Measuring Second Language Vocabulary Acquisition James Milton, 2009-10-06 Measuring Second Language Vocabulary

Acquisition provides an examination of the background to testing vocabulary knowledge in a second language and in particular considers the effect that word frequency and lexical coverage have on learning and communication in a foreign language. It examines the tools we have for assessing the various facets of vocabulary knowledge such as aural and written word recognition, the link with word meaning and vocabulary depth. These are illustrated and the scores they produce are demonstrated to provide normative data. Vocabulary acquisition from course books and in the classroom is examined as is vocabulary uptake from informal tasks. This book ties scores on tests of vocabulary breadth to performance on standard foreign language examinations and on hierarchies of communicative performance such as the CEFR. **Reference**

Through the years, certain passages have taken on prestige, others are seen as unimportant to understanding Beauvoir's argument. In *Toward a Phenomenology of Sexual Difference*, Sara Heinämaa rediscovers those neglected passages in her quest to follow Beauvoir's line of thinking. Heinämaa, like some other recent philosophers, finds that *Le Deuxième Sexe* is a philosophical inquiry, not the empirical study it is commonly thought to be. Others who view Beauvoir's masterpiece as a work of philosophy argue it is a criticism, not only of Sartrean phenomenology but of phenomenology as a whole. Heinämaa thinks differently. She finds that Beauvoir's starting point is the Husserlian idea of the living body that she found developed in Merleau-Ponty's *Phénoménologie de la perception*. So when Beauvoir wrote *Le Deuxième Sexe*, she was writing not as Sartre's pupil but as a scholar in the tradition of Husserl and Merleau-Ponty. **ACE Bulletin**, 1987 *FCE Use of English* Virginia Evans, 2022
