions relating to the armed forces and particularly to the United States Air Force from 1907 to the present. **Almanac of Seapower 1999**, 1999-07 **The Indian Ocean Power Politics** Sudha Raghavan, 1996 **Ulrich's International Periodicals Directory**, 1996 *Naval War College Review*, 1999 **Naval War College Review** Naval War College (U.S.), 1999 *Bibliography of Nautical Books* Alan Obin, 2000-02 This is the 15th annual edition of the *Bibliography of Nautical Books*, a reference guide to over 14,000 nautical publications. It deals specifically with the year 2000. *The US Military Profession into the 21st Century* Sam Sarkesian, Robert Connor, 2006-04-18 This brand new edition of *The US Military Profession into the Twenty-First Century* re-examines the challenges faced by the military profession in the aftermath of the international terrorist attack on the United States on September 11, 2001. While many of the issues facing the military profession examined in the first edition remain the same, the new war and international terrorism have compounded the challenges. The US military must respond to the changed domestic and strategic landscapes without diminishing its primary function, a function that now many see that goes beyond success on the battlefield. Not only has this complicated the problem of reconciling the military professional ethos and *raison d'être* with civilian control in a democracy, it challenges traditional military professionalism. This book also studies the notion of a US military stretched thin and relying more heavily on the US Federal Reserves and National Guard. These developments

make the US military profession increasingly linked to public attitudes and political perspectives In sum the challenge faced by the US military profession can be termed a dual dilemma It must respond effectively to the twenty first century strategic landscape while undergoing the revolution in military affairs and transformation At the same time the military profession must insure that it remains compatible with civilian cultures and the US political social system without eroding its primary function This is an invaluable book for all students with an interest in the US Military and of strategic studies and military history in general
