Homi Bhabha: An Introduction and Critique, Volume 3: Political Theory and Practice

Andrew McLaverty-Robinson, 2020-01-31 Homi Bhabha An Introduction and Critique is a pathbreaking three volume study of the celebrated postcolonial scholar s work McLaverty Robinson s careful reading renders Bhabha s theories in plain English without losing their meaning In addition McLaverty Robinson s incisive critique cuts through the theoretical aura of Bhabha s work and explores whether his theories work in practice either empirically or politically This third and final volume explores the political content and implications of Bhabha s work It explores Bhabha s political proposals such as the ideas of a community of suffering and a right to narrate It also explores Bhabha s relationship to neoliberalism and to the Eurocommunist current in the 1980s and his critical engagements with liberalism communitarianism Marxism critical race theory Deleuze and Guattari and Frantz Fanon This volume also includes an entire chapter providing a background on neoliberalism and a comprehensive index covering all three volumes

Mahan, Corbett, and the Foundations of Naval

Strategic Thought Kevin D McCranie, 2021-02-15 At the turn of the twentieth century Alfred Thayer Mahan and Julian Stafford Corbett emerged as foundational thinkers on naval strategy and maritime power Important in their lifetimes their writings remain relevant in the contemporary environment The significance of Corbett and Mahan to modern naval strategy seems beyond question but too often their theories are simplified or used without a real understanding of their fundamental bases Labeling a strategy operation or even a navy Mahanian or Corbettian tells very little Mahan Corbett and the

Foundations of Naval Strategic Thought provides an in depth introduction and a means to stimulate discussion about the theories of Mahan and Corbett Although there is no substitute for opening the actual writings of Mahan and Corbett this requires time not just to read but most importantly to understand how states exploit the sea in the strategic sense Mahan Corbett and the Foundations of Naval Strategic Thought takes the reader from their grand strategic foundations of sea power and maritime strategy through their ideas about naval warfare and strategy to how Mahan and Corbett thought a navy should integrate with other instruments of national power and finally to how they thought states with powerful navies win wars This window into naval strategy provides twenty first century readers an understanding of what navies can and perhaps more importantly cannot do in the international environment *Strategic Studies* Thomas G. Mahnken, Joseph A. Maiolo, 2014-01-10 The second edition of Strategic Studies A Reader brings together key essays on strategic theory by some of the leading contributors to the field This revised volume contains several new essays and updated introductions to each section The volume comprises hard to find classics in the field as well as the latest scholarship The aim is to provide students with a wide ranging survey of the key issues in strategic studies and to provide an introduction to the main ideas and themes in the field The book contains six extensive sections each of which is prefaced by a short introductory essay The Uses of Strategic Theory Interpretation of the Classics Instruments of War Intelligence and Deception Nuclear Strategy Irregular Warfare and Small Wars Future Warfare Future Strategy Overall this volume strikes a balance between theoretical works which seek to discover generalisations about the nature of modern strategy and case studies which attempt to ground the study of strategy in the realities of modern war This new edition will be essential reading for all students of strategic studies security studies military history and war studies as well as for professional military college students Churchill and the Strategic Dilemmas before the World Wars John H. Maurer, 2014-04-04 Before Michael I Handel died his colleagues and students compiled this collection of essays that were written for a conference on strategy held during 2001 The papers address Churchill s views and ideas on war strategy and realpolitik *The Strategic Use of Force in Counterinsurgency* Miles Kitts, 2020-01-13 The Strategic Use of Force in Counterinsurgency Find Fix Fight focuses on how to understand the relationship between the use of force and the outcomes of such use Specifically there is debate as to how to evaluate counterinsurgency conflicts and what prescriptions flow from that evaluation The Neo Classicist school emphasises prescriptions which are either directly from or inspired by Cold War counterinsurgency efforts undertaken by anti communist states The Revisionist school focuses on how best to evaluate the political dimensions of such conflicts This book finds that a third approach Reflective Action is best as it combines Neo Classicism s strength of issuing practical prescriptions with Revisionism s strength for conceptually evaluating counterinsurgency conflicts This conceptual debate is explicated in three cases They are the British counterinsurgency during the Malayan Emergency of the 1940s and 1950s American counterinsurgency in South Vietnam during the 1960s and 1970s and the Coalition counterinsurgency in Iraq during the

2000s *Rethinking the Principles of War* Anthony McIvor, 2012-11-16 This new work features the fresh thinking of twenty eight leading authors from a variety of military and national security disciplines Following an introduction by Lt Gen James Dubik Commander I Corps U S Army and an opening essay titled State of the Question by Dr Colin Gray the anthology first considers the general question of An American Way of War Sections on operational art with writers addressing the issues in both conventional and small wars stability and reconstruction and intelligence complete the volume Among the well known contributors are Fred Kagan Ralph Peters Harlan Ullman and Milan Vego This collection of essays is the outcome of a seminar series sponsored by the Office of Force Transformation and the U S Navy to examine the future of warfare and the underlying principles of war and to educate future military strategists and leaders on these principles Footnotes index and a bibliographic essay make the work a useful tool for students of war and general readers alike *Paradoxes of Strategic Intelligence* Richard K. Betts, Thomas Mahnken, 2004-08-02 Part of a three part collection in honour of the teachings of Michael I Handel one of the foremost strategists of the late 20th century this collection explores the paradoxes of intelligence analysis surprise and deception from both historical and theoretical perspectives
