Robert Ludlum's The Paris Option Robert Ludlum, Gayle Lynds, 2010-04-01 For 30 years Robert Ludlum's novels have set the standard for the finest in international intrigue and suspense. With an unbroken string of bestsellers in almost every country in the world, Robert Ludlum's books have been enjoyed by hundreds of millions of readers and are widely acknowledged as classics in the field. Now, after the bestselling Covert One novels The Hades Factor and The Cassandra Compact comes the third thrilling novel in the series The Paris Option. A fiery explosion in the dark of night shatters one of the laboratory buildings in Paris's esteemed Pasteur Institute. Among the dead is Emile Chambord, one of the leaders in the global race to create a molecular or DNA computer. Unfortunately, Professor Chambord kept the details of his work secret, and his notes were apparently destroyed in either the bomb blast or the raging fire that followed. The scientific community does not expect a workable DNA computer to be developed for years. But suddenly, U.S. fighter jets disappear from radar screens for a full five minutes, and there's no explanation. Utilities across the Western states cease functioning, and all telecommunications abruptly stop with devastating consequences. This is not the work of a clever hacker, although Washington, worried about a panic, assures the public it is. Only the enormous power and speed of a DNA computer could have caused such havoc. Under the cover of visiting his friend Marty Zellerbach, who was severely injured when the Pasteur lab was destroyed, Covert One agent Jon Smith flies to Paris to search for the connection between the Pasteur explosion and the forces now wielding the computer. Following a trail that leads him across two continents, Smith uncovers a web of deception that threatens to wreck havoc and forever reshape the world.

Robert Ludlum's The Moscow Vector Robert Ludlum, Patrick Larkin, 2007-04-01 For the past three decades, Robert Ludlum's bestselling novels have been enjoyed by hundreds of millions of readers worldwide and have set the standard against which all other thrillers are measured. His Covert One series has been among his most beloved creations. Now comes the latest thrilling novel in the series, Robert Ludlum's The Moscow Vector. At an international conference in Prague, Lt. Col. Jon Smith, an Army research doctor specializing in infectious diseases and secretly an agent attached to Covert One, is contacted by a Russian colleague, Dr. Valentine Petrenko. Petrenko is concerned about a small cluster of mysterious deaths in Moscow and about the Russian government's refusal to release publicly any information or data on the outbreak. When the two meet, they are attacked by a group of mysterious men, and Petrenko is killed. His notes and medical samples are lost, and Smith barely escapes with his life. At the same time, a series of government officials around the world are coming down with a mysterious, fast-acting virus with a 100% fatality rate. These deaths are somehow related to the increasing militarism from the new Russian government headed by the autocratic and ambitious President Victor Dudarev. With few clues and precious little time, Smith and Covert One must unravel this mysterious plot and find the mysterious figure who stands at the center of it all.

Robert Ludlum's The Hades Factor Robert Ludlum, Gayle Lynds, 2006-04-04 Due to a deadly virus the death toll mounts as a private team searches for the truth Their quest leads to the highest levels of power and the darkest corners of the earth as they match wits with a determined genius and as the fate of the world lies in the balance *Robert Ludlum's The Lazarus Vendetta* Robert Ludlum, Patrick Larkin, 2007-04-01 For the past three decades Robert Ludlum's bestselling novels have been enjoyed by hundreds of millions of readers worldwide and have set the standard against which all other thrillers are measured His Covert One series has been among his most beloved creations and now comes the latest thrilling novel in the series The Lazarus Movement the dominant force in the eco conscious anti technology protest movement has sent rumblings down the halls of the world's intelligence agencies Led by a mysterious never seen figure known only as Lazarus this increasingly prominent group is believed by some to be preparing a bold strike When an attack on a nano technology research facility leaves thousands dead protestors and scientists alike from what appears to be a cloud of inadvertently released but gruesomely deadly nanobots pandemonium reigns Lt Col Jon Smith is activated by Covert One to find and uncover the truth about Lazarus where all others have failed As Smith slowly uncovers the deadly underpinnings of the group he soon learns that the Lazarus Movement is only the very tip of the iceberg in a deadly scheme that threatens billions of lives and will forever change the nature of the world itself **Robert Ludlum's The Treadstone Resurrection** Joshua Hood, 2020-02-25 The first novel in an explosive new series inspired by Robert Ludlum's Bourne universe The Treadstone Resurrection introduces an unforgettable hero and the shadowy world that forged him Treadstone made Jason Bourne an unstoppable force but he's not the only one Operation Treadstone has nearly ruined Adam Hayes The top secret CIA Black Ops program trained him to be an all but invincible assassin but it also cost him his family and any chance at a normal life Which is why he was determined to get out Working as a carpenter in rural Washington state Adam thinks he has left Treadstone in the past until he receives a mysterious email from a former colleague and soon after is attacked by an unknown hit team at his job site Adam must regain the skills that Treadstone taught him lightning reflexes and a cold conscience in order to discover who the would be killers are and why they have come after him now Are his pursuers enemies from a long ago mission Rival intelligence agents Or perhaps forces inside Treadstone His search will unearth secrets in the highest levels of government and pull him back into the shadowy world he worked so hard to forget *Robert Ludlum's The Bourne Shadow* Brian Freeman, 2025-05-20 Jason Bourne must face the violence and betrayal of his forgotten past in this latest gripping entry in Robert Ludlum's 1 New York Times bestselling series Like most spies Jason Bourne lives in the shadows But for Bourne whose entire memory was stripped away by a bullet those shadows hide dangerous secrets When a desperate stranger in Zurich asks for his help she calls him by the name David Webb which is the identity he left behind years ago to become Jason Bourne This woman tells him an incredible story that her sister disappeared with David's help after the deaths of four terrorists in the mountains Now men from this same extremist group are trying to hunt her down

Lustbader, 2012-06-05 The internationally known Jason Bourne can t help by feel connected to this case as he finds a man also with amnesia and the truth behind his identity could just save Bourne s life The man Jason Bourne fishes out of the freezing sea is near death half drowned and bleeding profusely from a gunshot wound He awakens with no memory of who he is or why he was shot and Bourne is eerily reminded of his own amnesia Then Bourne discovers that the Mossad agent named Rebeka is so determined to find this injured man that she has gone off the grid cut her ties to her agency and is now

being stalked by Mossad's most feared killer. Do the answers to these mysteries lie back in southeast Lebanon in a secret encampment to which Bourne and Rebeka escaped following a firefight weeks ago? The complex trail links to the mission given to Treadstone directors Peter Marks and Soraya Moore: find the semi-mythic terrorist assassin known as Nicodemus. In the course of Bourne's desperate, deadly search for a secret that will alter the future of the entire world, he will experience both triumph and loss, and his life will never be the same. Now everything turns on the amnesiac Bourne: must he learn his identity and purpose before both he and Rebeka are killed? From Stockholm to Washington D.C., from Mexico City to Beijing, the web of lies and betrayals extends into a worldwide conspiracy of monumental proportions.
