The Kaiju Connection Jason Barr,2023-10-02 What makes a kaiju a kaiju What makes an ape a large ape and why do we sympathize with some such as King Kong and not with others such as Konga And what makes a giant person become a monster This book provides a new perspective on kaiju and reveals that our boundaries for the genre are perhaps not so solid This work focuses primarily on newer kaiju works ranging from Colossal to Shin Godzilla to Godzilla vs Kong but also touches on classics such as King Kong Mighty Joe Young Godzilla Raids Again and lesser known works such as What to Do With the Dead Kaiju and Agon Like our ancestors we have collectively adopted giant monsters into our culture especially our pop culture Within the domains where giant monsters walk we experience the rigidity of our moral structures and the fleeting borders of our definitions of humanity Within the kaiju film genre rest our own assumptions about what makes a monster a monster and more importantly what makes a human a human

John Landis's personal selection of landmark horror films Biology Run Amok! Mark C. Glassy, 2018-04-26 Science fiction movie audiences may sometimes wonder how fictitious the science in a film really is Yet for many call them the Jurassic Park generation film and popular media can present a seemingly plausible melding of science and fiction that forms a distorted understanding of scientific facts and concepts Recognizing that film is both the dominant entertainment medium and an effective tool for teaching this book featuring articles originally published in the magazine Scary Monsters separates biological reality from fantasy in dozens of science fiction films including The Island of Lost Souls 1933 The Incredible Shrinking Man 1957 War of the Worlds 1953 A Clockwork Orange 1971 Scanners 1980 The Serpent and the Rainbow 1987 and Outbreak 1995 **"Twice the Thrills! Twice the Chills!"** Bryan Senn, 2019-02-28 In the mid 1950s to combat declining theater attendance film distributors began releasing pre packaged genre double bills including many horror and science fiction double features Though many of these films were low budget and low end others such as Invasion of the Body Snatchers Horror of Dracula and The Fly became bona fide classics Beginning with Universal International's 1955 pairing of Revenge of the Creature and Cult of the Cobra 147 officially sanctioned horror and sci fi double bills were released over a 20 year period This book presents these double features year by year and includes production details historical notes and critical commentary for each film **Sci-Fi Film Fiesta** Chris Christopoulos, 2023-02-03 The SCI FI FILM FIESTA eBook series is intended as a salute to the pioneering work of science fiction film makers May future generations have the privilege of enjoying your work and never stop wondering What if Although this 10th volume in the Sci Fi Film Fiesta eBook series features only a handful of films from the 1950s they have all managed to achieve a kind of iconic status and a level of cultural significance Collectively the five featured films serve as a metaphor for much of the human condition and are therefore of relevance to audiences of any era Movie Monsters in Scale Mark C. Glassy, 2012-12-01 This book showcases stunningly realistic and wonderfully posed models and dioramas depicting various characters and scenes from science fiction and horror cinema The models and dioramas are presented in chronological order starting with the silent films from 1910 to 1927 then the classic films from the 1930s and 1940s including Universal Studios Dracula Frankenstein and Wolf Man franchises Next are the many radiation induced mutants and invaders from outer space of the 1950s followed by offerings from the 1960s 1970s 1980s and 1990s Hammer Films are included as well as the Mummy movies and Universal's Gillman series A detailed explanation of the nitty gritty of model and diorama building is presented and particular details unique to each piece are shown in close ups and discussed The figures are of unprecedented artistry Apocalypse Then Mike Bogue, 2017-08-11 The United States the only country to have dropped the bomb and Japan the only one to have suffered its devastation understandably portray the nuclear threat differently on film American science fiction movies of the 1950s and 1960s generally proclaim that it is possible to put the nuclear genie back in the bottle Japanese films of the same period assert that once freed the nuclear genie can never again be imprisoned This book examines genre films from the two countries released

between 1951 and 1967 including Godzilla 1954 The Mysterians 1957 The Incredible Shrinking Man 1957 On the Beach 1959 The Last War 1961 and Dr Strangelove 1964 to show the view from both sides of the Pacific Keep Watching the Skies! Find Dale Sherman,2023-06-15 Had you tuned in to the small television station KTMA on Thanksgiving Day 1988 you would have been one of the few witnesses to pop culture history being made On that day viewers in and around St Paul Minnesota were treated to a genuine oddity in which a man and his robots trapped within a defiantly DIY sci fi set cracked jokes while watching a terrible movie It was a cockeyed twist on the local TV programs of the past in which a host would introduce old cheaply licensed films And though its origins may have been inauspicious Mystery Science Theater 3000 captured the spirit of what had been a beloved pastime for generations of wags wiseacres and smartalecks and would soon go on to inspire countless more The Worst We Can Find is a comprehensive history of and guide to MST3K and its various offshoots including Rifftrax Cinematic Titanic and The Mads Are Back whose lean crew of writers performers and puppeteers have now been making fun of movies for over thirty years It investigates how riffing of films evolved recounts the history of these programs and considers how a practice guaranteed to annoy real life fellow moviegoers grew into such a beloved long lasting franchise As author Dale Sherman explains creative heckling has been around forever but MST3K and its progeny managed to redirect that art into a style that was both affectionate and cutting winning the devotion of countless fans and aspiring riffers

Monsters, Mushroom Clouds, and the Cold War M. Keith Booker,2001-05-30 The 1950s are widely regarded as the golden age of American science fiction This book surveys a wide range of major science fiction novels and films from the long 1950s the period from 1946 to 1964 when the tensions of the Cold War were at their peak The American science fiction novels and films of this period clearly reflect Cold War anxieties and tensions through their focus on such themes as alien

invasion and nuclear holocaust In this sense they resemble the observations of social and cultural critics during the same period Meanwhile American science fiction of the long 1950s also engages its historical and political contexts through an interrogation of phenomena such as alienation and routinization that can be seen as consequences of the development of American capitalism during this period This economic trend is part of the rise of the global phenomenon that Marxist theorists have called late capitalism Thus American science fiction during this period reflects the rise of late capitalism and participates in the beginnings of postmodernism described by Frederic Jameson as the cultural logic of late capitalism
