An Account of the Socio-topographic Construction of Space in Australian Literature** Pablo Armellino,2012-02-27

Ob scene Spaces in Australian Narrative is an exhaustive survey of Australian literature proposing itself as a journey through time and space With a careful selection of texts which recount Australian history from the early days of white colonization to the present this study endeavours to cast light on the process of socio topographic construction that the settlers imposed upon the continent As suggested by the title the textual inquiry conducted in this book is driven by the stimulating ambiguity that lies between physical space and its discursive construction A selection of canonical and non canonical texts by authors ranging from Henry Lawson to Christos Tsiolkas aims to reveal the relationship between the space of the city the scene and the outback the ob scene space beyond the metropolitan area and its role in the process of spatial construction that through the last two centuries has shaped Australia Pablo Armellino s distinctive approach to Australian literature makes **Ob scene Spaces in Australian Narrative** a very interesting work Using a carefully selected range of novels linked together using social and literary theory it recounts the history of colonization in Australia in a particularly approachable manner Through the analysis of each text the reader seamlessly learns about the expansion of the frontier the creation of an ob scene space beyond it and

the use the Discourse makes of this mechanism These characteristics would appeal to both an academic audience which would appreciate the detailed text analysis and a general audience which would enjoy the historical and thematic aspect of the book Professor Carmen Concilio and Professor Pietro Deandrea Facolt di Lingue Universit di Torino *New York Herald Tribune Book Review* ,1950 *Garden-work for Villa, Suburban, Town and Cottage Gardens* ,1891 *Muslim Cool* Su'ad Abdul Khabeer,2016-12-06 Interviews with young Muslims in Chicago explore the complexity of identities formed at the crossroads of Islam and hip hop This groundbreaking study of race religion and popular culture in the 21st century United States focuses on a new concept Muslim Cool Muslim Cool is a way of being an American Muslim displayed in ideas dress social activism in the hood and in complex relationships to state power Constructed through hip hop and the performance of Blackness Muslim Cool is a way of engaging with the Black American experience by both Black and non Black young Muslims that challenges racist norms in the U S as well as dominant ethnic and religious structures within American Muslim communities Drawing on over two years of ethnographic research Su ad Abdul Khabeer illuminates the ways in which young and multiethnic US Muslims draw on Blackness to construct their identities as Muslims This is a form of critical Muslim self making that builds on interconnections and intersections rather than divisions between Black and Muslim Thus by countering the notion that Blackness and the Muslim experience are fundamentally different Muslim Cool poses a critical challenge to dominant ideas that Muslims are foreign to the United States and puts Blackness at the center of the study of American Islam Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested critical because they push back against the pervasive phenomenon of anti Blackness and contested because questions of race class gender and nationality continue to complicate self making in the United States [Losing Our Cool](#) Stan Cox,2010-05-25 *Losing our Cool* shows how indoor climate control is colliding with an out of control outdoor climate In America energy consumed by home air conditioning and the resulting greenhouse emissions have doubled in just over a decade and energy to cool retail stores has risen by two thirds Now the entire affluent world is adopting the technology As the biggest economic crisis in eighty years rolls across the globe financial concerns threaten to shove ecological crises into the background Reporting from some of the world s hot zones from Phoenix Arizona and Naples Florida to southern India Cox documents the surprising ways in which air conditioning changes human experience giving a boost to the global warming that it is designed to help us endure providing a potent commercial stimulant making possible an impossible commuter economy and altering migration patterns air conditioning has helped alter the political hue of the United States by enabling a population boom in the red state Sun Belt While the book proves that the planet s atmosphere cannot sustain even our current use of air conditioning it also makes a much more positive argument that loosening our attachment to refrigerated air could bring benefits to humans and the planet that go well beyond averting a climate crisis Though it saves lives in heat waves air conditioning may also be altering our bodies sensitivity to heat our rates of infection allergy asthma and obesity and even our

sex drive Air conditioning has eroded social bonds and thwarted childhood adventure it has transformed the ways we eat sleep travel work buy relax vote and make both love and war The final chapter surveys the many alternatives to conventional central air conditioning By reintroducing some traditional cooling methods putting newly emerging technologies into practice and getting beyond industrial definitions of comfort we can make ourselves comfortable and keep the planet comfortable too
