The Newspaper Club Harry Franklin Harrington,Evaline Harrington,1927 Conspiracy Theories Mark Fenster,1999 JFK Karl Marx the Pope Aristotle Onassis Queen Elizabeth II Howard Hughes Fox Mulder Bill Clinton all have been linked to

vastly complicated global or even galactic intrigues In this enlightening tour of conspiracy theories Mark Fenster guides readers through this shadowy world and analyzes its complex role in American culture and politics Fenster argues that conspiracy theories are a form of popular political interpretation and contends that understanding how they circulate through mass culture helps us better understand our society as a whole To that end he discusses Richard Hofstadter's *The Paranoid Style in American Politics* the militia movement *The X Files* popular Christian apocalyptic thought and such artifacts of suspicion as *The Turner Diaries* the *Illuminatus* trilogy and the novels of Richard Condon Fenster analyzes the conspiracy community of radio shows magazine and book publishers Internet resources and role playing games that promote these theories In this world the very denial of a conspiracy's existence becomes proof that it exists and the truth is always out there He believes conspiracy theory has become a thrill for a bored subculture one characterized by its members reinterpretation of accepted history their deep cynicism about contemporary politics and their longing for a utopian future Fenster's progressive critique of conspiracy theories both recognizes the secrecy and inequities of power in contemporary politics and economics and works toward effective political engagement Probing conspiracy theory's tendencies toward scapegoating racism and fascism as well as Hofstadter's centrist acceptance of a postwar American consensus he advocates what conspiracy theory wants but cannot articulate a more inclusive engaging political culture Palmer's Index to "The Times"

Trump's Media War Catherine Happer, Andrew Hoskins, William Merrin, 2018-10-17 The election of Donald Trump as US President in 2016 seemed to catch the world napping Like the vote for Brexit in the UK there seemed to be a new de synchronicity a huge reality gap between the unfolding of history and the mainstream news media's interpretations of and reporting of contemporary events Through a series of short sharp interventions from academics and journalists this book interrogates the emergent media war around Donald Trump A series of interconnected themes are used to set an agenda for exploration of Trump as the lynch pin in the fall of the liberal mainstream and the rise of the right media mainstream in the USA By exploring topics such as Trump's television celebrity his presidential candidacy and data driven election campaign his use of social media his press conferences and combative relationship with the mainstream media and the question of fake news and his administration's defence of alternative facts the contributors rally together to map the parallels of the seemingly momentous and continuing shifts in the wider relationship between media and politics

The Disinformers Lance Porter, 2024-08-07 The Disinformers uncovers the people and the organizations behind the disinformation campaigns that began on social media with the 2016 U S presidential election and reached a violent crescendo with the storming of the U S Capitol on January 6 2021 Edited by social media researcher Lance Porter this vital collection of interdisciplinary scholarship analyzes how foreign interference destabilized political conversations stoked racial tensions and spread disinformation across social media platforms to produce increasing friction among voters With a new presidential election cycle in motion members of the voting public continue questioning both the security of the nation's election systems and the validity of its media networks The 2016 election thrust the vulnerability of voting technology to the forefront of conversations in the United States and sparked discussions about the use of social media to distribute divisive and false information While Donald Trump's claims of fraud in the 2016 and 2020 elections were verifiably false disinformation undoubtedly roiled the nation's media systems and spurred on the insurrection of January 6 Presenting seven essays of original research The Disinformers focuses on the turning point of 2016 and how disinformation campaigns continued in the following years The contributors examine organizations such as Russia's Internet Research Agency and its connections with a conservative network across social media including Facebook and Twitter that disseminated incendiary content Essays from political scientists media scholars computer scientists and cybersecurity experts reveal the ways in which disinformation permeates social media the platform policies and chronic inaction that enable disinformation to circulate and the effects of disinformation on young people as well as on historically repressed
